Santiam Mining. MRHANIE, Ogn., Dec. 22d, 1878.

For the last six months, I have been locked up in one of you gloomy canyons of our own grand, romantic Cascade mountains, prospecting in conjunction with my co-labornate sunshine or fog of the valley, allow me with sincere deference to salaam your dignity and beg pardon for this long continued silence, and also to tender my sincere thanks for the continued visits of the DEMOCRAT. The Canal Ferk Co. have not been working for the last few weeks, but a gang of men will go in again in about ten days to push forward the lower or fourh tunnel, already in 70 feet. In tunnels No. 1 and 2, while under the superintendence of J. B. McIntosh, some very rich quartz was struck, and some quartz carrying a per cent, of galena and silver. The prospects of this company are flattering, and will undoubtedly turn out finely if superintended and worked by miners of theory and experience. No work has been done on the White Bull mine this season.

Randelph & Co. have worked their Dry \$24.75, J. W. Baldwin, \$11.25. Gulch places claim sufficient only to held it. This I consider one of the greatest chances for an actual money-making investment in mining that there is on this Coast, or any

Any function of the body used expensively may produce wasts so great that the ordinary repair of body omesquant upon rost and nutrition cannot make up for it, consequently, incapacity of the overtaxed organ will result. The terms, organs and functions, are synonymous with nerve and rangels, or mutrition electricity and phosphorus. By the use of Fallow's Hypophosphites, the wasted sumants are returned to the body in a form samily assimilated, so that diseased organs or impared functions are made soriid again. TO WHOM IT MAY CONCERN. This is to certify that I have been affect-This is to certify that I have been affected for the last three years with chronic infamation of the bladder and torpid liver. Having spent a small fortune with the best medical talent I could obtain in San Francisco, and visited the various aprings in California, hoping to find relief. Having found none I gave up all hope of being cured and dropped all medicines and doctors. While reading one of the daily papers I saw an advertisement of a medicine called Neunbretteum, a preparation papers I saw an advertisement of a medicine called Neuphreticum, a preparation prepared by Dr. Mintie & Co., of San Francisco. I was persuaded by my wife to try it, and I went and bought a bottle. Having taken that one bottle I found much relief, all pains ceasing and feeling much better I book two more bottles and I am now perfectly restored to health and strength, thank God, for the superior skill of Dr. Mintie & Co. Any one who may doubt this statement can call at my roadence and see me.
