

The Committee of Arrangements met last Tuesday evening and decided not to have any celebration at Albany on the coming Fourth, and so their decision was wise for both of our cities—Junction and Corvallis—had been making preparations for grand celebrations before we thought of it. When the action of the Committee was learned, the Chief Engineer of the Department, Major Herren, called a meeting of the first boys for Wednesday evening, and they decided almost unanimously to have a grand fireman's excursion on the Fourth. The Mechanics Brass Band was engaged immediately, and a Committee of Arrangements consisting of Jos. Webber, Jay W. Blain and Clark Stewart was appointed, and they are now negotiating with the companies below for a steamer to furnish transportation. The fare will be put at just as low a figure as will enable the firemen to come out even—they don't want to make a cent from it, and the excursionists will get the benefit of it in low fare. The people of Corvallis all ways turn out on a day when we have a public gathering and we hope that on the coming Fourth our citizens will lead the excursion steamer down to the guards.

In the evening after the return of the excursionists the Mechanics Brass Band will give a grand ball at the Opera House. The price tickets has been put down to 25 cents and every body will attend.

A Perfect Grain Separator. Mill and warehouse men and farmers understand the necessity of having a perfect grain separator, and this one is now being manufactured in Albany by Mr. B. B. Bost. It excels all other kinds, both for speed and quality, and does what no other machine of the kind will do—makes a perfect separator of oats from wheat, something which has never been attained before. The large machines are now building will have a capacity of cleaning 300 to 400 bushels per hour, and will last for years. As soon as he gets through with the present rush of orders for large machines he will build some small ones for hand power to use on farms, and also some which will be portable, so they can accompany a threshing. Our readers who are interested in such matters should call on Mr. Best at the Albany Foundry.

Blue Ribbons given to the regular meeting of the Y. P. C. A. to be received on Friday, June 27th, the following programs will be given:

- 1st—Music. 2nd—Prayer. 3rd—Address by Rev. James H. Harris. 4th—Bible, by Mrs. H. Dany Stars. 5th—Five Minute Speeches. 6th—Business Meeting, and Circulating Tracts. 7th—Music. 8th—Adjournment.

Arm Broken. That ancient and enterprising animal which has no pride of ancestry nor hope of posterity—the ass—has got in his work again. Richard Chadwick, living near Lebanon, was handling mules a few days ago with a span of the aforementioned animals, and his lead slipping he rolled off in front. Before that ass struck the ground one of the mules had made two dozen, more or less, lashing impressions on his body with his heels, among other casualties breaking his right forearm in two places. Dr. Ballard and Ebert were called and rendered the necessary medical assistance.

Large Sales of Saw Logs. Having more saw logs on hand than their mill can saw up during the present year, Allen, Robinson & Co. have within the past two weeks sold 250,000 feet—half being purchased by Borch, Helge & Co. of Independence, and half by Smith, of the Buena Vista saw mills. On Saturday last week the little steamer Nellie came up here and towed down to Independence 60,000 feet, and we understand she has been engaged to take all the logs down which have been purchased by both mills.

Newspaper Consolidation. During the past week the two temperance publications of this State—the Valley Fountain and Temperance Messenger—have been consolidated, Mansfield & Monteth, of this city, having purchased the former paper of J. C. Cooper, though Mr. C. is still retained as editor of the Good Templar department.

The new publication will be printed in magazine form, and will contain the rather weighty and cumbersome title of Valley Fountain and Temperance Messenger; price, \$1 per year.

Military and Dressmaking. Having bought out Mrs. C. P. Davis, Mrs. O. L. Parks is now ready to furnish the ladies of Albany and vicinity with military goods at prices which cannot be undersold. She has just brought up a new invoice and she has a very neat and well selected stock. She makes ladies' and children's clothing on the shortest notice and guarantees satisfaction, and will do it at a lower price than any other establishment in Albany.

TEMPERANCE HALL. Open Meeting of the Legion of Honor. There will be an open meeting of the Legion of Honor at the Court House to-night at 8 o'clock. Hon. J. J. Whitney and other speakers will address the meeting. It is hoped there will be a large attendance, as the exercises will be of an interesting and entertaining nature. Come out, everybody!

Change of Firm. Owing to sickness in her family Mrs. C. P. Davis has sold out her millinery and dressmaking establishment to Mrs. O. L. Parks. Mrs. Parks is well known in this community as a lady of taste, and we have no doubt she will give complete satisfaction to her customers.

