THE TROTTERS OF 1880.

Below we present a most interesting exhibit of the notable performances on the American trotting turf during the season of 1880, showing the horses that trotted in 2:27 or better, those who reached or went below that figure for the first time, and those who improved upon their records in previous years. The tables will repay study, as they demonstrate an astonishing increase in the speed of the American trotting horse-a rate of development which, in a few years, bids fair to bring about results not hitherto believed possible. Of the 124 horses that trotted in 2:27 or better, 61 reached the figure for the first time, while 63 horses of a faster grade improved upon their previous records. Among the most extraordinary performances of the year were the 2:10% of Maud S.,6 years old, and ter's brick building on Wednesday evenings the 2:25} of the 2-year old Fred at 7:30 o'clock, and on Sabbath afternoons at Crocker, owned by Gov.
