The Democrat.

FRIDAY.......APRIL 21, 1871.

A CLOSE CALL.—Last Saturday Messrs. Wm. H. Brown and Cass. H. Humphrey, while skiff-riding in the Calipooia, below the dam, at Foster's mill, had a most miraculous escape from drowning. They carelessly rowed close up under the dam, until the skiff was caught in the whirl-pool and drawn with terrible velocity toward the waterfall. Brown, who was rowing, saw that the boat must inevitably be drawn into the mad torrent, and he ordered young Humphrey, who was in the stern of the boat, to jump out and swim for his life. Humphrey obeyed, and leaping into the water, attempted to swim to shore. In the meantime the boat, containing Mr. Brown, shot swiftly under the dam and both were lost to view beneath the surging torrent. In a moment, however, the boat came to the surface of the water, and then again disappeared, coming up again, presently, in fifty pieces, having been dashed to atoms on the rocks beneath the water. Brown appeared at the top of the water two or three times, but the madly-lashing waves as quickly hurled him beneath again, and for almost a minute he was entirely lost to view, when he appeared again about forty feet down stream from the dam, and completely out of reach of the maelstrom. As soon as he came to the surface of the water he saw young Humphrey still floating about in the water near the dam, apparently unable to get out, and calling to him to float down stream, Humphrey obeyed and was soon lifted upon *terra firma* by Mr. Brown, who is a large, strong man, and who was but slightly fatigued after his desperate battle with the mad waves. He was, however, considerably bruised about the body by having been dashed several times against the rocks under the dam, while at the mercy of the terrible whirlpool. It was a narrow escape for both of the "boys," and one which all who know the dangerous whirlpool regard as almost miraculous.

A NEW BANK.—Mr. John Conner, banker of this city, has shown us the draft of a plan for his new bank building, from which we get the following information: The Bank is to be built on the east side of his present brick building and is to be also of brick, with a stone foundation. The building will be 16 feet wide by 80 feet long, one story high. The front will be of glass supported by heavy iron columns, and will be handsomely ornamented. The first room at the entrance is the Secretary and Cashier's apartment, divided about the middle by an elegant high counter. In rear of this room is a consultation room, and in rear of that an office, and still further back are bedroom, storage room, etc. A hall extends the full length of the building, next to the east wall, and from this hall doors open into the several apartments named. The vault, safe, etc., will be in rear of the cashier's room. This building will be a substantial and elegant structure, and will cost from $4,000 to $5,000. It is to be built the present season.

NAVIGATING THE SANTIAM.—S. H. Claughton, Esq., of Lebanon, dropped into our office last Monday and told us that the navigation of the Santiam river is bound to prove a success. The "Caliope" was several days going down the river last week, owing to her lodgment on the bar at Crabtree Ford, but steps will be immediately taken to cut a channel through this bar, and this being the only obstruction, there will hereafter be no further difficulty. The "Caliope" has a carrying capacity of 140 tons—rather too much for that stream—but Capt. Biddle designs having her immediately overhauled and invested with about 75-horse power, which will be sufficient to propel her up the stream with excellent speed.—She will only run between Jefferson and Lebanon, connecting with the railroad at the former place. The Lebanonians are in high glee over the almost certain success of the enterprise, and are determined to render it all the aid at their command.

A PROPOSITION.—Last week a delegation of gentlemen from Eugene and Harrisburg met Ben. Holladay, at the depot in this city, to ascertain his terms for running the East Side railroad through those places; and we are told that he demanded of them $60,000 as a consideration of complying with their wishes—$40,000 from Eugene and $20,000 from Harrisburg. This is a heavy subsidy, but the railroad belongs to Ben. and he has a right to charge his own price for a slice of it. The people of Harrisburg and Eugene are anxious for a railroad, and are as justly entitled to it as any other localities—but whether they can stand this enormous demand is a dubious question and one which they alone are able to determine.

COMPETITION.—We are credibly informed that the P. T. Company design cutting down the prices of freight on their boats to a much lower figure than the present rates, in order to bring the railroad to task for some rather underhanded games which it is asserted the latter has played to secure a monopoly of freight in certain quarters. Also, the Company will probably carry passengers on their boats for little or nothing, which we imagine will make quite a hole in the receipts of the railroad company from that source. The railroad company charges entirely too high for passenger fare, and we will be glad to see some measures adopted to bring them down to something like reasonable rates.

MAN DROWNED.—Last Sunday, while workmen were engaged on the Calipooia railroad bridge above this city, a carpenter named Richmond fell through the bridge into the river, and instantly disappearing, never arose to the surface again. He was a young man, unmarried, and has a brother in Portland.

JACK ALLPHIN (Bascom) got very indignant the other day at being mistaken two or three times for Ben. Holladay because he had on a 3-story hat and had got his start by selling whisky. True greatness should never shrink from deserved homage.

