A PISCATORIAL NARRATIVE.—Hearing that trout fishing was a big thing in this latitude, the robustness individual who shoves the pen for this three-dollar paper, last Saturday dug some worms, shouldered his pole and tackle, and went for 'em. On our way down to the river we effected successful negotiations with an impecunious orphan, for the munificent sum of one bit, to accompany us fish-carrier and splitter on the bait. Arrived at the piscatorial tribe most do congregate we adjusted our worm on the hook, had our orphan attendant discharge a judicious amount of saliva upon the still squirming reptile, dropped the tempting morsel beneath the bosom of the placid waters, and waited patiently for a bite. As the funny tribe did not appear to immediately discover that we had offered them this gorgeous feast, we attempted to attract their attention by moving our worm gently about in the water, and getting the orphan cherub with one suspender to accompany our movement with a sweet melodious whistle as a sort of assistant beguiler; but as a siren neither the gently undulating bait nor sweetly sounding whistle of the fascinating orphan seemed to be an eminent success. To use a newly discovered and in this particular instance rather suggestive phrase, they "didn't see it"—that is, the worm. At this particular crisis of affairs, when hope seemed vanishing from our bosom and we were giving the last beguiling movement to the hook, preparatory to leaving the scene of our fishless labors in despair, we felt something pull very strongly upon the line, and we instantly gave a mighty jerk which "sent us to grass" about ten feet in rear of the bank. The hook had got fast upon a snag, and when we attempted to yank our imaginative fish from his pebbly bed the line had snapped in twain, placing us hors de combat in a twinkling. As we were rising from our recumbent attitude the impecunious youth who only wore one suspender approached us and in an anxious voice, but with a twinkle in his eyes which was prompted by inherent cunningness, asked us if we had a bite, and if so "what we had caught?"—Those who know us best will recognize the truth of our statement that it was only the fleetness of that debased boy at this juncture saved him from a watery grave. After gazing wrathfully for a moment upon the fast receding figure of the youthful candidate for a sheriff's necktie party, we brushed the dirt from that portion of our person which had first come in contact with the ground, gave a vigorous kick to the oyster can of squirming invertebrate reptiles, shouldered our pole, and started homeward. Had gone but a few steps before we met an angelic cherub who wore two suspenders and a few more clothes than Shakespeare gives to "Puck," the fairy in "Midsummer's Night Dream," and who had a string of fish which he wanted to sell for money to buy "backer for the gunner." Instantly discovering that this was a fortuitous circumstance offered to us by fate to retrieve our fishless fortunes, we negotiated the purchase of the fishes at a much less sum than would pay the national debt, and wended our way triumphantly homeward, satisfied that pluck, patience and money will accomplish all things human, even to securing a mess of fish under the most adverse circumstances.

UMATILLA DEMOCRACY.—Our old friend, T. P. McKnight, sends us the following list of Democratic candidates for Umatilla county, nominated at Pendleton, March 30th: Sheriff, A. W. Nye; County Judge, I. G. Yokum; Clerk, F. M. Crockett; Treasurer, W. H. Marshall; Assessor, Wm. Mitchell; School Superintendent, J. J. Gules; Surveyor, O. F. Clark; Representatives, Geo. A. La Dow, Jas. Current; Coroner, Dr. Morris. Our Correspondent informs us that the Convention was the most harmonious and peaceable one he ever attended and its action insures the Democracy of that county a larger majority than ever before.

COURT ADJOURNED.—The court adjourned last Saturday morning, after running two weeks.

OREGON.—Following is a portion of the introductory article in Hugh Small's work on "Oregon and Her Resources": It is however for the special benefit of the industrious classes throughout the civilized world that the paramount claims of Oregon are set forth in these pages. To any and all of these classes who want a home where health and comfort, honor and prosperity attend the labor of the diligent, Oregon is, of all the places on this continent, the State where all these are to be found in the greatest abundance. The progress of the State for the last two years, since the introduction of railways, has been very great. A new era has dawned on Oregon, and its future improvements and progress seem to know no limits. Its resources, in almost every department of human industry, appear to be inexhaustible. The demand for good mechanics, tradesmen, laborers and farm hands, will be great for the next fifty years. The land is unlocked, and there is every facility for getting lands and farms in any part of the State, of every description, for every purpose connected with agriculture, and at all prices adapted to the means of emigrants. For intelligent and industrious farmers of moderate means there is no better land in any part of the country in the world, where such men can rise so rapidly to comfort and independence as in Oregon.

