four precincts in the county.

The result in the State and on the Presidential election is still in doubt. Our dispatches last night indicate that the Republicans have carried New York. If they have done so there must have been treachery in John Kelly's gang. Without his support Democrats could not hope to carry New York, with it they could certainly have swept the State.

Republicans now claim that they have John Kelly and the entire ammany Ring. They may have purchased Kelly, but they cannot purchase the working men of New York City. If Kings' county has given us the major ity claimed we have the State and that will give us the President.

Our last advices are that the Repub licans claim New York by from 15,000 to 20,000. Since they have whittled down their majority from 40,000 to 15,000 it is possible that they may yet lose the State.

It may be observed also that Indians is claimed, with scarcely no returns from that State. One Associated Press dispatch to the Oregonian puts it at five thousand, but we have no returns from the Wabash District, where three Democratic papers opposed Landers for Governor in October.

It may however be possible that the e'ection has gone against us. If we have lost New York we have been defeated for President. But if as is reported by the telegraph that Davenport Lake has been pursuing the same course in Jose this election that he did four years ago, Curr arresting thousands of people on the Lan ground that they were foreigners and Ben alians, it is likely that the two Houses Was of Congress will look into the matter, Um and go behind the returns. Democrats Uni will insist ON A FREE VOTE, A Bak FAIR ELECTION AND AN HON- Gran EST COUNT.

There are many at the age of thirty-five to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakoning of the system is a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found that sometimes small particles of albumen will appear, at the color will be of a thin milkish have, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Do, will guarantee a perfect cure in all such cases, and healthy restoration of the genito-urinary organs.