For the Record. Last Monday the following persons left Albany to go on the excursion which left Portland on Tuesday for Victoria and the Sound: Mr. and Mrs. Walter Ketchum, P. H. Raymond, Edwin Haffenden, J. T. Tate, J. F. Whitney and Rev. W. B. Floyd.

Attention, No. 14. There will be a uniform drill of Albany Engine Company No. 1, on Saturday evening, June 28th, 1879, at 7 o'clock sharp.

By order of J. McI. MERRICK, Foreman.

MEMOR. The daily shows with modest grace Upon the meadows' breast; The sunbeams gleam on his locks To seek the laurels east. The daffodil and the crocus Are lighting up the lawn; There sentimental Charlie Brown Meanders with Jane. The meadows' dewing by the brook Seem hung with drops of bliss, And rain-stroke kind stands peacefully And show the foliage out. Oh! sweetest scene of the year, We see you on the hills! And we hasten to the cupboard And bid the seven rivers fill.

"SHOOTING THE QUEER." A Young Lady Arrested for Passing Counterfeit Money—She Makes a Confession.

Last Friday morning several of our merchants found counterfeit \$25 gold pieces had been passed upon them, and upon consulting among themselves they came to the conclusion that the one who uttered the note was a girl about sixteen or seventeen years old, who had made purchases at their establishments on the evening before. Officers were put on her track and on the following Tuesday she was arrested at Salem, and on the evening of that day was brought to this city. On Wednesday morning she was brought before Justice Palmer, but instead of standing a trial she confessed and made the following confession:

My name is Clara M. Newsome; my age is now seventeen; I have resided at Tillamook for about two years; my father died when I was four years old; I had two sisters and one brother, but when the children died shortly after my father's death; after my father's death mother married C. A. Smith; while living at Astoria some years ago a man proposed to my father to make counterfeit money, saying that if my father would make it he would distribute it, but father refused. We went to Tillamook soon after and father took a claim, and at different times the man in Astoria wrote to father and repeated his offer, but father always refused. Along last Christmas, though, father took it into his head to make money; mother and myself objected to it, but he finally overruled her and made his preparations; when my brother and sister heard of it they left home; I was not in favor of it, but when he got everything ready I came with him to the valley, as I had always been in the habit of obeying him. We came to Portland about the 15th of June, and while there I distributed four or five \$25.00 pieces; then we came to Albany where I disposed of perhaps a half dozen more; then we went to Eugene and put out about six; then went to Halsey last Saturday, where we stopped at John S. Caldwell's; my father went from there to Turner's Station and I went on to Salem, and I put out about four pieces there. I intended to leave my father and go home from there. As fast as I changed the gold money I gave the gold to my father, and he carried it to the Central Hotel an officer arrested me. My father had promised to come to Salem and get me and then go back to Tillamook and quit the business.

CLARA M. NEWSOME. The girl was bound over to await the action of the grand jury, and no one coming forward to furnish bail, she is now confined in jail.

Santiam Quarries. Adam Nye and son, of Sweet Home, Oregon, in this city last Monday a lot of quartz from the Santiam discovered on the South Fork of the Santiam, and it created quite a stir among the old miners in this locality. Frank Wood subjected a small piece of the quartz to a fire test, and brought out upon it several globules of silver and lead and one good sized flake of pure gold. Some of this quartz was assayed sometime ago, and the result showed 5 per cent. silver and 30 per cent. lead. This would give about \$8,000 of silver to the ton, with enough lead to almost pay for the working of the quartz. If the lead doesn't change in richness when they get to the mill, on it, Sweet Home will be a wealthy community, for we understand every man, woman and child in that locality has a claim on it, and the lead is sixteen feet thick on the surface.

Workmen's Societies. A very pleasant affair was that of the societies given last Monday evening by Wilamette Lodge No. 5, Ancient Order United Workmen. Judge Phipps' address was a model of conciseness, and highly interesting and instructive. The brethren and lady friends of the Order had fairly "laid themselves out" in preparations for refreshments, and the strawberries, ice cream, cake and sandwiches were all, both in quality and quantity, that the most fastidious epicure could wish. Every body felt easy and comfortable, and the event came nearer being a real "social," in the fullest sense of the term, than we have witnessed for many a day.

