

STEWART & GREY, Editors and Proprietors.

C. & C. R. R. TIME TABLE. Albany Station.

Table with columns for Albany Express, Freight, Mail, and Passenger services, listing times and destinations.

THIS PAPER may be found on the... Advertisements... contracts may be made for it in any form.

HOME AND ABROAD.

Paris. Night. Fine moonlight. Repair your sidewalks. P. M. French Jeweller.

Remember the Fourth of July and keep it lively. At the latest styles of straw hats at L. E. Balm's.

Montague, the General Merchant of Lebanon. All the popular newspapers and magazines at Plummer's.

Albany has ten secret societies all in flourishing condition. A fine stock of collared jewelry of all kinds at Fox, Baum and Co's.

The Fig 4 ministers will be here next Wednesday evening. Cigars and tobacco, choice brands and low prices at Ignatz Fox's.

Some Brazilian public spectacles at French's are a treat. The Common Council voted \$150 towards celebrating the Fourth.

There is some talk of printing a new edition of the city ordinances. Stewart and Grey have some pleasant residences to rent and for sale.

A regular street skirmish took place on First street one day this week. Summer underwear, a large stock and low prices at Balm's.

A well selected stock of ladies' misses and children's, French kid shoes and sandals at Fox, Baum and Co's.

The One Price Bazaar is gaining a first-class reputation for being the best place in the city to buy goods cheap. Call on Ignatz Fox and inspect his stock of gent's furnishing goods.

L. E. Blain carries a splendid line of white and colored shirts, all sizes and styles, and the best makes in the market. Violin strings, the very best quality for 12 cents each at Wiley B. Allen's.

The Lebanon people are proud of their new hotel, but Montague sells goods as low as ever. Call on him and get prices. 3000 H. R. Kelly & Co's fine Key West cigars opened this week at the Farmers' and Mechanics' Store.

Albany will have a Wool Mill, and offer a bonus of \$5000 to any person or company who will put in operation a good mill. The Narrow Gauge has had an accident. The locomotive "Scioto" telescoped a car last week and busted up the engineer's cab.

W. R. Graham and Son are the popular merchant tailor of the valley and carry a fine line of suitings at reasonable prices. Do not fail to call at Montague's and inspect his fine stock of goods.

Dr. C. A. Plummer now has the celebrated Tolu Rock and Ely preparation, one of the best remedies known for all throat and lung troubles. Cooper Turner is tearing down one of the buildings on his property at the corner of Lyon and First streets, and is removing it to his farm.

Graf and Froman are among Albany's live business houses. Whenever you think of buying anything in the furniture line be sure to call on them. Remember General Meyer, of the Star Bakery, always keeps on hand fresh bread, pies, cakes and good old-fashioned home made doughnuts.

John and Joseph have just received and put in place on their new marble counter an elegant silver plated fountain, arranged for washing glasses. It is one of the finest pieces of workmanship in the city and shows off finely in their pleasant store.

Mrs. McCarley, of Goliadale, near Miss Lillis Houston, is now visiting her brother, Leonard Houston, in this city. Hon. T. J. Stiles, of Salem, paid Albany a visit last Tuesday. He looks as natural as ever. Come again, Mr. Stiles.

The Democrat acknowledges the receipt of a beautiful bouquet of choice roses, with many thanks to the fair donors. The Ladies' Coffee Club holds a meeting Tuesday evening next, at which all the members are requested to be present.

Dr. T. L. Golden, of Salem, the celebrated oculist and oculist, together with his family spent a few days in our city last week. Prof. Finney, of the State Agricultural College at Corvallis, addressed the Blue Ribbon Club in this city last Friday evening.

The German picnic next Monday promises to be one of the most pleasant affairs of the kind this season. Every arrangement has been made to render the occasion one of unalloyed festivity, and our German friends fully understand the art of having a good time.

There will be a special meeting of the Common Council on Saturday evening at 8 o'clock for the purpose of considering the Broadbent street sewer matter. This sewer is an improvement greatly needed, and we hope the Council will authorize its immediate construction.

There is probably no grain separator manufactured to-day that can compare in simplicity of construction, durability and efficiency with that made by Daniel Best of this city. It is fast becoming a favorite among our farmers and warehousemen, and is being generally recommended by all who are interested in such matters.

The Corvallis Gazette of last week published an interesting article of both sides of the celebrated Villard-Billings fight. We are in receipt of the brief of Mr. Billings' attorneys, containing the affidavits upon which his case is based, and although too lengthy for publication any of our readers can inspect the same at this office.

The salary of the Chief Engineer of the Albany Fire Department has been reduced from \$300 to \$100. Wouldn't it be a good scheme to take the whole salary away and give the office to the highest bidder? It would bring along amazingly toward getting a poor Chief and running the Department down, and that's just what we need here.

