Low prices are inducements to try some of

the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

So after the day of Pentecost the Apostles begin to preach and baptize, and their converts continue steadfast in the Apostolic destrine, Our dear Saviour however left such a complete system of teaching that no new duties could be added; but when any explanation of His meaning was wanted they expounded it, and their explanations were everywhere accepted. Besides this they decreed whatever was necessary towards the peace of the Church, or the order or decency of divisa worship. We should only expect incidental reference to this in the history of the Acts because there was no question as to their authority. and most of the troubles in the Churches were not of sufficient important to call for general notice.