TO OUR BUSINESS MEN.—As our subscription list is greatly increased for the campaign, especially in Linn county, our Albany business men, as well as those of other towns throughout the county, will readily see the benefits to accrue from advertising in our columns just now. No better investment could possibly be made. Our books now show the following lists of subscribers at the postoffice named: Peoria, 10; Halsey, 12; Sheild's, 19; Lebanon, 50; Brownsville, 66; Scoie, 70; Harrisburg, 92; Albany post office and carrier's lists, 236; other post offices in the county, 10—making a total of 565 copies distributed in Linn county alone. If any one doubts this statement, our books are open for his inspection at any time. What other paper in the State can make such a showing in its own county?

THE PRESS.—The press endures the affliction of dead-headism from the pulpit, the bar and the stage; for corporations, societies and individuals. It is expected to yield its interests; it is required to give strength to the weak, eyes to the blind, clothes to the naked, and bread to the hungry. It is asked to cover infirmities, hide weakness, and wink at the vain; to put dull authors and flatulents in the light, in short, to be all things to men, and if it looks for pay or reward it is denounced as mean and sordid. There is no interest under the whole heavens that is expected to give so much to society without pay or thanks as the press.

SAD NEWS.—The many friends of Rev. Mr. Wilson, formerly of Salem, but now residing on Willow Creek, Wasco county, will be pained to learn of the death of his little boy, by diphtheria, after only a few days' illness, which occurred a few days ago. Mr. Wilson will remove in a few weeks from his present place of residence to Delta, W. T., where he will again resume his ministerial duties.

AT HARRISBURG.—Prof. Thos. G. Taylor, who has for some time past been engaged in teaching at Jefferson, informs us that he has secured the situation of principal of the Harrisburg school, and will begin the school about the middle of the present month. Prof. Taylor is a superior teacher, and our Harrisburg friends are fortunate in securing his services.

ACCIDENT.—On last Monday, a little son of C. M. Cartwright, while playing in his father's soap factory, got some caustic soda lye in his eyes which very nearly destroyed the little fellow crazy. Since the time of the accident he has been confined in a dark room, and we are pleased to learn that he is recovering and will not, as it is feared, lose his eyesight.

FIRE.—Last Sunday morning, about 1 or 2 o'clock, some fiendish wretch made a futile attempt to burn the St. Charles Hotel. The incendiary procured a quantity of kerosene, and, after raising one of the windows of the ladies' parlor, poured it in and set fire to it; the room being plastered it done no more damage than to burn a large hole in the carpet.

APPOINTED.—Dr. D. B. Rice, who for several years has been practicing medicine in this city, has been appointed Post Physician at Lapwai, W. T., and will start for the scene of his future labors in a short time. He leaves a large circle of friends who will learn with regret of his early departure from amongst us.

LARGE STOCK.—Harry Kuhn has returned from 'Frisco with a very large stock of hardware which he has displayed in his store in the most attractive manner. Harry is a tasty and accommodating merchant and keeps a hardware establishment second to none in the Valley. Call and see him.

HOME AND ABROAD. Several empty houses in town. Court adjourned and jail empty. Johnny Collins accidentally cut his foot last Sabbath. Capt. Robertson and wife, of Corvallis, were in this city last Sabbath. There has been one or two runaways during the week but no damage done. A side switch is under process of construction at Beach & Montelth's mill. The free school in this city is being largely attended. It opened with about 130 scholars.