The store of McKinney and Smith, at Turner's Station was robbed one day last week, direct from New York, a large shipment of corsets. All styles and sizes and the best in the market. Mrs. L. J. Powell has just received a splendid invoice of the popular Bazar patterns, also a case of millinery goods, which the ladies should not fail to inspect.

The steamboat takes the wharves on Tuesday and Friday mornings of each week well loaded with freight and are doing a good business this season. Some arrests were made Saturday of parties supposed to be implicated in the Armstrong robbery, but upon examination the parties were discharged.

Most of the eastern letter mail now comes overland, and the arrival of a steamer mail has ceased to be of much of an event as it was during the winter months. Wheat has been moving toward Portland from the upper valley quite lively this week. About 25 cars a day have passed down over the O. and C. R. R.

The O. and C. R. R. has put up a new tramway between the main track and the switch at the depot for the purpose of moving freight from one to the other. By reference to the Council proceedings in another column it will be seen that \$4018.19 of the city taxes have been collected, leaving a delinquent list of \$648.74.

It is thought that a temporary bridge will be built across the south fork of the Santiam, on the line of the Narrow Gauge Railroad, by about the 20th of June. J. E. Sorbin has a large stock of the leading brands of bottled beer. Families supplied at \$2.25 per dozen bottles, or 25c per bottle, delivered to any part of the city.

Saturday last was one of the liveliest days we have had in Albany for some time. The streets were crowded and the business houses seemed to be having a good run of trade. After the 1st of July next Scio will be a money order office, and our subscribers over there can pay for the DEMOCRAT without waiting to make a trip to Albany.

On another matter some time ago Wiley B. Allen has just received a fine lot of new box paper, in fancy boxes, which is just the thing for the ladies. Call and examine it. Messrs. Cherry and Parker, the enterprising iron founders, have put up a neat business sign on the northeast corner of First and Baker streets, near their foundry.

The Old Hancock steamer on the flag pole in the public square has become a mere shred in the breeze, like an honest man's reputation in the hands of the republican party. Don't let the Fourth of July celebration interfere with getting up our Wollen Mill. Why not appoint a committee to interview the farmers and wool-growers on the subject that day?

Without hesitation we cheerfully recommend our readers to use the Best grain separator. We believe it to be the best cleaner made, and it can be easily worked by inexperienced persons. It is a gratifying fact that nearly all the wheat brought to Albany this season has been consumed by our mills here, and the shipments below from this point have been comparatively light.

The Oliver Chilled Plow will run and do good work in dry ground when a steel plow cannot be kept in it. They are just the plow you want for summer following. For sale by Samuel E. Young. Deservingly increasing in popularity Plummer's Ague Remedy is winning its way without special advertising to every point in the valley. He is receiving orders for it daily from all adjacent towns.

L. E. Blain is constantly receiving new goods of all kinds in his line. He is expecting another large shipment by the next steamer, and will be able to show his patrons some bargains when they arrive. Sheet music can be ordered through Foley and Mason, of this city. They allow a liberal discount to music teachers, and by ordering direct from publishers can give better rates and get just what you want.

Saltmarsh and Langton now have for sale the celebrated non-proprietary medicines. They are much cheaper and purer than the patent medicines on sale, and the formula for the various preparations printed on each bottle. Read the advertisement of Peters and Sox in this issue of the Democrat. Among the many competitors now in the field, the Degring Twine Dyer, we predict, will take a leading place and become a favorite among our farmers.

Instead of buying patent medicines and paying a high price for them, go to Saltmarsh and Langton's and get the same preparations put up in what is known as the "non-proprietary" method. These are first-class remedies, and much cheaper than the patent preparations.

A GRAND HARVEST PRIZE Given by the Knights of Pythias at Harbinger's Grove Sunday May 29th. The program will consist of speeches, dancing, swinging, glass ball and rifle shooting, croquet, archery, jumping, foot racing and other athletic sports.

22-A fine brooch to the prettiest lady, by S. E. Young. 23-Year set three pieces, to the most successful competitor, by Phil Cook. 24-The man or boy who carries the grand pole will get a medal for his presentation by Redford and Irving.

25-Pair of baby's white kid shoes, to the best lady walker, by Saltmarsh and Sternberg. 26-Set of gent's cell buttons, by E. M. French, to winner of washboard race. 27-5 to the winner of the ladies foot race for 50 yards, by the Knights of Pythias. 28-Fine silk handkerchief to winner of boy's foot race.

Music will be furnished by the Ladia Cornet Band and the Magic Spell Orchestra. Resolutions can be had on the grounds of Hoffman and Joseph. A large platform will be erected for dancing. Arrangements have been made with the O. and C. R. R. for half rates between Harbinger and Albany. No intoxicating liquors will be allowed on the grounds.

