

The Democrat.

SATURDAY, MARCH 27, 1899.

MEDICAL, ETC.—Dr. Rafferty, formerly of Salem, has located in our city for the purpose of practicing medicine.

DANGEROUSLY ILL.—We learn that Mr. John H. Edmanson, formerly a resident of the Forks of Santiam in this county, is now lying dangerously ill of lung fever, at Eugene City.

FOR WHITE PINE.—Our fellow citizen J. B. Spronger, proprietor of the late Pacific Hotel, will sail by the next steamer for White Pine.

DECEASED.—We learn that Mr. Jessie Looney, for many years past keeper of the "Half-Way House" between Albany and Salem, died on last Thursday morning at 6 o'clock.

IMPROVEMENTS.—We observe that our tonorial friend, Joseph Webber, Esq., has been securing up and re-painting the front of his popular establishment—the Albany Bath House.

NEW HOTEL.—Mr. E. Murray, for several months past the proprietor of the Empire Restaurant of this city, has purchased the large building on the corner of Washington and First streets, known as the Delmonico Restaurant, and is now having it refitted for the purpose of occupying it as a hotel.

ATTORNEYS.—The following attorneys were in attendance during this week at the Circuit Court for Linn county: R. S. Strahan, John Burnett, A. J. Thayer, J. Q. Thornton, F. A. Chenoweth, and S. L. Simpson, of Benton county; Benj. Hayden, of Polk; N. H. Cranor, N. B. Humphrey, Russell & Elkins, Powell & Flinn, and John J. Whitney, of Linn.

HEMANN THE WIZARD.—This notable magician gave one of his unique and entertaining exhibitions of Magic and Ventri- quism at Parrish's Hall on last Tuesday evening. His show, in the main, is good, and some of his feats of legerdemain are remarkable in their mystifying character.

WATER DITCH.—Proposals will be received by the Lebanon Water Ditch and Manufacturing Company to dig or construct a Ditch or Canal that will conduct water from the Santiam to Lebanon. This looks as if the Company were in earnest, and we sincerely hope the enterprise will be carried on to a successful completion.

LIFE INSURANCE.—In this fast age of velocipedes, air ships, railroad accidents, steamboat explosions, etc., every man should make some pecuniary arrangement for the subsistence of his family, so as to be prepared for accidents at any time which may deprive him of life and his family of a protector.

STEAMBOAT EXCURSION.—Albany Fire Company No. 1 will have a steamboat excursion on next Tuesday. The steamer "Albany" will leave this city at seven o'clock Tuesday morning, go as high up the Willamette as the stage of water will admit, and return in the afternoon.

ALBANY PRICES CURRENT. CORRECTED WEEKLY BY J. GRADWOLD. ALBANY, March 27, 1899. The following are the prices paid for Produce and the prices at which other articles are selling in this market.

Wheat—white, per bushel, 55 cts. Oats—per bushel, 35@40 cts. Potatoes—per bushel, \$1.25. Corn—per bushel, 25@30 cts.

On motion, in following resolution was adopted. Resolved, That the order heretofore made by the Council for the assessment of the City on the list of May is hereby rescinded, and the Recorder is required to commence the assessment of the City on the first Monday in April, and he shall be allowed a reasonable time to complete the same.

On motion, it was ordered that a committee of three be appointed by the Mayor to draft rules and regulations for the organization of a Fire Department in this city; whereupon Councilmen Haddock, Conley and Maysley were appointed said committee.

DIED.—March 19th, at Harriburg, of brain fever, Retta Bell, only daughter of Benjamin R. and Susanna S. Holt, aged 3 years, 7 months and 23 days. Gone to join little Minnie, who died on the 11th.

HOSTETTER'S BITTERS.

[Daily Cincinnati Commercial, Sept. 3, 1868.]

MEDICAL PROPERTIES OF HOSTETTER'S BITTERS.—Let it be distinctly borne in mind that HOSTETTER'S BITTERS is a MEDICAL PREPARATION, not a BEVERAGE, and that it is entirely free from the attributes which create and foster a passion for stimulants, and which belong to all the distilled and fermented liquors of commerce.

Only a diffusible stimulant can the medicinal conditions that are to fortify the system against disease, or counteract disease action, be conveyed directly to their destination. The stimulant rapidly pervades the animal structure, carrying with it to the points where it is needed, the required antidote. Water will not do this. It has, comparatively speaking, no propelling or diffusive power. Nor is this all. Nothing but alcohol will preserve the medicinal property of vegetable extracts in a fluid state.

It is claimed that HOSTETTER'S BITTERS commended themselves to the special favor of the Temperance Physician as the only diffusive stimulant which he can prescribe without danger of unduly exciting the brain of his patient, and of creating that morbid thirst for alcohol which doses of unmedicated spirits are so apt to engender.

To argue with the dogmatists who assert that stimulants are always unnecessary and pernicious, would be a waste of time. The most eminent lights of Medical Science have settled that question, and it is not worth while to have a controversy with the rash light. The leading champions of temperance in the United States, Horace Greely among the number, have announced that they are not in favor of prohibiting the employment of spirituous liquors as medicines.

So much for the moral claims of the article under the temperance code. The ground being thus cleared, and it is hoped to the satisfaction of every rational champion of sobriety, the specific application of the Bitters to the prevention and cure of the "ills that flesh is heir to," comes next in order.

Persons whose livers are peculiarly sensitive, are said to be of a "bilious habit." The morbid influences which affect others in a general way, seem in their cases to operate directly and exclusively upon the biliary organs. Many who are thus predisposed to an overflow of bile are subject to periodical attacks of biliousness, accompanied by pain in the right side, languor, pain between the shoulders, glossy feces, and that peculiar tingling of the complexion which indicates that a portion of the bile which should have passed off through the bowels has been misdirected to the venous system, and is present in the superficial blood vessels.

A case, for the "most popular man in Georgia," has just been given to Alexander H. Stephens. Those who wrong others generally slander them to cover their own infamy.
