

STEWART & GREY, Editors and Proprietors.

O. & C. R. R. TIME TABLE, Albany Station.

Table with 2 columns: DEPARTMENT OF TRAINS, and 2 columns of train schedules including Albany Express, Freight, and Mail trains.

All Trains daily, except Sunday. Notice—On and after this date regular tickets will be sold at our ticket office...

THIS PAPER may be found on file at the Albany Democrat, Albany, N. Y.

HOME AND ABROAD.

Warm weather. Wool, 28¢ cents. Crops looking fine. F. M. French, jeweler. Advertisers in the Democrat.

Local items near this week. Come to Albany and celebrate. Always read the advertisements. Printers picnic in Salem to-day.

What has become of the school-site question? The place to get a choice steak is at Dave Horlacher's. The Oliver Chilled Plow is the best plow for dry ground.

Travel over the O. and C. R. R. is constantly increasing. We understand the new sewer is to be completed by August 1st. Renters are beginning to look about for good farms for next year.

Redfield and Irving have the best and cheapest syrup in the city. Hoffman and Joseph carry a large stock of canned goods of all kinds. School children are thoroughly enjoying their vacation this pleasant weather.

The DE MOCRAT is better than the best advertising medium in Luz County. An elegant lot of fine parades, received this week at Monticelli and Seitenbach's. Dunbar's shoes are all the rage at Samuel E. Young's fit, style, and quality guaranteed.

We hear that the Lebanon authorities are trying to buy a hand fire engine at Astoria. Geo. Taylor living up near Lebanon, is running fine wood to the canal this week. Dr. G. Willis Price, dentist, office in Old Fellow's Temple, over Plummer Drug Store.

Several pleasant residences about the city for sale and to rent. Call on Stewart and Grey. Cord and towels the finest variety ever shown in this city at Monticelli and Seitenbach's. Remember the Women's hall at the Pacific Opera House on the evening of the Fourth.

Look out for Mady's ad. next week. He proposes to set up a Fourth of July dinner worth having. We publish this week ordinance No. 105, to prevent minors from wandering about the streets after 9 p. m. A comet can be seen in the heavens now about one o'clock at night. It is located a little east of north. Last Monday Samuel E. Young received two car loads of McCormick binders and one hundred boxes of wire. Grapes are in bloom, and now is the time to prevent mildew by powdering all the blooms with sulphur. Conrad Meyer at the Star Bakery keeps constantly on hand fresh baked pie, cakes, cookies and bread. If you want to find a good reaper for your farm next season leave a description of it with Stewart and Grey. W. C. Tweedle is the sole agent for the celebrated Medallion Range and St. Louis Charter Oak Cook Stove. The program for the Fourth of July will be published next week. It promises to be a very attractive one. The finest currents in the city, at Redfield and Irving's, and for sale by the pint, gallon or bushel in quantities to suit. You can get the best five cent cigar in the city at Hoffman's and Joseph's and they are out of "New York" cigar either. W. C. Tweedle is the place to go for your tin copper, and sheet-iron work. The best goods and at low prices. The Methodist camp meeting near Sheild station went into operation yesterday. It promises to be very successful. Read what our wheat men have to say about the coming crop and prices in another column of this week's Democrat. J. E. Sorlin, has the choicest brands of wines, liquors and cigars constantly on hand. Bottled Beer and Imported Ginger Ale. Look out for our grand illumination on the public square on the evening of the Fourth. Something new in the way of fireworks. Work on the Brooklyn street sewer was commenced yesterday and will be pushed forward to completion as fast as possible. A day or two since a stranger in the city asked to be shown the new woolen mill. He thinks there is no doubt of their success. Considerable grading and improvements are going on about the city. Ferry and Water streets are being put in good shape. Mr. Trow's have a new steamer which will float from their pier-staff in future on days when there are meetings of the company. Dr. Horlacher keeps constantly on hand a fine assortment of fresh and salt meats of all kinds. When you want something nice call on Dave.

