

OLD, TRIED, AND TRUE.

People are getting acquainted—and those who do not ought to be—of the great medicinal merits of this great American remedy.

MEXICAN Mustang Liniment, FOR MAN AND BEAST.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. The famous Mustang Liniment is a valuable remedy for all external ailments of man and beast. To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep. It cures foot-rot, hoof-rot, hives, eruptions, swellings, sore eyes, and all other ailments of the head and face. It cures every external trouble of horses, such as lameness, swellings, sprains, strains, founder, wind-gall, ring-bone, etc., etc. The Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness caused by exposure. Particularly valuable to farmers. It is the cheapest remedy in the world, for it "restores the muscle to the bone, and a single application is generally sufficient to cure. Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately more valuable than the smaller.

ALBANY, April 20, 1879.

The undersigned, physician at Albany, Oregon, having seen the apparatus used, and heard the manner of its use explained, together with the chemical used, as used, we do not consider there is any danger to the health to be feared, either in operating the apparatus, or in using the chemicals, as used in the manner indicated, and we can assign no cause why the process should not prove a success.

The following statement from the leading physicians of Corvallis only confirms that of our own doctors. We suppose Messrs. Goldson and Mattson will add to the list, but the names already obtained are sufficient to settle the points of the healthfulness of their process in Linn and Benton counties at least, as they are among the most intelligent and experienced of the profession.

CORVALLIS, Oregon, April 24, 1879.

The undersigned physicians of Corvallis, having explained to us Ames' Process for preserving meats, etc., can say that it is nothing unwholesome about it, as used, and that no fears need be apprehended on that account. We have also seen meat, fish, butter, etc., that has been kept several weeks by this "process," and believe that its claims to keep the various articles of provisions sweet and fresh can be sustained.

G. GREEN, M.D., J. R. FAIRBANK, M.D., J. R. BAILEY, M.D., J. R. LEE, M.D.

Messrs. Goldson & Mattson appear determined to let folks know about their meat preserving process. The first meat and fish put up by Mr. Goldson was all eaten up after being kept about sixty days, and now they are at work on another batch.

On the 17th inst. the gentlemen whose names are attached to the report below have invited to Mr. Goldson's "to be plowed," and samples were cooked and eaten, as follows: BEEF, 12 days old; but-ter, (calf) 77 days old; unseasoned, 12 days, 77 days old. All kept by Ames' process, without salting, cooking, drying or sealing up. The following is an exact copy of report.

"The articles were all as sweet and good as at the first." Signed by G. GREEN, M.D., J. R. FAIRBANK, M.D., J. R. BAILEY, M.D., J. R. LEE, M.D.
