

and Joseph Sheris, and on Monday last a preliminary examination was held before Hon. E. N. Tandy, County Judge, where the facts as above stated were elicited and Joseph Sheris was held to bail in the sum of \$2,000 on a charge of manslaughter. Being unable to procure bail, he was remanded to the county jail where he now is. James Sheris voluntarily appeared before Justice Crothers, pled guilty to assault and battery upon Van Emerson, and was fined \$10 and costs. In the preliminary examination of Joseph Sheris Messrs. Johns & Jones appeared on behalf of the State and Messrs. Powell & Flinn for the defendant.

A FAIRSHOOD CORRECTED.—The Bulletin of last Monday morning contains what purports to be a statement of the earnings of Mr. Frank Myers, editor of the Forest Grove Independent, by Col. Wm. Thompson, of the Mercury. In the Bulletin's statement the charge is made that Mr. V. Brown, the editor of the Democrat, and two other persons, participated in Thompson's assault upon Myers, and that the four brutally beat and abused him. This charge is wholly false, and the Bulletin editor, who is in possession of the facts, knew it when he penned it. No one save Col. Thompson had anything whatever to do with the assault upon Myers. The editor of the Democrat, who has long been a warm personal friend of Col. Thompson, accompanied him to Forest Grove only after the most urgent solicitation, and neither of them had the most remote idea that any one else would appear on the scene. The Bulletin in this case, as has been usual with it in certain recent demagogic campaigns, has permitted its political bias and personal malice to overcome all regard for truth and fairness, and has fomented a base falsehood. It is not expected that the writer of the falsehood will have the manhood to correct it.

It is but simple justice to H. W. Scott, Esq., who has been for some time connected with the Bulletin, to state that this outrageous falsehood was published in the Bulletin. In our extensive knowledge of his journalistic career we have never known him to resort to such base means to manufacture political capital.

THE WANTS TO MARRY.—We have received a poetical effusion from "An Old Maid," telling her grievances in plaintive verse and pouring out her virgin sighs in rhapsodical rhyme. We are not in the habit of publishing anonymous contributions, but in this case it is hardly right to permit such glowing and beautiful thoughts as hers to be consigned to the eternal gloom and obscurity of the waste basket; we therefore give them to the world, and that they may lose nothing of their primitive beauty by the scars and scars of severe punctuation, we permit them to appear in their original style and manner. We tearfully ask the sympathetic reader to read and weep.

I WANT TO MARRY.—I wish my low would come again, but goodness how I love to tarry, it seems to be the low ambition of a man, to never want to marry. And it to be sure is very hard for us poor girls to bare: to take a good looking man at his word and never find him there. Shows young girls beware for a man even if he seems ever so true he will fool you out of 10 times he can and at last bid you adieu.

THE OVERLAND MONTHLY FOR NOVEMBER.—This certainly is a very superior number, and so far as fresh geographical information is concerned, we are at a loss to designate any other similar publication that gives an equal amount. Of this character are the Gravel Ranges of the Gold Belt; Ten Hours in Holland; by Prentice Mulford; Seeking the Golden Fleece; An Imperial Sleigh-ride; Tale of a Tooby; by Therese Yelverton; Mount Whitney; and the Etc. department, which abounds in Contributions to Physical Geography. This number also contains two excellent stories characteristic of the soil and magazine—Zany, by Mrs. Cooper, and the Judge's Story, by Lovell White. The plaintive well of inspiration of Miss Colbrith wells forth in One Touch of Nature. Other articles are The Rose of Sirtema, Our German Cousin, and Ultrava. The book reviews are unusually good and choice. John H. Carmany & Co., Publishers, 409 Washington St., San Francisco. \$4 per annum.

STATISTICS OF LINN COUNTY.—Following are statistics of Linn county, as furnished by the assessment of this year: Total number of acres, 424,233; value, \$2,431,055; value of lots, \$471,759; value of merchandise, etc., \$804,795; value of money notes and accounts, and value of stock, \$898,795; household furniture, etc., \$327,850. Number of horses, 6,890; value, \$271,153. Number of cattle, 14,023; value, \$153,103. Number of sheep and goats, 41,183; value, \$81,272. Number of swine, 7,040; value, \$7,253. Gross value of property, \$3,248,997. Incubatedness, \$1,096,533; exemption, \$39,712; total value of taxable property, \$3,500,253.