One of the largest stocks of general merchandise in the county, and all at reasonable prices, at C. B. Montague's General Store, Lebanon. Call on C. B. Montague when in Lebanon. He will convince you that his stock is as large and prices as low as any merchant in the county can offer. C. B. Montague, of Lebanon, never complains of dull times. The reason is that his goods and prices all give satisfaction, and his customers come again. Peters and Sox received 3000 lbs of wheat or this morning last Monday, and on the same day they also received one and a half car loads of blunders. Hoffman and Joseph will have a first-class stand at the Grove on the Fourth. They stand to put everything up in good shape and know just how to do it. Monticelli and Seitenbach have reduced the price on Ladies summer sacks from \$10 to \$7, and are offering some extra bargains this week. Call and examine them. Daniel West's establishment at the foot of Lyon street is one of the busiest places in the city. They are turning out a large number of his improved separators this season. The Albany Farmers Co. received all their wheat in this city and at Tangent, the past season 195,000 bushels of wheat and have now on storage about 35,000 bushels. We shall publish next week full lists of committees, programme, prices, etc. for the coming celebration. Every effort is being made and there is no doubt of a grand success. Graf and Fromm are among our most enterprising concerns, and are manufacturing everything new in the furniture line. For good goods and low prices go to Graf and Fromm. The first of July ends the current storage year at the Albany Farmers Co. Warehouse. After that date 3 cents storage additional will be charged on wheat stored there last season. Levi West was thrown from a horse last Sabbath evening and had the large bone of his right leg broken about midway between knee and ankle. Drs Kelly and Harris set the bone. C. W. Osborne proposed to have on hand for the Fourth the largest stock of choice French candies ever brought to the city. Do not fail to give him a call when in need of fine candies. As will be seen by our Gervais correspondence the twin binder trial which took place there last Tuesday was a success. The machines sold were, Deering 11, Osborne 19, and Woods 3. If you want to sell your farm leave a description of it with Stewart and Grey and have it advertised in the DEMOCRAT and "Oregon Colonist." No charges unless a sale is effected. Remember that Wm. L. Watkins pays the highest market price in cash for furs and hides, wool, chickens, eggs and all kinds of produce. He does not ask you to take trade—everything in cash. It would be well enough to remember that fires occur sometimes and the best way to insure a good policy of insurance in one of the staunch companies represented by Stewart & Grey. The Oliver Chilled Plow will run and do good work in dry ground when a steel plow cannot be kept in. They are just the plow you want for summer fallowing. For sale by Samuel E. Young. We are requested to say to all parties who wish to join the ranks of the Hornsblower who will visit this city on July 4th, that they can make arrangements by reporting at once to Ala Harris. The steamer "A. A. McCully" passed down the river Monday morning last. She will now make regular trips as long as the water is high enough, leaving Portland every Sunday and Wednesday. Many rumors have been current the past week in regard to the Yaquina Bay R. R. As far as we can learn everything seems to be favorable and work is to be commenced on the road very soon. The Register office was sold for debt yesterday, and its proprietor, Mr. Van Cleave, bought it in for \$200. He will start up the paper again, probably next week, and we wish him success. The Skidgate lubricating oil, made of slack's livers is for sale at C. A. Plummer and Co's, and at all lubricating purposes, farm machinery etc. it is said to be the best and cheapest oil in the market. A. Pearce, our ferryman, sent us in some fine flax this week that measures 4 feet in length, and Jas. Thompson sends in another specimen of the same length and says he can show at least four foot acres like it. Some fiend in human shape struck Mike Covans cow on the hip with an ax last week sinking the blade in several inches deep. Any one guilty of such an act ought to have full benefit of an old-fashioned whipping post. No family should be without a supply of that 12 year old whiskey at Sorlin's, for medicinal purposes. It is the old established brand of Jesse Moore, and the purest and best whiskey ever manufactured. Try some of it. A ramor was current some days ago that Portland intended running a free train over the O. and C. R. R. to that city on the coming Fourth. After diligent inquiry we could find no foundation for the rumor and believe it to be groundless. Black cashmere, all wool and 33 inches wide, only 50 cents per yard, worth 75 cents. A fine silk finish blue black cashmere, 37 inches wide, 75 cents per yard, worth \$1.00 at the popular dry goods house of J. E. D. Wrinkle and Co. One of the principal attractions in Lebanon is the large and well stocked establishment of C. B. Montague. Mr. Montague is building up a fine trade, and certainly deserves it. He sells goods at reasonable prices, and carries a fine assortment. Censuring may be losing votes in the New York legislature and is probably sorry he ever resigned. Our friend Ed. Bellanger, of the Star Brewery, however, is still gaining ground and reports the Star Brewery beer as growing more and more popular as it becomes better known. Salfurash and Langdon, are prepared to furnish the farmers with lubricating oils, for farm machinery at low prices. They have just received a very large stock of motor and lamp oils. Call and see them and get their prices before buying inferior grades of oil. Mr. O. P. Tompkins, of Harrisburg, has decided to make a change in his business on account of poor health. Until further notice he will sell all goods in his line, stoves, hardware, copperware etc., at bed-rock prices. Give him a call and secure some of the bargains he is offering. Bring in your Fourth of July advertisements for next week's DEMOCRAT. We have a very interesting communication from Yaquina Bay, descriptive of that place, and the adjoining country and shall issue a large supplement. Over 300 extra copies of the issue have already been ordered. Conrad Meyers is putting in a fine new mill which will greatly improve the appearance of his farm. It will be of the same style as the one in the Foster brick and the Senlers and Stern building. Mr. Meyers