Business Houses to be Closed. We the undersigned merchants and others doing business in Albany, do hereby agree not to open our respective places of business on Friday, July 4th, 1879.

New Marble Works. Frank Wood, of our city, has gone into the marble business, and being an old hand, V. W. he sent back there to his relatives and had a fine stock sent to him. He imported a first class workman and is now turning out a class of work that has never been excelled in this State. The first piece turned out is a monument for Nathan Bond's grave, and a neat or more symmetrical piece of work we have never seen. It will be set up this week in the cemetery and we advise all to go and see it.

An Old Pioneer Gone. Wm. Blyden, one of the oldest citizens of Linn county, died at his residence near Scio last Wednesday, aged 80 years. He was perhaps the ancestor of the most numerous family in Oregon. His wife's reading over a hundred numbers of the Oregonian, of whom reside on the Forks of Santiam. We deeply sympathize with his large circle of relatives and friends, and shall attempt to secure a more succinct obituary of the good old man at an early day. Peace to his ashes.

A Fatal Accident. Last Wednesday, as Mr. Ebenezer Hayes and family were driving into the picnic grounds at Roberts' Bridge, the wagon struck an old grub and threw their little two-year old girl out and one of the wheels passed over her head, crushing the skull. The little one was taken up and medical assistance called, but she died in the evening. Mr. Hayes resides near Halsey.

Wood! Wood! Wood! 10,000 pounds of good wood wanted. Extra price paid for Boston direct, by PHIL. COHEN.

Council Proceedings. The Common Council of the city of Albany met in regular session last Tuesday evening, with all members present but Alderman Kline. Committee on Streets made a report recommending that Second street be graded and gravelled from Ferry street to Thurston. Report adopted, and work ordered.

A communication from Judge Haley, in reference to the improvement of Washington street, was read and placed on file. The Committee on Streets to whom was referred the matter of the improvement of Washington street, reported in favor of making a cut of a certain depth at the intersection of Washington and Second streets, and sloping from that point in each way until it runs out when striking the established grade at the distance of one block. The report was adopted and the Committee on Ordinances were instructed to draw up an ordinance bill making the required change in the grade. They were also instructed to procure the services of the City Attorney in drawing up an ordinance bill, and to leave the depth of the cut blank.

A petition was received asking that a bridge be built across the Santiam Canal on Washington street. Granted.

Alderman Kline called the Council to pass an ordinance compelling all persons who sell liquor by the pint or quart in this city to pay a quarterly license of \$15. On motion of Martin consideration on the subject was laid on the table until next meeting.

Committee on Accounts reported in favor of allowing the following bills, and orders were drawn for the different amounts: J. H. Taylor, \$2; J. H. Harris, \$2; Dan Wagon, \$2; J. A. Warner, \$25; P. C. Harper, \$17.30; W. L. Watkins, \$30; J. W. Baldwin, \$5.

\$54.61 of the Marshall's bill was allowed, and the balance was referred.

On motion of Martin it was decided that the Marshal be allowed hereafter the sum of \$1 per day for housing prisoners. The Marshal was instructed to order Wm. Peterson to fill up the low place in the street adjacent to his property on the corner of First and Ferry streets.

On motion of Bentley the sidewalk on the south side of First street, between Montgomery and Railroad, was condemned, and a new one ordered to be built inside of twenty days.

On motion of Scott the Canal Company were ordered to repair their flume on the east side of Broadland street so that it would not overflow, the work to be completed within 20 days.

On motion of Martin the property holders were ordered to construct within 20 days a new 10-foot sidewalk on the north side of First street, between Baker and Montgomery.

The Marshal was instructed to order Mr. D. Ballard to move his fence back on the line of the survey within 20 days. The Marshal was instructed to repair the sidewalk on the north side of Sixth street, from Elm to the west end of Block No. 40.

On motion of Scott the Committee on Streets were instructed to examine First street from Montgomery to Thurston, and report at next meeting what improvements are necessary on that street.

On motion of Rice it was decided to do as proposed to work under the ordinance now in force in regard to cross-walks and street intersections.

On motion of Scott the Recorder was instructed to proceed at once to collect a bill of \$15 from the Canal Company, work to that amount having been done on the Canal by the city.

After referring several bills the Council adjourned.

