

The Democrat.

FRIDAY, FEBRUARY 11, 1870.

Mr. Garfield, of Ohio. Massachusetts did not. She paid her interest in gold. Mr. Morgan. Yes, she was the single exception; but Ohio, our own State, by the action of its Republican Legislature did repudiate by paying only one-half of the interest due on her debt.

All the anthracite coal in the world is confined in the Wilkesbarre basin in Pennsylvania, and is comprised in a district about fifty miles in length by four in breadth. It is doubtless destined to be some day exhausted, though not for several generations yet. The aggregate thickness of the several veins is about sixty feet. The business of mining and transportation is gradually tending towards consolidation in the hands of a few large companies.

"GAY" NEWS! FARMERS CAN RIDE AND PLOW! "GAY" PLOWS! Manufactured and sold for the very LOW PRICES OF \$65 AND \$75!

The simplicity and practicability of this new Plow commends it favorably to the special notice of every farmer. It possesses a decided superiority over all other Plows now in use. The wheels are four feet in diameter and run on the unplowed land. Its entire construction is in no way complicated. The Plow is managed in every manner with ease, and requires only two men to be used in making any alteration. The superiority of the "Gay" Plow will be clearly shown by the following certificate:

We the undersigned, citizens of Linn county, Oregon, having purchased and used upon our farms the "GAY" PLOW, hereby certify that the time has given us entire satisfaction. Its facility for adjusting to suit the depth of the furrow without moving from the line is simple and easy. We like the Plow for its draught because the same is brought to bear directly upon the Plow beam instead of the springs; also because it is strong and heavy, all except the wood being constructed of wrought iron; no castings are used. The wheels running upon the solid land is an advantage over other Gay Plows in striking off weeds and in plowing, and having to make the necessary changes in the machinery; and the seat is always level, not throwing the driver forward or sideways as in other Plows. Better work and more of it can be accomplished by the use of this Plow than by hand.

We take pleasure in recommending the "GAY" PLOW to our brother farmers as one having no superior in Oregon. J. G. REED, S. L. LOONEY, W. H. GOLTREE, E. W. PIERCE, HENRY WATSON. May 22nd 1869. Portland, Or. n.

The "GAY" PLOW is manufactured by H. Gooding, Portland Machine Shop. All orders will be promptly attended to by addressing O. P. TOMPKINS & CO., Portland, Or. n. May 22nd 1869. J. H. BROWN & CO., and JNO. BRIGGS, are authorized Agents for Linn and Benton counties.

Ayer's Hair Vigor, For restoring Gray Hair to its natural Vitality and Color.

A dressing which is once agreeable, healthy, and effective for preserving the hair. Faded or gray hair is soon restored to its original color with the glass and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such a condition can be saved from usefulness by this application. Instead of losing the hair with a rusty comb, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling out, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing also can be found so desirable. Contains neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., LOWELL, MASS. PRICE \$1.00.

They were painfully afflicting, have been radically cured, such persons should be informed of the location of the country, that the public scarcely need to be informed of its virtues or uses. Scrophulous poison is one of the most destructive enemies of our race. Often, this poison and undisturbed rest of the system, and the consequent irritation and inflammation, and the attack of emphysema or fatal disease. It seems to brood insidiously throughout the body, and in some favorable occasion, rapidly develop into one or other of the various forms of the scrophulous or tuberculous system. In the latter, tubercles are gradually deposited in the lungs, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcers on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear.