HOMICIDE.—We hear of a lamentable tragedy which occurred at Philometh College, Benton county, last Tuesday. A couple of students—one of whom was a son of Luther White of Brownsville, this county, and the other's name to us not known—became engaged in a quarrel which culminated in a rough-and-tumble fight. While they were scuffling away, a blacksmith, who was working in his shop near by, and who was a brother of the boy whose name we did not learn, ran out of his shop and hurled an iron picket pin at White which struck him in the head and penetrated the brain two or three inches, causing instant death. The two brothers are now in irons at Corvallis awaiting a legal investigation, while their unfortunate victim was taken to his father's home for interment. We seldom hear of a more shocking and melancholy tragedy. Love for a young lady is said to have caused the quarrel between the two boys.

MEETING AT HARRISBURG.—A railroad meeting was held in Harrisburg last Monday night to consider Ben. Holladay's railroad proposition. That city and Eugene are given only fourteen days in which to make up the amount ($60,000), and consequently some lively rustling will be necessary. We understand that the Harrisburgers are bent on making up their $20,000, and if that is the case we know they will do it, as there is no more enterprising or plucky community anywhere than that comprising Harrisburg. They know they will have to *buy* the railroad if they get it; but they want it and are going to have it if they have to sell their shirts to "raise the wind." Go in, boys, we'll hold your hats!

LATER—As we go to press we learn that Harrisburg has made up over half of her $20,000 subsidy, and Eugene about two thirds of hers. Whoop-ee!

CHEMEKETA HOTEL.—Eureka! The Salemites have struck it at last! They have got R. P. Earhart, Esq., to take charge of the grand Chemeketa Hotel of that city. "Rockey" is one of the best boys that ever wielded a goose quill or tied up a pound of cinnamon drops and if he don't make the Chemeketa "scour" right along then the institution had better be turned into a giant mausoleum to mark the perpetual failure of hotel-keepers. Warm-hearted, genial, clever, hospitable, and energetic, Bro. Earhart is every way calculated to render the Chemeketa *the* hotel of the North Pacific coast, and we wish him abundant and never-varying success. Selah.

SINGULAR ACCIDENT.—Miss Annie Spring, who lives at Mr. John Hurd's, in this city, last Wednesday met with a singular and painful accident. She had just finished a new dress, and, accidentally leaving the needle sticking in one of the ruffles, immediately donned it to test its fitting qualities. Soon after she had put it on she knelt down to arrange the carpet on the floor and the needle penetrated her knee to the depth of an inch, breaking off and remaining in its bed of flesh until Dr. Jones was called and cut it out. The pain was most excruciating.

A NEW ENTERPRISE.—Messrs. Blain, Young & Co., fully appreciating the fact that to be successful in business it is necessary to keep pace with the rapid strides of progress which our community is now making, are erecting a large building on Third street, between Ferry and Washington, to be used as a warehouse for Agricultural Machines and Implements of all sorts, from a threshing machine down to a "tater digger." The building will be 24x40 in dimensions, and will soon be finished and filled with a large stock of articles for husbandry.

REAL ESTATE DEALER.—Mr. Eli Carter has established a real estate agency in this city and is now prepared to attend to the wants of all those requiring business in his line. A long acquaintance with the multifarious duties of that peculiar business gives him eminent fitness for its successful prosecution, and we bespeak for him a full share of patronage from the public.—Read his advertisement and call at his office or correspond with him for any information you may desire in his line.

OVER THE MOUNTAINS.—Last Tuesday Capt. N. B. Humphrey started across the mountains on the Cascade Mountain Wagon Road, for the purpose of viewing the road and ascertaining what improvements are to be made to render it acceptable to the Governor. He will go over the entire route to the Idaho line—400 miles distant—and expects to be absent two months. Mr. Milt. Hale and four other men accompanied him.

OCHOCO.—Mr. Lewis Cox last week returned from Ochoco Valley, and reports everything there in a flourishing condition. The cattle and horses are all rolling in fatness, crops are being put in, gardens are being cultivated, and the people are almost universally healthy and prosperous. Mr. Jacob Norcross and several others will make this Valley a visit as soon as the road is practicable for crossing the mountains.

LECTURE.—Rev. D. K. Nesbit, of Corvallis, will deliver his famous lecture on "Shoddy" at the Congregational church, this city, on next *Monday* evening—the proceeds to be appropriated to the Albany College. This lecture created a great sensation in Portland several weeks ago, and should command a large audience next Monday evening. Admission 50 cents.—Gentleman and lady 75 cents.

BROWNSVILLE.—The new special notice of Mr. Almon Wheeler, of Brownsville, will be found elsewhere. Brownsvillians will please remember that Mr. W. keeps an elegant stock of goods, that he takes all kinds of produce, and that he pays cash for wool—and he will do anything else in his line to accommodate the public and to make money. Give him a call, for he who advertiseth deserveth well of the public.

