GENERAL LEE'S LIBERALITY .-Biographers and newspaper obitnary writers have united in ascribing to Gen. Robert E. Lee the best qualities of heart and mind. A Cincinnati pa-per relates the following anecdote of the deceased, which does him honor: "One day last Autumn the writer saw Gen. Lee standing in his gate talking RAW-HIDE BOTTOMED CHAIRS pleasantly to an humbly clad man, who seemed very much pleased at the cordial courtesy of the great chieftain, and turned off, evidently delighted, as we came up. Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for fever and Arue. Such we are now canbled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the com-

from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Precention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic potson of Fever AND ACUE from the system, and prevents the development of the discase, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody: and in billous districts, where Fever AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces poquinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the minimaric poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rhoumatism, Gout, Headache, Blindness, Toothache, Earache, Catarth, Asthma, Palpitation, Painful Affection of the spleen, Hysteries, Pain in the Eowels, Colle, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all nilks. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot necumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection thas cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Unlike these Medicines, already known, the "Unk Weed Remedy" though producing as powerful and as active effects on the blood and system in romoving the Rheumatic poison, also possesses a strong Tonic and recuperating element, which admits of its continued use oven in the most delicate and debilitated. Thus we have the combination for the first time of those two necessary elements in the one remedy, which accounts for its superior and never failing curative effects in
