BROWNSVILLE GOSSIP.

What's the fun of February? Skies that change and winds that vary! Freezing rains, hooding fogs...

RAMIFICATION OF AN OLD STORY. Mary had a little lamb—She found it in the gutter—And every time that Mary passed, The rain was sure to hit her.

The prospector had come home with her. And waited for his dinner. She seized the grubbing box and dug. With all the might was in her.

That tarred man he saw her deep. Her tread was firm and true. Her Samson then dug layers there. The shock had surely done him.

"Why doth it not?" the preacher asked. And marveled they to behold him. "The trick is out," the father said. "A thing that Mary moved him."

THE OVERLAND MONTHLY.—In glancing over the February number of this magazine we find it to be an interesting number, embracing a table of contents varied by fact and fiction—the former making history, and in doing so exhibiting a true and firm attachment for its motto of "devoted to the development of the country;" and the latter fulfilling its purpose of placing some of the very best sketches of a local and foreign character produced in any similar publication.

ALDEN FRUIT DRYING COMPANY.—By reference to a notice elsewhere it will be seen that the incorporators of "Alden Fruit Preserving Company of Albany," have called a meeting for March 15th, to elect Directors and otherwise properly organize the Company.

McDONALD AT CORVALLIS.—The gifted editor of the Statesman delivered his famous lecture on the "Massacre of Glencoe," at Corvallis last Saturday night, and as an attestation of their appreciation of his rare excellence a long list of names of prominent citizens of that place immediately signed a request for the lecture repeated on the 20th inst., for the benefit of the Corvallis Library.

PARALYSIS.—The friends of Milton Bench, of Boons Vista, will be pained to learn that he has been stricken with paralysis, which affects one entire side of his body.

A NEW AGENCY.—Mrs. A. B. Paxton has the agency for this State, for the Little Monitor sewing machine, and has gone to Portland to commence business.

CHINESE NEW YEAR was celebrated with much festivity in this city, last Saturday. Fire crackers were recklessly exhausted, roast pig and fowl were lavishly served and wines and liquors disposed freely to all Melian men who could be induced to accept of the Mongolians' hospitality.

FROM CORVALLIS.—Abe Hackleman received a letter from Oelous, written on the 25th ult., by his nephew, Wm. H. Jackson, which says that the weather over there is cold and stormy.

VALENTINE'S.—Well, St. Valentine's Day is about here, and as it is this year comes on Saturday, Saturday will no doubt be observed.

HOME AND ABROAD.

New Home. Job work crowding. Numerous buildings talked of. Our new office to be plastered.

Hang up your skates; the freeze is over. Gate flirtations "coming on to be heard."

Get your "honey-comb" ready for the Anniversary Ball. Carothers & Co. will make more soda water than anybody this summer.

Prof. Foshy has some of the heart-smashingest valentines we ever did see. We last week saw a specimen of quartz from the Jackson county mines which is said to have yielded \$300 to the ton.

Monty Monteth fell down while running the other day and damaged the cap of his knee so that he is laid up for a few days.

Now is the time for newspaper fellows to dive down in their scrap books and find out who invented Valentine's Day and what for.

Jim Harris last Monday butchered the fattest beef we ever saw. The fatty deposits were thicker than a carpet-bagger's conscience.

A fellow says he is red hot at us about a recent item in the Democrat. He can get cooled down—just as it suits him.

Some terrific typographical blunders appeared in our columns last week, which was owing mainly to a scarcity of help and in haste to make connection with the mails.

While at Salem the latter part of last week we tried skating—everybody else was doing it, you know. But finding we hadn't got the skates on our right end, we just quit.

Our large and constantly increasing circulation makes the Democrat a most desirable advertising medium. Clever merchants and business men would do well to remember this.

Easter Sunday comes on apace, and the hens are growing pale in their exertions to supply the market with eggs. A hen who would lay colored eggs would command a premium.

It is a singular coincidence that everybody we owe wants us to settle up and most of those who owe us don't say anything about it. Lemme see: Why is this, and if so wherefore?

At a union meeting of the religious denominations of this city, held in the M. E. Chapel last Sabbath night, a collection of \$40.50 was taken up to aid in the circulation of the Scriptures.

We ain't a Granger and can't tell a lie, but we would say that those people who owe us various sums—from three dollars up—would be received at this office with much show of hospitality just now.

That Harrisburg rooster who was assassinated over the head with a salt sack full of oats the other night, while leaving a certain house, is informed that we don't know his name. If we did we wouldn't make mention of the affair.

Our young lady compositor, Miss Halbrook, and our pressman, Mr. John Spangler, have both been unable to work for the past week because of illness, hence the last issue of our paper was a little late in getting in the mails, and this may share the same fate.

We hear of a nice joke on one of our former friends out in the country. He started out a duck hunting a few days ago, and in twenty-four shots succeeded in crippling one duck. He happened to think that the game law was in effect, so he stopped his work of slaughter and went home; resolving to abide by the new law.

A FLUNKY'S MUTTON EXPOSED.—A hotel waiter the other day undertook to perpetrate a fraud on the poet of the Democrat. He gave our Pegasus a slice of the original old "Darryl Ram" and called it "lamb chops broiled"; and here is how our ready pen annihilated that fraudulent hotel man:

Mary had an old white sheep. It was by name benighted. 'Twas found in this despoiled hotel. And here as 'lamb chops broiled'!

SWEET HOME ITEMS.—Robt. H. Gilliland sends us the following items from Sweet Home Valley. J. Walton and Thos. Settle have each killed an elk in the mountains adjacent to that valley.

Charley Mealey has recently slain six ravening wolves near his ranch. The Sweet Home Literary Society will give a grand exhibition on the evening of the 22d.

TO ENLARGE.—Bro. Quivy, of the Corvallis Democrat, swooned down upon us Tuesday, on his way to Portland where he goes to secure material for the enlargement of his paper. He and his partner, Cass, Humphrey, are making one of the best local journals in the Valley, and we are glad to hear of their prosperity.

The inhabitants of the flourishing city of North Brownsville now turn up their noses in disgust at Liverpool, England, since they have learned that it is not incorporated. But, as a balm in Gilead for the North Brownsvillians, we will add that the Liverpool folks have now a petition before Parliament asking that a charter of incorporation be granted to that village.

EXCHANGE HOTEL.—We learn that Hale Baekstein, formerly of Corvallis, will take charge of the Exchange Hotel in this city, on the first of next month. Hale and his lady have a pretty thorough insight of the business and will no doubt do well. There is plenty of room for two hotels in this city, and we are glad to see Mr. B. enter the field.

CREDIT COURT.—Litigants, lawyers, and others, will bear in mind that the Credit Court for Linn county will convene in this city on the second Monday in March, being the 5th day of the month. Papers served after Friday, the 25th of this month, may prove too late to secure a hearing of the case at the next term.

RETIRED.—Mr. Payne and wife returned from San Luis Obispo, Cal., on the last steamer, and we hope the trip they have taken will benefit their health.

PROPOSED TEACHER'S INSTITUTE.

Hon. J. K. Weatherford, County School Superintendent, informs us that a Teachers Institute for Linn county will be held in this city sometime in the latter part of March—date of its commencement not positively known yet.

Lost.—January 27th, between Albany and A. G. Cochran's, 7 miles South of Albany, a blue army overcoat with a pocket cap. The coat contained a letter on the left side. Any one finding the lost article will confer a favor by leaving it in Albany or Tangent, so that I may get it.

For the very best Photographs, go to Bradley & Rufolson's Gallery with an ELEVATOR, 429 Montgomery Street, San Francisco.