A. D. McVain carries an immense stock of clothing and boots and shoes, and is offering goods at 25 per cent less than any other house in the city. You can buy a first class outfit for very little money by giving him a call. The cheapest store in the city. Mr. Jeff. Creel who lives about four miles north of this place brought us in a sample of wheat last week which measured about the roots, 6 feet and 2 inches. He has a piece of 23 acres which he says will average 50 feet in height. The heads are large and well filled out. The same piece was under water two days during the flood last January. Messrs. Roberts & Dubrule the popular harness makers of this city have brought on one of the largest and finest stocks of buggy harness ever offered in Albany. They propose to sell them at prices which will justify everybody in want of a harness to call on them and purchase. A large stock of harness and saddlery goods constantly on hand. Look here at some of the prices for which you can buy goods at the New Dry Goods House of J. P. D. Wrinkle and Co. 11 yards unbleached muslin, \$1.00. 10 yards best white muslin \$1.00. 17 yards best American print called \$1.00. 10 yards linen crash toweling \$1.00. 12 yards Canton flannel \$1.00. Mr. Levi Davies of Forestville Cal, was in the city Wednesday last, on his way to Jefferson. He is the proprietor of the celebrated carp fish ponds at Forestville, and as his shipments to this state are rapidly increasing he has come here with a view of establishing a branch breeding pond somewhere in the state. He will visit the state fair at Salem, and parties who are interested in carp culture can see him there. Messrs. Humphrey and Devine have about completed their new ferry boat and will launch it this week. They have fitted up the old Price and Nickerson mill at the mouth of McDowell creek on the Santiam and are turning out some first class lumber. They have on hand about 7000 feet of well seasoned lumber now and are prepared to fill orders. The new ferry will be a great convenience to parties living in that section. Two prizes will be offered for contesting distances on the Fourth. One of \$10 to the best engine throwing a stream the greatest distance, and \$25 to any engine Co. which will start at a given point, run 400 yards, set and throw a stream 100 feet in the shortest time. Both these contests are open to all, the latter to steamers also. No entrance fee will be charged, and it is expected the contests will be very interesting.

Exhibition of Twelve Binders. GERVAIN, Or., June 24th. GENTLEMEN:—Yesterday, June 20, a very interesting exhibition of twelve binders took place in a field of barley, on the farm of Mr. Young, near this place, in which the Woods, McCormack, Osborne and Deering binders participated. It was witnessed by a large number of farmers from various portions of the State, a great many of whom attended with a view of purchasing. There was no committee appointed nor prizes awarded, but each was the judge for himself, and the general impression seemed to be that the machines all did their work exceedingly well, and the best of feeling prevailed throughout. At noon a bountiful repast was served by Mr. Young and his estimable lady, to which all did ample justice, especially our correspondent. After dinner the balance of the standing grain was cut and bound, and then the "inside" of the different machines were explained by their respective operators, and the crowd quietly dispersed. I am credibly informed the following sales were made: a direct result of the exhibition: Deering 11; Osborne, 19; Woods, 3. More anon. SPECTATOR. A. O. F. W.