MISS JULIA ELKINS will begin a new term of her popular select school on the 1st of *May*, in this city. Parents having children to educate could not do better than to place them under the care of this accomplished lady teacher. See her advertisement.

We also had a call during the week from Mr. Charles Wheeler, of South Bend, Indiana. Mr. Wheeler is a typo and a very agreeable young gentleman. His father and Vice President Colfax were for sixteen years partners in the publication of the South Bend *Gazette*, and only sold that establishment about two years ago, at which time Mr. Colfax was installed as Vice President of the United States and Mr. Wheeler as Auditor of St. Joseph county, Indiana. Young Mr. Wheeler is visiting his uncles, Gus., Almon, and E. E. Wheeler, of this county, and will probably spend the summer cruising around among our delightful valleys and wild mountains.

AT MESSRS. P. C. HARPER & CO'S, a most magnificent stock of goods is now on exhibition. We observe some new features of ladies' dress goods never before seen in this city, and would advise our lady readers to call there and inspect the stock. Everything about the establishment is fitted up and displayed in a tasty manner, and the gentlemanly proprietors take special pains to accommodate customers. Call early.

THE PAIN KILLER is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medical preparations. Its instantaneous effect in the eradication and extinction of Pain in all its various forms incident to the human family, and the unsolicited written and verbal testimony of the masses in its favor, have been and are its own best advertisements.

The ingredients of the PAIN KILLER, being purely VEGETABLE, render it a perfectly safe and efficacious remedy taken internally, as well as for external applications, when used according to directions. The stain upon linen from its use is readily removed by washing with alcohol.

This Medicine, justly celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public over THIRTY YEARS, and has found its way into almost every corner of the world; and wherever it has been used, the same opinion is expressed of its medical properties.

In any attack, where prompt action upon the system is required, the Pain Killer is invaluable. Its almost instantaneous effect in Relieving Pain is truly wonderful; and when used according to directions, is true to its name, a PAIN KILLER.

I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures Consumption, when the lungs are half consumed, in short, will cure all diseases, whether of mind, body, or estate, make men live forever, and leave death to play for want of work, and is designed to make our sublunary sphere a blissful Paradise, to which Heaven itself shall be but a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy *will positively cure* the worst cases of Catarrh in the Head, I only assert that which thousands can testify to. I will pay $500 Reward for a case that I cannot cure. A pamphlet giving symptoms and other information sent free to any address. This remedy is

SOLD BY MOST DRUGGISTS IN ALL PARTS OF THE WORLD.

Price 50 cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of *counterfeits* and *worthless imitations*. See that my private Stamp, which is a *positive guaranty of Genuineness*, is upon the outside wrapper. Remember that this private Stamp, issued by the United States Government expressly for stamping my medicines, has my portrait, name and address, and the words "U. S. Certificate of Genuineness," engraved upon it, and need not be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage; I am the only man now living that has the knowledge and right to manufacture the *Genuine* Dr. Sage's Catarrh Remedy, and I never travel to sell this medicine.

To Females.

When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females; she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families, should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay. Address, W. K. DOHERTY, M. D., San Francisco, California.

RAMSDELL NORWAY OATS!

THE MOST PROLIFIC IN THE WORLD!

One Bushel is Plenty of Seed for an Acre!

Yield 80 to 100 per cent. more than Common Oats with Half the Amount of Seed per Acre.

Oregon yield the last two years (both short crop years): In 1869, early sown, from 80 to more than 100 bushels per acre; late sown, 60 to 70 bushels. In 1870, early sown, each bushel sown produced from 60 to 70 bushels; late sown (13th of May), 48 to 60 bushels.

California yield: In 1870, 90 to 175 bushels from 32 lbs. seed per acre.

Norway seed sold in San Francisco the past winter at $7.50 per bushel of 32 lbs. We warrant these oats clean and genuine, at $4.00 per sack of 72 lbs., or we will furnish them to be tested with common oats, to be put in well, in good season, in clean land, and at the same time.—Three-fourths of the excess which the Norway yields over the common oats must be delivered to us at the granary on the farm where the crop is raised, in pay for the seed furnished.

MANHOOD.

—IN THE—

YOUNG AND RISING GENERATION.

The vegetative powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is taked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain: the parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

H. T. HELMBOLD'S EXTRACT BUCHU, for Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Dreadful Horror of Disease, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society.—Nothing is more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patents; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds their grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences. H. T. HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT OF BUCHU. There is no tonic like it. It is an anchor of hope to the surgeon and patient, and that is the testimony of all who have used or prescribed it.

Sold by all Druggists and dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50—Delivered to any address. Describe symptoms in all communications.