A New Flouring Mill. Negotiations have been pending for some time, and were concluded a few days ago, by which Mr. Ed. Gunn, formerly miller at Mendick's Mills, has been received into the firm of Ballard & Ison, and the new firm is tenting into their grain warehouse for a flouring mill. The contract for the machinery and work has already been let to Messrs. Alice & Peck, of Portland, and the terms require that the mill shall be in running order by the 20th of next September. Four run of buhrs will be put in—one for chop, one for middlings, and two for wheat, giving the mill the capacity of about 200 barrels of flour daily. A new and larger flume is now being constructed to carry water from the Canal to propel a 21-inch Eclipse wheel, which will furnish the power necessary for working the machinery. The Ballard & Ison warehouse is one of the staunchest and best buildings in our city. It has heretofore had a storage capacity of 100,000 bushels, but putting in the mill machinery will reduce it to about 130,000. The old proprietors of the warehouse are well known to the farming community as upright, honorable and wealthy citizens, and we think they have made a good selection of a partner. Mr. Gunn is a miller of many years' experience, and if the farmers furnish him with good wheat the flour he will turn out cannot be beaten anywhere. We predict that the new firm will be very popular with the public.

Fire at Lebanon. From W. B. Deamus we learn that the station belonging to W. H. Reid at Lebanon, was burned to the ground last Tuesday night about 11 or 12 o'clock. The fire had made such progress when first discovered that nothing could be taken from the building. The flames communicated with another building, but owing to the almost superhuman exertions of Ben McDonald and other citizens the building was saved. Mr. Reid had a fine new billiard table and a large stock of liquors in his saloon, which were insured for the sum of \$800. The building, was owned by Mr. Mossholder, and we understand, was insured for \$500. Lebanon can't stand many more fires. If they lose one business every month or so they will run out before long, and then what will become of the railroad? They should buy a fire engine out there, and protect themselves.

A Runaway. John Riley, living over the river from this city, had a lively runaway last Saturday. His strawberry rack was badly damaged and his team ran over him two or three times, but he is still able to be around. A tough man is John.

Dollar Gift Store. An art gallery and dollar store will be opened Saturday afternoon in Froman's building, on Main street. The proposed store comes well recommended from towns where they have been. Their manner of sale is new and novel.

Notice to Farmers. All you who are interested in self-binding harvesters are notified that the working of the Osborne self-binder will be demonstrated on Wednesday next, July 24, on the farm of C. Backner, near Miller's Station. Extra price paid for Boston direct, by PHIL. COHEN.

NOV. Now the Miller of the valley On the meadows are written; And now the golden butter On Donnell's billings; 'Tis now the mowing number (24) The colors and notes; 'Tis now the daisy croquet ball; Both seek the tender blades; Home and abroad.

Chew Jackson's Best Sweet Navy Tobacco. Prime cheese, ham and lard on Half-brother's. Choicest teas, coffee, and cocoa at Half-brother's.

Every body is going to Corvallis to spend the Fourth. Canned and dried fruits of all kinds at Half-brother's. Good weather for late sown wheat for the past week or so.

The Methodists are holding campmeeting at Roberts' bridge. Our strawberry crop is nearly gone; it was very short this year.

Hon. J. G. Davis, of Eugene, was among our visitors of the week. Stationery and tobacco cheap at the Farmers' and Mechanics' Store.

Peter Hines, of Brownsville, is the happy father of a bounding girl baby. Trunks' trunks at very down prices, at the Farmers' and Mechanics' Store.

N. Bridges lost a very fine horse a week or so ago. Death caused by colic. The Committee of Arrangements have declared all bets off on the Albany Fourth. Frank Peters, formerly of this city but now of the Dalles, called during the week. Front street is beginning to look a great deal better since the new gravel has been put on.

Mr. John Fox, the baker, has a new clerk—Ed. Upham. Ed. will make a good grocer. The Nellie took down another large raft of saw logs to Independence from this city yesterday.

Our Fourth is "busted," and we do not wish to be called unpatriotic because we are glad of it. After seeing a Singer a lady will have no other kind of a sewing machine. They just fill the bill.

All goods marked in plain figures, with one price and no credit, at the Farmers' and Mechanics' Store.

Bro. DeVore's excursion to Corvallis was a financial success. About 300 people participated in the event. Chris English has sold out his restaurant business at the Dalles to Ven Backus, formerly of this city.

Several different parties are making arrangements to go to the mountains or Coast just after the Fourth. Misses Maggie and Mattie Foster and Miss Hettie Thompson and Lottie Monteth spent the past week in Portland.