All are invited to come with baskets well filled, and let us have one day devoted to pleasure and merriment. GEO. W. BELL, W. R. BLYNNE, E. J. LANSING, H. J. CHARR, J. W. OSWELL, Com., of Arrangements.

The Walter A. Wood Still Ahead. See what the President of the 14th County Council says of the Wood still during its run. ALBANY, April 26, 1881. Geo. F. Simpson: Sir-Having used W.A. Wood's Harvester in the harvest of 1880 found it a machine of very light draught. It was well adapted for three horses, but I thought two could have done the work with ease. The harrow was complete, the handles were of uniform size, and the amount of twine used was about one pound per acre in wheat that averaged 55 bushels per acre. I was well pleased with the machine, and have ordered one for my own use. G. E. CRAWFORD.

Also read this from a prominent farmer of Center Precinct: ALBANY, Aug. 25. Messrs. Frank Bros., Portland, Ore. (GENTLEMEN)-I cut 7 1/2 acres of grain with your Wood Twine Binder this season, and for the Harvester I believe it to be the best made, and for the Binder it is a perfect good thing. It gives trouble, and does good binding. The amount of twine used was 52 1/2 pounds, which made the cost 22 cents per acre, while the use of the straw grain costs 30 cents per acre. Yours truly, JOHN UMPHREY.

Mr. J. G. Crawford, of Harbinger, made us a pleasant call last week. Mr. Crawford is building up a reputation as one of the best photographers on the Northwest coast. He makes a specialty of stereoscopic views, and has a fine collection of views representing the magnificent scenery of the Columbia River, Yaquina Bay and vicinity, as well as various other parts of Oregon and the Northwest. Mr. Crawford has made his business a thorough study, and these views are executed in a very superior manner. Any of our readers who have friends in the East could add to their collection of giving them an idea of Oregon scenery than by sending them some of Mr. Crawford's views. He publishes a neat little catalogue, which will be sent free to any address.

All kinds of Lumber. We have for sale, both at Lebanon and Grass Ridge, 300,000 feet of all kinds of lumber, such as scantling, joists, barn timbers, boxing, fencing, and other rough lumber. At Lebanon we have a superior lot of dry lumber, such as rustic, flooring, etc. Owing to the late fire, we are offering this lumber at reduced rates. Address us at Lebanon. CONN BROTHERS, Lebanon, Or., July 31, 1880. Notice. We have on hand a considerable number of the New Year's issue of the DEMOCRAT, containing description of Albany, and parties desiring to send them east to friends can obtain them at this office free of charge. STEWART & GREY.

Samuel E. Young, Importer and Dealer in Farming Implements, Of Every Known Description, ALBANY, OREGON.

The McCormick HARVESTER AND TWINE BINDER. The second change of importance in the Reel, which can be made winding or straight, and can NOW be thrown backward and forward, and tip and down, to any point necessary for the mowing of any kind of grain, or bringing it upon the platform in proper shape. A spring is also provided for the driver's seat. The main drive wheel is of IRON, with wrought iron spokes and rim, light and strong, and by far the best iron wheel ever put on a harvester. The grain wheel is iron, with a removable hub, which can be replaced at a small expense.

We will guarantee it to be in every respect a thorough working and working machine, and one which has no superior in the market. Advantages of Twine over Wire. It is CHEAPER, averaging at least one-third less cost with this Binder. Those machines that rely upon putting tying apparatus for twine in place of binding apparatus for wire, are at the disadvantage of having to rely upon the strength of the string for compression of the grain, and must necessarily use large, strong string, that measures little to the pound. With this Binder we can use string of good length, and thus economize expense. It is unobjectionable in threshing, will not interfere with the use of straw for feeding cattle, and will not dull the cutting knives when cut for feed. It is free from all those objections, real or imaginary, that have been urged against the use of wire.

I have on hand sizes as follows: 6-foot cut, with Twine Binder Attachment. 7-foot cut, with Twine Binder Attachment. Binding Twine. The twine used on the McCormick Binder is made from the best quality of Manilla, and measures from 750 to 780 feet in the round against the use of wire. 30 binding wire measures 344 feet.

YOU WANT TO SEE

The Deering TWINE BINDER AT THE Hardware Store. OF PETERS & SOX.

Printer's Ink is not required to make a reputation. This is the verdict from MINNESOTA, ILLINOIS, DAKOTA, KANSAS, IOWA, AND OTHER STATES.

RAMSEY.-At the residence of her nephew, R. H. Ramsey, on Sabbath, May 8th, Mrs. Maria Ramsey, aged 73 years and 6 months.