MARRIAGES.—A bride was said to be a life preserver. Now won't our Albany old bachelors go for it, though? The U. P. Church of this city, had quite an accession to its membership at its last meeting. R. Cheadle & Co., of this city, shipped over 1,000 dozen of eggs by the steamer Orloffman. The boys of this office made a raid on the funny tribe last Saturday and captured ninety-five. The stores in this city present a fine appearance with their large stocks of spring and summer goods. A little boy, who was an only son, was drowned at Portland by falling from the wharf into the river. Albany has been blessed with two or three drunken men running around the streets each day this week. O. S. Loomis and wife, of Harrisburg, arrived in San Francisco overland from the States last Monday evening. Ladorette, the half-breed who was convicted of ground larceny, was taken to the Penitentiary last Saturday. We understand that a gentleman from this city had a pair of new boots stolen from his room last Monday night. Let the bald and gray use Hall's Vegetable Hair Renewer if they desire as good a head of hair as in youth. Another change in the weather was made the first part of this week and we had a few very refreshing showers. See the railroad company's new ad. in to-day's paper giving notice that it will prosecute all trespassers upon its lands. Two juries failed to agree in the Cartwright-McCord case, last week, and the case goes over to next term of Court. Applicants for School Funds must furnish the school superintendent with an appraisal of the land offered for security. We clip the following squib from the Valley Recorder: Leapyear hasn't swelled the marriage column very perceptibly yet. We had a pleasant call from J. R. Neil, Esq., of Jackson county, last Friday. He was en route for the State Convention.

HARVEY SMITH, former Sheriff of Linn county, will make his future home in the Palouse country, Washington Territory. We regret to learn that Jas. Titus, Esq., of this city, is about to lose the sight of one of his eyes. We do not know the cause. Ladorette, the half-breed, got three years residence in the Penitentiary for "stealing victuals" from Mr. Edward Belinger, the brewer. The matrimonial market is dull. People haven't time for any useless luxuries now—they must devote all their energies to raising good crops. A branch of the free school was organized at Fike's school-house by Miss Maggie Irvine last Wednesday. This makes four teachers in the field. There are now many dogs in town. We suppose they have always been here, but they are now noticed more because there are but few men about. "If that is it that sticketh closer than a brother?" asked a Sunday school teacher of one of his class. "A postage stamp, by gum!" said the incorrigible. The first earthquake-seared Californian passed through our city to-day. He says there will be a pretty large immigration from there to Oregon this spring.

Mrs. Joaquin Miller talks of going East shortly to deliver lectures on Oregon. It is a fruitful theme and one which would doubtless receive justice at her lips. Chas. Mesley has now a fuller stock of furniture than ever before, and a corps of mechanics whose work will compare favorably with any one on the Coast. Call and inspect his stock. Our boys in this office have a pet mouse which they frequently catch, feed, and send on his way rejoicing. The little cuss lives like most of poor "subs" in a printing office, on paste. We have received from Gray's music store, at Portland, a piece of excellent sheet music, entitled "Never trouble trouble till trouble troubles you," for which we are under many obligations. It seems the half-breed thief, Ladorette, is a gay and festive youth, as J. R. Heren, Esq., informs us that he was arrested in Portland while dancing the lancers with a charming "turtle dove" in a lager beer saloon. Rev. A. W. Sweeney and his excellent family left our city last Saturday, intending to make their future residence at Waukegan, Washington Territory. They are followed by the best wishes of a host of Albany friends. We hear some talk of a croquet party to be held up above town near the Callipoola. If it is pushed through it will be a source of great pleasure to some of the young folks, as it will combine a good skiff ride with the usual enjoyments of a May party.

There is a paper published at Des Moines Iowa, called the "Sabbath School Helper," which bears the legend on its title page: "Iowa for Christ." We suppose that paper will now take down its candidate, as the late Radical Convention in that State pledged for Grant. Circuit Court.—The following are the proceedings of the Circuit Court since our last issue: J. H. Foster et al. vs. Walter Montelth et al. Taken under adjournment. W. H. Zumwalt vs. Samuel King. Decision of 3 years sustained. State of Oregon vs. F. Ladorette. Sentenced to 3 years in Penitentiary. C. M. Cartwright vs. W. R. McCord. Continued to next term. Wm. Ward, Daniel Moore and Thomas Taylor made application and were admitted to be citizens of the United States.