Jones & Hill have already commenced the delivery of the Plummer fruit dryers sold by them throughout the county. Why couldn't a lot of "rag ughs" organize and charter the little steamer Nellie and go to Corvallis on the Fourth?

The American eagle will sweep and give the annual exhibition of its claws all over Oregon one week from to-day. Largest stock of candies in Linn county at Haffenden's, and they sell them in any quantity to suit wholesale or retail.

Paul d'Henry, formerly of this city, is now local editor of the West Oregonian, published at Pendleton. He does well in that line. Grand Height is "bass of the block" at the Central Market, and all the young ladies call on him when they come down to buy meat.

Perpetual motion has almost been discovered, and is Albany, too. It's the everlasting drive of that Chinese family opposite the hotel. If you want a first-class sewing machine, call on Geo. M. Champlin, agent for the Singer. He is selling a great many of these justly celebrated machines.

Haffenden's has just received splendid did of goods per steamer Elder and Oregon. You can find anything you want in the grocery line at that store.

Last Sabbath a lot of young fellows ran horses all day just a short distance from where religious services were being carried on at the Seaville campmeeting.

John Schroyer, of Portland, started over the Lebanon mountain road last Saturday for Primerville, where his son resides. He was accompanied by his son's family.

We understand John has already sold the paws of his young bear—"The Baby." Ask Charley Keifer if you want to know what the man is going to use them for. Great mining excitement in Sweet Home. Everybody has taken up an extension on the new lead discovered in very short time, and all are going to be wealthy in a very short time.

Senders & Sternberg bought 40,000 feet of flooring last week and stored it away for seasoning. It will be used in their large two-story brick which they propose to erect next spring.

Cherries are now in the market and are worth from thirty to forty cents per gallon. The price probably about a very low price, as the late frosts destroyed about two-thirds of the crop.

Canned chicken, turkey, tongue, corned beef, clams, plain and spiced oysters, salmon, pork and beans, pig feet, and almost anything you can get into a can at Haffenden's.

Hardless is gaining quite a reputation for the Central Market. He always has a splendid stock of choice meats on hand, which he sells cheap and delivers free to any part of the city.

Opened this week at the Farmers' and Mechanics' Store—a full line of white and colored handkerchiefs, overalls, hosiery, white rats, silk handkerchiefs, boots, shoes, hats, etc., etc., all at bottom prices.

Lumber is now being taken away from the Albany mills in large quantities. Albany is not building to any extent this year, but the farmers throughout the county are using up a great deal of lumber.

The Albany Farmers' Warehouse is a very popular institution with the farmers in this county, and could not be otherwise so long as its business is managed by those efficient gentlemen, Messrs. McClure and Mansfield.

Our lady readers must remember that Mrs. Lou Parrish has a splendid stock of millinery goods which she is selling off at very low rates. Call around and see her stock. She also makes a specialty of dressmaking.

Last week we stated that Ed. Gunn, who was fined for smoking opium, was a waiter at the St. Charles, but we have since learned that he is not. He never worked there, and never stopped there but one night, and then he was compelled to leave.

Albany boys have concluded not to wait any longer for summer. They build fires on the river bank and go in swimming all the same, coming out every few moments to warm. One thing that makes them feel happy is that the sun does not blister their backs.

Farmers from all parts of our county inform us that the prospect for a good grain crop is very flattering. This makes the fac-

feel happy, and he is now buying goods a little more freely than usual which has the effect of putting a little more money in circulation. Several of our fire boys have been running foot races this week to see if they could show off of winning the trumpet offered for the fleetest fireman, to be contested for at East Portland on the coming Fourth. We do not know whether they will enter or not.

J. D. Titus, the popular Albany Jeweler, left yesterday morning for Eastern Oregon, with a band of horses. He goes over the W. V. C. M. Wagon Road, and is accompanied by Dr. Hyde. He will place the horses under the care of his brother Jack, on Willow Creek. We wish him a pleasant journey and a safe return to the home of his jewelry shop!

That pretty young man whom Ed. Cartwright imported to Oregon, and two other young fellows, were caught among themselves last Sabbath by breaking window lights out of Monteth's flouring mills. Mr. Monteth threatened to have them arrested for it and they laid very low for a while and have probably left the city now. It is time they were seeking other and greener pastures anyway.

