Farm & Garden.

THE FARMER'S DIARY.

If I were called on to give advice on but one subject to our readers at this time of year, and wished to tell them that which, if observed, would be of the most benefit to them, it would be "keep a journal." I give this advice after an experience of twenty-one years, for I began to keep my farm journal in the spring of 1857.

I wish to call attention to this subject at this particular time, because the New Year is the best time in which to begin. I know that many persons think it a great task to keep a journal, but a little experience will prove that if attended to every day it becomes very easy. When once the habit is established we are no more likely to forget it than we are to forget to wind the clock, or perform any other daily task. Do not get a book for your diary with printed headings, and a certain amount of space for each day, for sometimes you will only want to write a line or two, and again you will want to write at some length. Get a plain blank book, well bound, write in a plain hand at the head of the first page the year and the day of the month in which you begin, and for each record the day of the month and week. At the beginning of every new page put the month, day and year. This enables you, whenever you open your diary, to see at a glance the day of the record, and where a book is used that will contain the record for several years, this is important.

But what do you wish to write about? First, the weather. Let this record be as brief as possible. For one day it will read, "fair and warm;" another, "heavy rain with rain and thunder, A. M., cleared off pleasant P. M.;" or, "snowed all day;" "drizzly, east wind," etc., etc. If you keep a record of the temperature, let the thermometer hang at the north side of the house the year round, and note the temperature at sunrise and at noon, which will give us usually the highest and lowest temperature of the day. In a few years you will have a complete history of the weather that will be interesting and useful.

Next put down exactly what you do for the day. The record will usually be brief, but as years pass it will increase in value. When you have kept a journal for four or five years, you find it of great benefit to look back and compare the seasons with one another. I extract from my diary a record of a few days, taken at random, to show how it may be kept.

March 18th—"A beautiful, still, spring morning. Sowed clover seed on wheat A. M.; began plowing for oats P. M.

"March 17th—Warm and cloudy. Finished sowing oats and planted peas in garden; heavy rain in the evening.

"April 5th—Fair; apple trees in bloom; ground warm and dry; began planting corn.

"June 29th—Cut wheat; have a good crop; my corn will average three feet high."

It is not necessary to quote further, but you will see that but little need be written each day to give you a complete history of the farm transactions for the year.

In addition to this mention visits made or received, letters sent to friends, or those you get from them, together with anything of importance that transpires which you would like to remember.

I would suggest that on the first day of each month the price of grain and stock be entered, and that once a year—and the day the assessor calls would be the best—an inventory be taken of farm stock, tools, etc. All this may look formidable to one who has never tried it, but as soon as the habit is formed it will be found easy and simple. Keep your book in the family room and have a particular time to attend to it, and before long it will become a pleasure. As a rule I think it best that this should be done by the farmer himself, but there are many cases where it might be entrusted to a son or a daughter. It would be of great advantage to them, teaching them how to write, spell, and compose, and help them to form business habits. They should be required to do the work well, and it should be examined and approved once a month, and a small monthly sum be paid for the work. Every boy or girl like to have a little spending money, and they would rather earn it than have it given to them. Twenty-five or fifty cents a month would be considered pay by most farmers' children for such service, and they would really get more education out of it than twice that money would buy in most of our schools.

Such a journal as I have described becomes more valuable as the years go by. It will furnish a complete family history, and will often be referred to to settle some question as to the weather, or some event of interest that has transpired. Whether this be done by the farmer or some other member of the family, the education it gives will pay many times over for the work employed. At the risk of seeming egotistical I will say that I owe to the training I received by keeping a journal any success as a writer which I may have achieved.—*Practical Farmer.*

OLD,

TRIED,

AND

TRUE.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN

Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast.

To stock owners and farmers it is invaluable.

A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

It cures every external trouble of horses, such as lameness, scratches, sprians, sprains, founder, wind-gall, ring bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to Miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold everywhere.

ANTI-FAT

ALLAN'S ANTI-FAT is the great remedy for Corpulency. It is purely vegetable and perfectly harmless. It acts on the food in the stomach, preventing its conversion into fat. Taken according to directions, it will reduce a fat person from 2 to 5 pounds a week.

In placing this remedy before the public as a positive cure for obesity, we do so knowing its ability to cure, as attested by hundreds of testimonials, of which the following from a lady in Columbus, Ohio, is a sample: "Gentlemen—Your Anti-Fat was duly received. I took it according to directions and it reduced me five pounds. I was so elated over the result that I immediately sent to ACKERMAN'S drug-store for the second bottle." Another, a physician, writing for a patient from Providence, R. I., says: "Four bottles have reduced her weight from 190 pounds to 122 pounds, and there is a general improvement in health." A gentleman writing from Boston, says: "Without special change or attention to diet, two bottles of Allan's Anti-Fat reduced me four and one-quarter pounds." The well-known Wholesale Druggists, SMITH, DOOLITTLE & SMITH, of Boston, Mass., write as follows: "Allan's Anti-Fat has reduced a lady in our city seven pounds in three weeks." A gentleman in St. Louis writes: "Allan's Anti-Fat reduced me twelve pounds in three weeks, and altogether I have lost twenty-five pounds since commencing its use." Messrs. POWELL & PLIMPTON, Wholesale Druggists, of Buffalo, N. Y., write: "TO THE PROPRIETORS OF ALLAN'S ANTI-FAT: Gentlemen.—The following report is from the lady who used Allan's Anti-Fat. It (the Anti-Fat) had the desired effect, reducing the fat from two to five pounds a week until I had lost twenty-five pounds. I hope never to regain what I have lost." Anti-Fat is an unrivalled blood-purifier. It promotes digestion, curing dyspepsia, and is also a potent remedy for rheumatism. Sold by druggists. Pamphlet on Obesity sent on receipt of stamp.

WOMAN

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as the climax or crowning gem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician, and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful and Monthly Periods, Suppression from functional causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not exhibit this medicine as a "cure-all," but it admirably fulfills a singleness of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats largely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those afflictions.

DR. SPINNEY

NO. 11 KEARNEY STREET,

Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $5000 for every case of nervous weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty-five to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urine a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 1 to 11 A. M. Consultation free. Thorough examination and advice, $5.

The Albany and Santiam Canal.

NOTICE.

To all persons concerned: The Albany and Water Ditch, or Canal Company, has removed its office to a room up stairs in John Briggs' building, in the city of Albany.

Persons having business with the Company will find J. H. Burbhart, who is secretary of said Company, attending to said office; and all persons desiring the use of said canal for transportation or the use of its water for manufacturing or other purposes will apply to the Company by filing an application with the secretary of the Company, which will be promptly acted upon by the Board of Directors of said Company.

The regular meeting of the Board of Directors of said Company will be held in the Company's office on the first Tuesday of each month.

The Company has no authorized agents, and no person is authorized by this Company to rent, lease or dispose of any of the property belonging to said Company, that is to say, the Albany and Santiam Canal together with all its property-rights and privileges, and all business in any way connected with said canal, and its property must emanate from the Board of Directors of said Company, and all persons using said canal or its waters and its property, for any purpose whatever, without authority emanating from the Board of Directors of this Company, will be held responsible to the Company for the same.

Done by order of the Board of Directors.

Attest: L. ELKINS,
President.

J. H. BURBHART
Secretary, of said Company.
