ANOTHER NAMEOW GARGE. To be Built from Springfield, in Lane County, to Albany, via Brownsville and

At last the talk about the Albany and Brownsville Narrow Gauge Railroad is beinning to take definite shape, and the work contemplated is to be on a larger scale than heretofore thought of. Articles were last proposing particle, plovar, pigeon pullet, week filed with the Secretary of State incorporate proposing particles, pears, plants, pomegranates, pears, plants, pomegranates, pears, plants, pears, plants, pears, plants, pears, plants, pears, plants, pears, pears, plants, pears, porating the Oregon Narrow Gauge Railway Company, with R. J. Pengra, W. S. Ladd and Ellis G. Hughes, of Portland, as incorporators. The capital stock is placed at \$200,000, and the object is to build a narrow gange railway and telegraph fline from Springfield, in Lane county, to this city, by way of Brownsville and Lebanon, with the principal office at Albany. We have not yet heard anything from the incorporators, and Prohibited protection, puss painfully personal to their Peggy's presious pet prospers prodigously, do not know anything in regard to their plans, but we do know that if this read is built it will pay more than any other in the State in proportion to the amount of capital invested. It will run through the very best farming communities in Linn and Lane coun-ties; it will be the means of opening up the umber business in the vast forests on the Calapsoia, McKennie and Santiam rivers ; if will control the trade of the Forks of the Willamette and the Forks of Santiam, the two most productive localities in the State, and in fact, if built, it cannot help but be most complete success in the fullest sense o the term. Let every one assist in speeding the good work. Let our citizens give it all anything else which could befall us.
