An Infamous Trick.

Some dastardly wretch in this city evidently has a spite against Oregon's famous horseman, W. C. Myer, and to gratify their thirst for revenge has twice this spring tried to poison his beautiful horses. Some time last April the "Pride of Perch" was poisoned with aracuic while at Marshal's stable, but good treatment brought him out all right in a few days. A little over two weeks ago White Prince was poisoned in the same way and while occupying the same stal. As the spartment which he occupies is locked every night, it is thought the poison was administered by being put through a couple of eracks in the beards just over the feed box. This horse has also entirely recovered from the effects of the poison, but for several days his chances for life were rather slim. We can't find words mean enough in our vocalularly to express the contempt we feel for a man who could not so inhumanly. It would be a god-send to the community if he were to accidentally take some of his own poi-
