Twine Binders. A Fact Worthy Attention. With the farmers of Linn and Benton counties by a twine binder that is yet an experiment when they can get a Walter A. Woods that is spoken of in the following terms by one of the largest and best known farmers on Salem Prairie.

SALEM, August 2, 1880. Messrs. Frank Bros., Portland, Or. GENTS:—I have been a farmer in Oregon thirty four years, and have watched the improvements in agricultural implements with great interest. My expectations have been fully realized by your Walter A. Woods' Twine Binding Harvester, now running on my farm. It is the most complete thing I have ever seen go into the field, doing the cleanest work and nearest binding. It makes its bundles exactly the same in light or heavy grain without the assistance of the driver. Being lighter than the wire binder, it is of easier draft, and its machinery far more simple. I cannot give too strong a recommendation to the farmers of Oregon. As a farmer I am well known on Salem Prairie. No more wire binders in this section. Look out for my order for next year. Yours truly, ALFRED SAVAGE. Mr. Savage and his brother both have given their order for machines.

ALBANY, April 26, 1881. Messrs. Frank Bros., Portland, Or. GENTS:—We used one of your Wood's Twine Binders last season. For the Harvester you believe it to be the best made and for the binder it is perfect. It gives so trouble and does good binding. We expect to own one or an interest in one this season. MCKENZIE BRICE.

He was conscious until the last, bidding all good byes, and said he was going to Heaven. Independence, Or., Apr. 25, 1881. W. A. CUMMINS.
