#### THE GOVERNOR'S APPOINTMENTS.

Gov. Thayer has appointed Asahel Bush, the Salem banker, as Superintendent of the Penitentiary, and it is currently reported that he has also apdistrict to succeed Boise, who is to be promoted to the Supreme Bench in pursuance of the law just enacted.

#### PERTINENT TO THE ISSUE.

The Oregonian is hereby informed that the late State Printer will carry the matter of printing into the courts and expects to be fully vindicated. He has simply printed as Messrs. Bush, Pittock, McPherson et. al. have done, and the law will vindicate him or knock the pins from under them all.

HON. E A. CHONIN.

The death of Engene A. Cronin leaves a place in the legal fraternity and the citizenship of Oregon which cannot be supplied. Genial, courteous, affable, polite and honorable in all his assciations, he had clustered about him friendship which will last with the lifetime of those who knew him best. Peace to his ashes

## A STCCESTION.

The local bar of this city unanimous ly signed a petition asking the Governor to appoint either Judge Ramsey of Marion, or Judge Powell of Linn to succeed Boise on the Bench of the Third District. The appointment of either of these gentlemen would meet with theapprobation not only of the legal fraternity, but with the people generally. They are both lawyers of acknowledged ability, and their long practice in this district has made them general favorites with the people.

## THE COLLAPSE OF A CAUSE.

It has been over a week now says the Pooris (III.) Journal, since we have seen or heard any body give Breck Pomerov a dig. This is an indication that the great reformer is going down hill. When he fails to provoke a return brick from the missiles Port Royal in a few months. In 1804 he is continually throwing, it is evident that his star is on the wane. Brick at one time in his life stumbled on success-but it was only a stumble. Since then he has been fighting the air and grambling because on one cared others died, and only 28 in a population to buy him at his own price. An air blown bladder of wind and words.