A telegram to a gentleman in Portland, received only a few days ago, states that the Supreme Lodge, then in session at Detroit, Michigan, have resolved to take the square and compass from the emblems of the Order, and substitute therefor the anchor and the shield. This is a change that will meet with general approval. The Supreme Lodge has voted to hold its next annual session at Cincinnati, Ohio. Dr. M. O. Fish, of Oakland, California, has been elected Supreme Foreman. This was the first time the new Supreme Master Workman will be a Pacific Coast man. Death assessments No. 7 and 8 are now due, and also the first assessment for the new district, which will put \$2000 in the treasury to be paid out on the first death of a member. Dam Across the Santiam. While up at the Grange Picnic at Lebanon on the 8th, in company with Mr. John A. Crawford, Jas. H. Foster and others we went up to the head of the canal, which is the source of Albany's continued prosperity. The flooded last winter had almost completely washed out the old dam across the Santiam, which forced the water into the canal. A few days before we were there Mr. Crawford had completed a new dam which looks to us as if it would stand for an age. No one has a word of the trouble and expense this canal is to the proprietor unless they take a trip up to its source. And take it away from this place to Springfield has commenced. We understand that they are going to push the road through as rapidly as possible. About two hundred claimants and 30 scraper teams are at work. Our town is full of strangers. Almost every room at the hotel is full. We are glad to say that the future for Browns' is bright. The young people gave a ball here on the 21st, which was a grand success. People were here from Albany, Harrisburg, Junction, Halsey and Lebanon. Music was furnished by the string band from Harrisburg and Junction. Everything passed off very quietly, and all seemed to have a good time. Campbell's Computing commenced work on the 1st inst. Quite a number of us are having a fine rain that will revive the grass considerably. James Ekins arrived in this county a week or so ago, looking after his stock on Beaver creek. N. K. Pries, and J. A. McEvedy who started from the valley with young cattle arrived last week. The Brownsville Woolen Mills pay the highest market price for wool. Stars and Blakesley have just received a large stock of fancy goods and now have everything usually found in a first class drug store. Last Saturday J. N. Smith, who lives a short distance below Plover, went over to the picnic near Halsey, taking his entire family with him. During their absence some one effected an entrance through the window of his house, and ransacked the whole. Mr. Smith had received some money here in Albany a few days before and the burglar was evidently searching for it; falling to get it he took about \$1400 in notes, which will be of no use to him. At Yaquina Bay. A letter received in this city from Yaquina Bay a few days ago says that the light-house tender, "Schnubrick," came into the Bay on the 15th. The first crib on the harbor work was floated to its place and sunk on the 13th inst. It was a small one, and will simply be used as an anchor. Work will from this time on progress lively.

WILLIE RICE, the popular agent of the O. & C. R. R. at this place engaged the services of a special artist to "do" the city and vicinity, and the result of his labors are now on exhibition at the Depot Hotel. Mr. and Mrs. A. Farlow, of Miller's Station, paid us a friendly visit last Monday, and took another \$1.00 worth of the Democrat. We would like to have several others and such subscribers as Mr. Farlow. Our old friend, J. M. Coon, of Carver Valley, Douglas county, in view of sliding his relatives in this county. He called on us last Thursday and paid up for the Democrat. My good luck attend him. Last Wednesday a wagon load of young fellows left this city in charge of "Bullet" to make the ascent of Mary's Peak. The following persons answered to roll call: Prof. Matton, Geo. Foster, George Fish, Thomas Overman and Arthur Gray. James A. Yreath, Esq., of Corvallis, one of the editors of the Gazette of that place made us a pleasant call Wednesday last. He says railroad matters are looking hopeful and there are every body is jubilant over the prospects of a speedy railroad connection with the Bay. Strange things will occur in this world. Here we have been trying, and thought we had succeeded in getting all the news that could be had in this city, but we failed at least in one instance. A fine great big boy made his appearance at the residence of Ed. Zayas, on the 6th inst., and seems inclined to stay there. Exhibition of Twelve Binders. GERVAIN, Or., June 24th. GENTLEMEN:—Yesterday, June 20, a very interesting exhibition of twelve binders took place in a field of barley, on the farm of Mr. Young, near this place, in which the Woods, McCormack, Osborne and Deering binders participated. I am credibly informed the following sales were made: a direct result of the exhibition: Deering 11; Osborne, 19; Woods, 3. More anon. SPECTATOR. A. O. F. W.