A DOOR ONE.—P. C. Harper & Co. have this week the biggest ad. ever appeared in the Democrat. However, it is no more huge than the stock of goods nor than the hearts of the liberal members of that firm. They have one of the finest stocks of goods ever brought to this valley, and are offering them at exceptionally low bargain. A failure to patronize them at the present time will be a great mistake. Messrs. Howell, Harper & Co. also have something to say about their establishment in the same connection. Don't forget to read all about it.

DR.—At the residence of Dr. Glass, in Portland, on the 25th inst., Miss Mary E. Hardman, aged 10 years 8 months and 24 days. She was brought to this city on Monday, and buried at Lebanon on Tuesday.

HOME AND ABROAD. Cold mornings. Weddings are looking up. Only a month till our city election. No change in the market since our last report.

About Astoria the voices of myriads of claims are heard in the land. Thanks to Sam. May, our Harrisburg agent, for remittances of cash. Corinthian Lodge to-morrow night. Bayley Chapter next Thursday night. Hons. Geo. H. Helm and N. B. Humphrey have gone to Yamhill attending.

See ad. of Demmitt's Cough Balsam also where. It is said to be a "leader" on coughs.

Our geographical friend, Mr. Wm. Morgan, is at present slinging quails in the Register office. Thanks to our obliging County Clerk J. H. Hackleman, and his efficient deputy W. H. Quenser, for favors. Dan. Gabry, formerly of Scio, has removed to Napa City, Cal., and the good people of "The Forks" will know him no more forever.

Miss Delpha Kaiser, of Salem, and Miss Veno Oton, of Walla Walla, are at present visiting the family of Mr. J. R. Herren in this city. We are much pleased to learn that Dr. Alexander's friends are hopeful of his recovery. At last advice by him was believed to be convalescent.

Wm. E. Simmons has formed a co-partnership with Mr. Hensley, on the Santiam, and the boys will have a popular resort for travelers and tourists next year. Prof. F. M. Day will organize a dancing school at Pacific Opera House to-morrow night. He is said to be an eminent master of the elegant art of Terpsichore.

Last Monday night the Albany Brass Band drove some six miles into the country to serenade Mr. Stryaender Dawson and his fair bride. They were treated gorgeous. Mr. Charles Simpson, of this city, has just received the sad intelligence of the death of his brother, Samuel W. Simpson, at Glasgow, Nova Scotia, on the 11th inst., aged 38 years.

Dr. Golden and family will start for the winter in that State. We very much regret to lose the Doctor and his estimable family from our community. Two young ladies of La Croix were standing by the side of a ditch thirteen feet wide, which they didn't know how to cross, when their escort said "snakes," and they cleared it at a bound.

Jon. H. H. Giltry, Private Secretary to His Excellency Governor Grover, has been in this city two or three days looking after the interests of the State. Mr. Giltry is an efficient official and a very clever gentleman.

When a burglar gets hurt in climbing through the scuttle of a Louisville house the charitable inmates take him in, nurse him tenderly, make out his papers carefully, and when he gets well, tuck him away tidily in the penitentiary.

Hugh Small, traveling correspondent for the San Francisco Bulletin, gave us a call during the week. Mr. Small is a able writer and does Oregon full justice in his letters—which is something remarkable for a California writer.

Yesterday Dr. Rice, Doughton and Harris, of this city, were summoned to appear forthwith before the Grand Jury of Multnomah county to give evidence in a case upon which they have recently held a post mortem examination.

The Boston Bulletin makes this uncomplimentary inquiry: "Why can't a reporter write a paragraph concerning the return of a man whose wife, supporting him dead, has married in his absence, without lugging in Enoch Arden two or three times?"

Coll. Vanclave and family have gone to Baker City. We understand the family design remaining through the winter, but Coll. will shortly return to his journalistic labors. In the meantime Billy Morgan dishes up the literature of the Register.

The Council talk of making two new clerks. They should order at least half a dozen. Our firemen have been hampered and annoyed at almost every fire for want of water, and we may any day lose the price of twenty clerks in some disastrous conflagration.

