TO DISTRICT CLERKS.

ALBANY, Sept. 21, 1874. The Clerks of the various School Districts in the county of Linn, will take notice that I have this day made an apportionment of all the school funds on hand, subject to my orders, as appears from the report of the County Treasurer.

The distribution as made, is this county's pro rata of the funds, arising from the interest on the irredeemable school fund, and amounts in the aggregate to the sum of \$3,775.92, of which 21 per cent, is currency.

Table with columns for District Name, Amount, and other financial details.

THE CLERKS will please call on me for their Clerks, at J. W. Baldwin's Law Office, in Parrish's Brick, over the Post Office, in Albany Oregon, or send written requests for the same. The Districts are respectfully entitled to the following amounts.

ALBANY, Sept. 21, 1874. Editor Democrat:

We learn of much complaint of sickness in various parts of our county, and are not surprised that those who are obliged to travel by way of the old stage road to Jefferson, from this place are unwell, for the intolerable stench that saturates their nostrils just below town, is enough to give any community the cholera.

FROM CAMP POLK.—Mr. S. M. W. Hinman, of Camp Polk, was in town last week laying in his provisions for next winter.

LEGISLATION.—There will be a first-class entertainment given at the Opera House Saturday night by Prof. Zamloch, a musician who has a splendid reputation all over the United States.

HOME AND ABROAD.

Splendid weather. Grapes are ripening very fast now. Wheat has commenced coming in again.

We notice the familiar countenance of "Gassy" Clark on our streets. The bill "abolishing" John Hackleman passed the Senate last Tuesday.

A large fire was raging in the timber about two miles below town last Wednesday. Dr. Plummer's business house on Front street is rapidly approaching completion.

Pierce's new ferry boat has commenced making regular trips in place of the old one. Henry Burmester, proprietor of the Fish Lake ranch is down laying in his winter provisions.

Harry Godley has moved down from Sodaville and is now living in Sam Althouse's house. Harry Kuhn has an increase in the membership of his family.

Miss Wagner, the new teacher of music at the College, is meeting with great success with her new class. Geo. Weller is putting up a commodious new dwelling house in the place recently occupied by his old one.

Isaac Long brought into this city last Tuesday 110 bushels and 20 lbs of wheat at one load with two horses. The attendance at the funeral of Fred Hill's little boy last Sunday was the largest that we have noticed this year.

Dr. McFarren preached an eloquent sermon to an immense audience in the Methodist Church on last Sabbath evening. A doctor's instructions for putting on a coat were, "First de right arm, den de left, and den give one general conclusion."

A Minnesota minister who said that the grass-hoppers were a plague sent to punish the grangers, is going east to find another pupil. They could not believe him.

The nights are very cool now, consequently gates are getting to be in very good repair. Star-gazing with young ladies is played out until the weather gets warmer.

Mr. T. B. James, of Ochoco, gave us a call last Thursday. He says they are getting along finely over in that valley, having harvested large crops of wheat for which they find a ready market at \$1 per bushel.

Mayor M. V. Brown and Connelman J. H. Hackleman, came up to attend the Capital last Tuesday evening to attend the regular Council meeting, and returned on Wednesday morning's train.

Wouldn't it be well for the City authorities to enforce the ordinance relating to the inspection of chimneys and flues? If some of the defective flues in this place which are known to exist, were fixed, it would probably save money for the owners, and also for the city.

Katie Hallows's Circus is at Portland and draws immense crowds every night. It will be up here during the Fair. One of the novelties along with it is a young elephant. This will be quite a treat for some of our young folks who have never had the chance of viewing such a large piece of meat.

Dedication.—Bishop Pierce dedicated the new Southern Church at Tangent last Sabbath. A large audience was in attendance, and everybody was pleased with the earnest and eloquent manner in which the Bishop delivered his discourse.

WHEAT—SI A BUSHEL.

N. Baum cannot pay this year, but he informs the farmers and public in general that he has returned from San Francisco with a large stock of clothing and furnishing goods, also, fancy dress and dry goods, and a full assortment of general merchandise, which he will sell at very low rates, according to present times.

Jas. Vick, of Rochester, N. Y., has offered \$50 in coin as premiums at our coming State Fair, for cut flowers, raised from seeds grown or imported by him. These premiums are liberal and the competition for them will be quite exciting.

The other morning a party of men who were engaged in threshing grain, up in Grande Ronde Valley, on going to the field where their threshing was located, found several large cinnamom bears, who were apparently determined to keep possession of the machine and grain.