ANNOUNCEMENT TO EXCURSIONISTS. Arrangements are being made so that an excursion steamer will leave this city about 7 or 8 o'clock on the morning of the Fourth of July, under the control of the Albany Fire Department, and arriving at Corvallis early in the forenoon will remain there until evening and then return to this city, giving all who wish an opportunity of participating in the grand celebration at our sister city. The fare will be put at just as low a rate as the conditions of the charter of the steamer will allow. Bins of your lumber, properly labelled, to the boat, and a trustworthy person will take charge of them, and after arriving at Corvallis, they will be taken to the Court House, where you can get them at lunch time. Remember that no mistakes will be made. Turn out everybody and let us have one gata day this year.

JOE WEBBER, JAY W. BLAIN, CLAIR STURTEVANT, COMMITTEE.

A Matter of Interest. Our citizens may not be aware of the fact, but nevertheless it is the case, that Albany is in imminent danger of losing the river, which, during the summer, glides so placidly along our city front. Every winter when the stream is high and turbid it overflows in the city, and deposits a layer of mud which is a great nuisance, and it is only a question of time that the river will take that course and leave Albany entirely, unless measures be taken soon to obstruct its progress in that direction. At present it does not seem to keep to its natural course, but in a few years it would take a small fortune to do so. We hope our business men and the city authorities will look into this matter. A walk over the ground will thoroughly convince any one of the magnitude of this question.

The Revere House. The Palmetto Chronicle pays our popular hotel, the Revere House, the following deserved compliment: "It is you passing through Albany, and desire to know which is the first-class hotel of that city, remember that the Revere House is a new, first-class hotel, kept by polite and experienced proprietors. Cleanliness and generous fare at the bed and board will win you to be a constant guest at the Revere. The Revere is more convenient to the railroad than any other hotel in the business part of the city; and it is upon the corner fronting the ferry landing."

Death of a Lovely Young Girl. Mr. W. C. Baird, of Brownsville, was in the city during the week. He informs us of the death of the daughter of Mr. Peter Keeling of that city. She was aged 16 years, was a sensible and beautiful girl and a general favorite in that community. Her funeral was largely attended, and there is general mourning at her death.

At Lebanon. G. R. Gilmore, at the Cosmopolitan Saloon, Lebanon, kept the best brand of fine wines, liquors, cigars, etc., and has the famous billiard table on which the celebrated Portland tournament was recently played—acknowledged to be the best table in the State. And "don't you forget it" that "Bob" knows how to treat his friends and customers when they call upon him.

Campmeetings. Rev. T. B. White, Presiding Elder of this district of the M. E. Church, South, makes the following announcement for campmeetings in his district: Dallas, on the fifth Sabbath in June. Dicie, on the first Sabbath in July. Yamhill, on the second Sabbath in July.

New Dental Rooms. Dr. G. W. Gray wishes his friends and patients to remember that his new dental rooms are now located in Foster's brick block at the large bay window. Entrance to office, first floor on the right of the stair landing, opposite the Y. P. C. Hall. 4353d

Do You Want Furniture? Jas. Danahall, in this city, now has on hand a large stock of furniture than any other establishment this side of Portland, and if you want to purchase any it will pay you to give him a call. He has something to tell you in regard to his prices.

Lower Prices Than Ever. Pool Dunning wants us to announce to our readers that for the next sixty days he will sell furniture at lower prices than ever. This is no advertising, because simply he means business, and you will find it so if you call around and price his stock.

The Temperance Picnic. The temperance picnic at Roberts' Bridge last Wednesday was largely attended we hear, but we have not been able to get a full report from there yet.

A Horse Power for Sale. Senders & Sternberg, of this city, have a PAT horse power (10 horse) in first class order, which they will sell for half the usual price.

MISS SARAH FROST, of Northampton county, Pa., weighs three hundred pounds. Wouldn't Jack Frost have a big bite there!

Dr. Mintie's Vegetable Bilesterium will cure all diseases of the Kidney, Bladder and Urinary Organs. Beware of cheap imitations; other remedies have failed. His Bilesterium is a pure, natural, and safe remedy for all such diseases, and is sold by all druggists. Many of the leading citizens of this city will vouch as to its virtues. To be had of all druggists.

HAMBURG FIGS twenty-five cents a box.