The following tender missive was picked up in the ladies' sitting-room at a railroad depot: "Dear Chas., do you love me as much as you do at a quarter to twelve last night? Say you do, dearest, and it will give me spirit to go down and tackle those cold beads left over from yesterday." Probably by next week Mr. Loudwick will be prepared to give Charles' answer which will undoubtedly read somewhat like this: "Dear Susan, I do. Tackle them beans!"

OFFICIAL VOTE OF LINN COUNTY. ALBANY, N. O. 11th. DEMOCRAT. 22. REPUBLICAN. 11. PROGRESSIVE. 11. OTHER. 11. Total number of votes cast was 1284. In 1872 there were 2107 votes cast in this county, of which Burnett received 1179, and Wilson received 928.

Rest, is generally up to snuff, and can make music enough to keep a large congregation together. He is Editor of the Albany Democrat, and his paper has been in full sympathy with the farmers' movement from first to last, and ought to be liberally patronized by people at both ends of the route.—Aetorian.

Thanks, Bro. Ireland. It affords us extreme pleasure to reciprocate your good wishes and to commend your valuable paper to the farmers and producers of Oregon. Being published at the commercial entrepot of the State every business man should have it, and every producer and shipper should encourage its maintenance.

SAD ACCIDENT. We take the annexed account of the sad death of a beloved sister of Mr. Wm. Benjamin, of this city, from the Walla Walla Statesman. BOSS CREEK, W. T., Sept. 22, 1873. EMBROUS STATION.—A sad accident, with a fatal termination, occurred in our settlement a few days since, that has cast a gloom over the entire community. Elizabeth Benjamin, his wife and little daughter, in company with Messrs. John Courtney and D. H. Boushey, had been to your city with freight, and were returning, as is the custom for our settlers to do, back to their homes, on what is known as the "new road," both ways, on what is known as the "new road," via Coates ferry; and, by the exercise of due care and caution, had avoided any accident of a serious nature, until within twelve miles of home, when a terrible calamity befell them. The road is new, and has had very little travel upon it this summer, when it fell into good repair on account of its freedom from brush, and being a more direct route to your city, such a throng of travel passing daily over it has caused its unpaved bed to be badly cut up with holes, what are commonly called chuck holes, and, being hard to discover in the heavy dust, cause frequent disasters. Into one of these, in the vicinity of Garden & Lawrence's ranch, on Pine creek, Mr. Benjamin had taken his team recently, and was driving along, and without a warning of the danger, the wagon turning a complete overturn, and burying himself, wife and daughter, beneath the ruins. The horses, by some peculiar mode, being unscathed, and having escaped, were enabled with some assistance, to extricate themselves, and to extricate himself. The two then worked, and in ten minutes freed the little girl from the ruins, and laid her on the ground, and, with a load—the only sign of life she ever exhibited—putting her spirit to have died with scarcely a struggle. Mrs. B. was completely hidden in the debris and dust, while her husband, more fortunate, having his head free, was enabled with some assistance, by superhuman efforts, to extricate himself. STORAGE.—A little room again available in the Farmers' Union Warehouse at Sheehy. The managers have made arrangements which they trust will enable them to accommodate all wishing to store there. Oats and barley wanted in exchange for coin.

MARRIED. DAWSON—HARRIS.—On the 28th inst., at the residence of the bride's parents, near Knox's Butte, by Rev. D. S. Baker, Mr. SYLVAUER DAWSON and Miss S. L. HARRIS.

DIED. MILLER.—At Tazewell, Oct. 2, 1873, of consumption, MALEY JAMES, wife of James Miller, aged 27 years, 10 months and 18 days.

It is no fiction. DR. WISTAR BAZAR OF WILD CHERRY has cured and is now curing thousands of sufferers from that terrible disease, and he has a cure that does not require a moment's rest, and is a safe and reliable remedy for nearly every case.

We have often wondered whether there is a person in the country who does not know and appreciate the value of Johnson's Anodyne. It is adapted to most all purposes, and is the best pain destroyer the world has ever known.

Farmers and stock raisers have frequently been so vexed by the prevalence of the Cattle Fever, that they have been driven to sell their stock at a low price, and have lost their money. The Cattle Fever is a disease that is now spreading rapidly, and is a great pest to the farmer and stock raiser. It is a disease that is now spreading rapidly, and is a great pest to the farmer and stock raiser.