W. W. Francis, of Halsey, is gradually coming to his health after the attack of Dr. Smith. He is no doubt a case of mental derangement. Spring rains in this vicinity is coming so rapidly, that but few of the late rains would have proved a total failure now producing a fine yield and farmers were waiting for the prospect. R. R. Woodbury, of this place, an old and respected citizen is lying very ill at his residence with some difficulty of the stomach; he has not eaten any thing for several days and is getting very low. The picnic at Halsey on Saturday last was largely attended; the exercises passed off in a quiet and orderly manner. CAUTION. CROOKED WHEEL NEWS. CAUTION. WAGON CO., ORG. JUNE 23, 1881. Editor Democrat: Noticing in your paper, that you have had no items from this section of the country, I thought a few words not be amiss and be of interest to your many readers. Horses and cattle are in excellent order and best cattle are in fine condition, this summer. The calf crop is said to be very good. Scarcely any stock died in this country, last winter being a fine winter, no stock needing food except a few old cows. Grass has been good this Spring, and now we are having a fine rain that will revive the grass considerably. James Ekins arrived in this county a week or so ago, looking after his stock on Beaver creek. N. K. Pries, and J. A. McEvedy who started from the valley with young cattle arrived last week. James Ekins arrived in this county a week or so ago, looking after his stock on Beaver creek. N. K. Pries, and J. A. McEvedy who started from the valley with young cattle arrived last week. The Brownsville Woolen Mills pay the highest market price for wool. Stars and Blakesley have just received a large stock of fancy goods and now have everything usually found in a first class drug store. Last Saturday J. N. Smith, who lives a short distance below Plover, went over to the picnic near Halsey, taking his entire family with him. During their absence some one effected an entrance through the window of his house, and ransacked the whole. Mr. Smith had received some money here in Albany a few days before and the burglar was evidently searching for it; falling to get it he took about \$1400 in notes, which will be of no use to him. At Yaquina Bay. A letter received in this city from Yaquina Bay a few days ago says that the light-house tender, "Schnubrick," came into the Bay on the 15th. The first crib on the harbor work was floated to its place and sunk on the 13th inst. It was a small one, and will simply be used as an anchor. Work will from this time on progress lively.

W. W. Francis, of Halsey, is gradually coming to his health after the attack of Dr. Smith. He is no doubt a case of mental derangement. Spring rains in this vicinity is coming so rapidly, that but few of the late rains would have proved a total failure now producing a fine yield and farmers were waiting for the prospect. R. R. Woodbury, of this place, an old and respected citizen is lying very ill at his residence with some difficulty of the stomach; he has not eaten any thing for several days and is getting very low. The picnic at Halsey on Saturday last was largely attended; the exercises passed off in a quiet and orderly manner. CAUTION. CROOKED WHEEL NEWS. CAUTION. WAGON CO., ORG. JUNE 23, 1881. Editor Democrat: Noticing in your paper, that you have had no items from this section of the country, I thought a few words not be amiss and be of interest to your many readers. Horses and cattle are in excellent order and best cattle are in fine condition, this summer. The calf crop is said to be very good. Scarcely any stock died in this country, last winter being a fine winter, no stock needing food except a few old cows. Grass has been good this Spring, and now we are having a fine rain that will revive the grass considerably.
