

AGRICULTURAL. WINTER PEARS.—Our markets are poorly supplied with late-keeping pears...

CHANGE OF CIRCUMSTANCES.—The farmer of to-day is surrounded by different conditions from the farmer of thirty years ago...

HOW TO KEEP HAMS.—Every season more or less hams are destroyed by insects...

MANURE FOR WHEAT.—Where organic matter abounds in the soil, a free use of bones and potash will speedily restore it to its original fertility...

TALLOW FOR GAYES.—A correspondent of the Field says: "One day I noticed a flock of eleven pure bred Groves-Crest chickens..."

PICKING THE POTATO BLOSSOM.—We observe some discussion in the papers on the practical utility of picking the blossoms of these growing potato plants...

THE STATISTICS OF AMERICAN DRAUGHTS.—The statistics of American draughts have been compiled by Mr. Fairchild, President of the Butter and Cheese Exchange...

HOUSEHOLD.

ROASTING CORN.—Corn should never be roasted darker than a rich chestnut brown. When the color approaches to black it gives a burned, dry flavor to the infusion.

FLAVOR FOR FROSTING.—In frosting for cakes or puddings a little lemon juice mixed with a little cream of tartar is a very pleasant addition to the sugar, besides making the frosting much lighter.

ENGLISH COOKIES.—One cup of brown sugar, half cup butter, one egg, two table-spoons of cream, one table-spoon soda, cloves, cinnamon, nutmeg, make hard enough with flour to roll out in thin cakes.

LAMB CUTLETS.—Trim the slices free from fat, beat up the yolk of an egg with a little bread or crackers, season with pepper and salt, dip in the egg and fry in butter gently, until thoroughly done.

MILKED FROM LINES.—Mix soft soap with powdered starch, half the quantity of each, and a piece of lemon, lay it on both sides with a painting brush. Let it be in the open air—no grass is preferable—all the stain is removed.

TO REMOVE MILDEW.—Soak the parts of the cloth that are mildewed in two parts of chloride of lime to four parts of water, for about two hours, or till the mildew has disappeared; then thoroughly rinse it in clean water.

TO WASH RIBBONS.—Do not throw away your ribbons because they are soiled. Wash them in a soda mangle with the toilet soap and cold water, squeezing them quickly through. Then iron them between two cloths, with an iron for 100°.

MEDICAL.

REMOVAL OF TAPEWORM.—A writer says that treating some cases of tapeworm he has employed the following provisions beyond forbidding the patient to take any breakfast the day on which it is intended to remove the worm...
