DUNDER PEDDING.—One cup of augar, half oup of butter, two eggs, one cup of new milk, two cups of their lands than in California. This fault is indeed by no means peculiar to them. Farmers in other battle batter long ago learned by a sade experience that land cannot be tobbed year after year of its elements of fertility without loading its value for and stir it one way until it acquires the consistency of cream, 2. Instead of eggs, as above, use a spoonful of arrowroot, with a little coid milk. опринка тип ворь.

*James river bottoms," the lands of the Genessee valley, and of the West
**Mark It serve in Ohio, will not now yield one-bouris as much wheat as they did thirty years ago, and indeed in some portions will not yield enough to pay for entitivation. Similar and still more pulpable results have followed the continual cultivation of tobacco in Virginia and hemp in Kentucky and Missouri. Tens of thousands of acres of once fertile land have thus been changed to "old field," capable only of producing obtack, lacks"—a species of dwarf oak—and some are incapable oven of sustaining the life of these worthless shrubs.

It is evident to all who remember to some the serve with some serve with servers and serve with some serve with servers and serve with some serve with servers and serve with servers and serve with some serve with servers and servers and serve with servers and server

of sustaining the life of these worthless shrubs.

It is evident to all who remember
the wheat crops of flay or sixty
bushels to the acre which were conruon twenty years ago, that the
cultivated lands of this State have
already lust half their native forfility,
and in many cases much more.
Indeed, the average wheat crop has
fullen, we f. link, to less than twenty
bushels. Much of this great and
constant deterioration might 65
a voided by an alternation of crops,
and probably more still by using the
atraw as a manure, instead of burning it as is still done in many parts of
this State. No soil can stand such
t veatment as that to which most of
our farmers subject it. The wheat is
exported and the straw burned.

Thus the elements which were drawn

Sponge Ginogeneral Cone, t course to absolute barrenness and sterllity is pursued from year to year. By the present practice the sold is as certain to lose its fertility as a bell glass is to part with its air by the ropested strokes of an air pump, final exhaustion in both cases being inevitable. This result cannot be prevented or even delayed except by a totation of crops, the saving of the sinuw and a careful husbanding of every other substance that will serve as manure. If our farmers do not change their plans in time they will before long, the those of same of our southern States, be compelled to purchase, at a heavy expense, large supplies of guano, phosphates, and other forms of artificial imanure, or else ubout a pint of milk, and a half a pint of crossn let it boil until a third for it is consumed, and when half cold boat up the yelks of six eggs with it.

stantly growing reputation, based on its intrinsic victure, and sustained by its remarkable cures. So mild us to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the bissed, such as the scrofisions and syphilitic contamination. Insurings, or diseases that have larked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scroftila, assi all scrofisions diseases, Ulcers, Eruptions, and cruptive disorders of the skin, Tumors, Biotelies, Bolls, Pimples, Pinstules, Sores, St. Anthony's Fire, Rose or Erysiperias, Teteer, Salt Rheum, Scald Hend, Ringworm, and internal Ulcerntions of the Uterus, Stomach, and Liver. It also cures other complaints to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Pits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhose, when they are manifestations of the scrollous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organa, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists. SOLD BY ALL DEEGGISTS EVERYWHERE.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Gray on Fadre Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baildness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair Drassing ever used, as it requires fewer applications, and conomical HAIR DERSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION Contractions in the contraction." for its intended purposes."

Sold by all Draggists, and Dealers in Medicines.

Price One Dollar.

Buckingham's Dye FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or fided Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rob nor wash off.

ABVERTISEMENTS.

Dr. J. Walker's California Vin-egar Bitters are a purely Vegetable preparaton, male chiefly from the ma-tive horts found on the lower ranges of the Sierra Negala mountains of Califor-nia, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "Wint is the cause of the unmarabled ancers of Vixog on Br." daily asked. "What is the cause of the unparalleled success of Vixegari Birthers." Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Removator and Invigorator of the system. Nover before in the history of the world has a medicine beautomorphished possessing the remarkal, qualities of Vixegar Birthers in healing the sick of every disease man before. They are a gorith Purpassen is well as a Tonie, relieving Congestion or Inflammation of the Liver and Visceral Organs in Billous Because