SEED TIME. ---AND--- Harvest of 1879. Farmers of Oregon and Washington Territory: We have on hand and to arrive the following list of Agricultural Implements and other goods, and we respectfully ask you to call and examine them, try them, and if they prove satisfactory buy them: Morrison Bros. wood and steel beam walking and sulky plows, celebrated for being light draft and doing good work when others fail, tried and recommended by the Linn Co. Council, P. of H., and have no equal as far as now known.

Farmers Friend grain drill, double force feed, changeable while the team is in motion; winner of first prize at the Philadelphia Exhibition, 1876 and Paris Exposition, 1878 and at all State and County fairs where exhibited.

Randall rolling cutter barrows. Scotch and excelsior steel tooth harrows. Government Standard Whitewater wagons and hacks; best ironed, finest finished and lightest running wagons ever offered for sale in this State.

Espey hacks and carriages. J. I. Case & Co's. Threshers and Headers and Traction and portable farm engines, best in the world. Osborne's improved self-binding harvesters, reapers and mowers.

Wheeler's No. 6 combined reapers and mowers. Lion self-dump sulky hay rakes. Revolving hay rakes. Buckeye cider mills (improved). Burdick hay and straw cutters. Whipple's wagon guide and draft equalizer. Evans centennial fanning mills. Crystal Medal, farm, school and church bells. Pulliam's patent bolster spring—something new. Blanchard patent churn. Howe's thermometer churn. Scott's patent four-point steel barbed fence wire. Boss sickle grinders. Porter's champion hay forks and carriers. Lightning hay knives. Champion railroad and garden barrows. Centennial buggy tops, all sizes. A full line of all steel goods, garden rakes, hoes, spading-forks, spades, shovels, picks, mattocks, etc.

All of which will be sold at lowest prices and on good terms; orders from abroad solicited, and promptly attended to. Illustrated Catalogues and prices free on application.

NEWBURY CHAPMAN & CO., Portland, Salem and Walla Walla.

EUGENE BUCHANAN, Agent at Albany, Or.

Horsemen, Look to your Interests! THE IMPORTED PERCHERON STALLION.

GENERAL FLEURY WILL MAKE THE SEASON, BEGINNING APRIL 7TH AND ENDING JULY 15TH, at the Livestock Stable of H. Bangham, Junction City; and Friday and Saturday of each week at the Livestock Stable of J. Huntley, Eugene City.

It is well known that there never has been a stock of horses that has shown such a MARKED IMPROVEMENT on the country as the Percheron stock of the country as the Percheron stock, and we have no doubt that a good large stock will always bring a good price.

GEN. FLEURY was selected in France by Mr. C. P. Fillingim, the party that brought out LOUIS NAPOLEON, the first of this stock that came west of the Alleghany. This horse proved the great value of this stock in our country. Mr. F. then had 24 years' experience with this stock when he brought out GEN. FLEURY, and purchased him from one of the best breeders of this man in France. He has proved a No. 1 breeder in this State.

Terms—\$25 the season. 36m3

W. C. MYER, Sheriff's Sale. BY VIRTUE OF A WRIT OF RECOVERY, returned out of the Circuit Court of the State of Oregon for the County of Linn on the 10th day of June, 1879, on a judgment recovered in said Court on the 6th day of June, A. D. 1879, in favor of John A. Crawford, Plaintiff, and against E. R. Chesdale and Raphael Chesdale, Defendants, for the sum of twenty-seven hundred and seventy-three dollars and fifty cents, in U. S. gold coin, and the further sum of two hundred dollars gold coin as attorney's fees, and for the costs and disbursements, and of and upon this writ, I have levied upon all the right, title and interest of said Defendants, E. R. Chesdale and Raphael Chesdale, on and after the said 6th day of June, 1879, and in the following described real property, to-wit: Water Lot No. six (6) in the City of Albany, Linn County, Oregon; also, Lot No. two (2) in Block No. eight (8) in said City of Albany, in Linn County, Oregon, as marked out and described on the plat and surveys of said City, with all the tenements, hereditaments and appurtenances thereto belonging or in any wise appertaining, all taken as the real property of said Defendants, E. R. Chesdale and Raphael Chesdale, and on

Saturday, the 13th day of July, 1879, at the Court House door in the City of Albany, Linn County, Oregon, at the hour of one o'clock P. M., I will sell the hereinbefore described real property at public auction, to the highest bidder, to satisfy said writ, with accruing costs.

Water Lot No. six will be sold first. Dated June 10, 1879. I. C. DICKEY, Sheriff of Linn Co., Oregon.