PACIFIC COASTERS. The editor of the Corvallis Gazette has found out that it is a mistake about the world coming to an end in August, and he will therefore not change his politics and become Democratic. A Californian last week eloped with his step-daughter, aged only 14 years, leaving a destitute and lonely wife with whom he has lived 35 years. He ought to have the benefit of tar and feathers. The wool product of California last year aggregated 24,276,253 lbs., an increase of nearly 5,000,000 on the previous year. The clip of this season is expected to be larger and of superior quality. Rev. C. M. Blake, late Chaplain U. S. A., has challenged W. D. Haro, one of the Republican nominees for Presidential Elector, to a public discussion "as to the merits of Grant before the people." A Portland woman was circulating a petition for her husband's pardon from the Penitentiary when she fell in love with another man and tore up the petition. Poor devils!—we mean both of the men. Arrangements are being made to have a grand Odd Fellow's picnic at Aurora on the occasion of the Fifty-third anniversary of the establishment of that Order in the United States, which will be on the 26th inst. A charivari party at Cornelius, the other night, smoked out a just wedded couple by stopping the chimney flue at the top—all because the groom wouldn't come out when they played on their harps of a thousand strings. The Statesman tells of a young man in Salem who can talk very intelligently and all that when at home, but can't say anything when among strangers. If it wasn't just after April fool time we might believe this story. The reservoir of the Spring Valley Mining Company at Concow Valley, California, is the largest in the world, as it contains water enough to make a body thirty miles long, thirty feet wide, and twenty feet deep. The dam is eighty feet high. Fourteen citizens of San Francisco, who were in the habit of gambling, paid \$40 each to the Clerk of the Police Court last Monday. This makes \$2,100 which this establishment has contributed for the benefit of the city within a week. A San Franciscan was administering a little corporal correction to his wife last evening when she ungratefully broke from him and jumped from the second story window into the street, receiving severe injuries. He recovered her in damaged condition. Mrs. Fair as she appears in Court looks hearty. Her counsel intimated to-day that they would adopt a different line of defense on the new trial, and not take more than three days in examining witnesses in her behalf. Her case comes up about the last of June.

Mrs. Duniway has recently been accused by her Radical friends of "slopping over" towards Democracy, but we notice that she is now again getting both feet on the Radical side of the fence and we guess she will shortly be clear over in the black sheep pasture. Let 'er rip! "Jerusha, I don't see how they send letters on them 'em telegraph wires without tearing 'em all toinders." "Why, Jake, you goose, they don't send the paper, but just the writin' in a fluid state." At a leap year party in Atlanta, on the 9th inst., the young ladies showed their manliness by having the following mottoes in conspicuous places: "We mean business," "Now is our chance," "Waiting is tedious."

MARRIED. STRUCKMEYER—CHADLER.—On Thursday the 11th inst., at the residence of the bride's parents, in this city, by the Rev. W. B. Butler, Mr. Lester Struckmeyer and Miss F. A. Chadler—all of this city. We tender our thanks for the beautiful supply of gold and silver cake which accompanied this notice. May the conjugal joys never pale on their lips, nor their cup of happiness ever run dry, in the fervent prayer of all the members of this office. DODD—HARRISON.—On the 4th inst., at the residence of the bride, in Seaside, by the Rev. Ostrander, Dr. S. W. Dorr, of Astoria, and Miss Martha A. Harrison, of Seaside. The newly-wedded couple started for their future home by sea, where we hope they may ever be blessed with unalloyed happiness. Compliments received. REDFORD—PHILLIPS.—On March 31, at the residence of the bride's parents, in Sweet Home Valley, by G. W. Powell, J. P., Mr. J. W. Redford and Miss Ann R. Phillips—all of Linn county. Thanks for the glittering silver which accompanied the notice. May the lives of our young friends be ever bright and may their days be crowned with trust happiness.

REMARKABLE CURE OF THE SUPERINTENDENT OF THE GUADALOUPE MINE. "THE WORK DONE BRAVELY ON"—CASE NO. 6001—SPOON FEVERS. GUADALOUPE MINE, near San Jose, CALIFORNIA, April 15, 1871. Dr. A. M. LORRY & Co.—For a long time I have been afflicted with Rheumatism in my hands and feet, the pains most of the time being very severe. On the 7th of July I procured one of your UNK WEDD REMEDY, and after taking only three bottles, had that I am quite restored to health and strength. I have had the Rheumatism for eleven (11) years, and think that the success of the "UNK" in curing a disease of long standing, in so short a time, is very remarkable. As a tonic and appetizer I have never met with anything equal to the "UNK WEDD REMEDY." During the time I was taking it I gained 150 pounds in weight. Trusting that this certificate may be useful in inducing others afflicted as I was to try the "UNK." I remain, very truly yours, JAMES T. BROWN, 62716. Sup't and Agent Guadalupe Mine.
