

The Springfield Republican has discovered a Leadville church in which is conspicuously displayed the legend: "Please do not shoot at the organist; he does his best."

While Geo Wm Curtis is apparently making a great splutter about Civil Service Reform, "and a' that," it is said that he is one of the contributors to the Hubbell corruption fund.

The Boston Post expresses the opinion, that Keifer, who started out so boldly for the position of great American nuisance, seems to be completely distanced. Old man Hubbell got ahead of him, and came to the front as the meanest man in Congress.

Another colored adlet has been appointed to West Point. This time the candidate for military renova hails from Florida. It is to be hoped that his career at the mill that grinds out soldiers will be more brilliant than that of his colored predecessors, Flipper and Whitaker.

The Khedive declares Arabi Pasha a rebel, Arabi in turn calls the Khedive a fool, whilst His Majesty, the Sultan, sitting off at a safe distance, playfully intimates that possibly Arabi is a rebel, but insists that the English are barbarians. And so the matter stands.

The Boston Post says, that Attorney General Brewster dates his opinions "The Department of Justice." This heads-I-win-tails-you-lose policy may be just, but we have got to get used to the idea before we can acknowledge it.

SENATOR LOGAN did not succeed in having Gen. Grant placed on the retired list. It seems to be the opinion of Black John, that he who does the most for Ulysses S. Grant, serves his country best. Inasmuch as he has again failed in his efforts to do something for Grant, he had better begin now to pave the way for his pretermit in 1884. His perseverance may yet conquer the will of the whole people.

JAY A. HUBBELL has announced himself a candidate for the United States Senate to succeed Mr. Ferry when his term expires. Hubbell has an extensive reputation as an author of great renown. Few men have been so fortunate as he. One work has brought him renown as well as millions of money. He is the author of the assessment circular. The people of Michigan have too much sense to send such a man to represent them in the Senate. His great reputation backed by the millions that he has extorted from one armed veteran and the widows and orphans of deserving soldiers ought to, and doubtless will, fail to procure him the coveted position.

JUDGE LAWRIE of Salem, Ohio, in a letter, recently declining to be a candidate for congressional honors, made use of the following language: "The contest so far has settled the fact that no man can go to Congress from this district without a free and lavish use of money, and as I have neither "bar" to open, nor disposition to do so, I feel it useless to further prolong the contest so far as I am concerned. Money and official patronage will boss this district until Republicans wake up to a true knowledge of their lawful influence." This too, from one who hails from Ohio, the mother of Presidents. If the Judge happened to be in this State, and a candidate for Congress on the same ticket he now declines to run on, he would not need a "bar" as the great corporation would open up its loghead and give him a lift.

A youthful reader of the New York Sun, wrote to the editor of that paper, asking how he should vote in the future—whether with the Greenbackers, the Socialists or the Anti-Monopolists; he has tried the republican party, but is tired of its methods. The editor of the Sun answers the question at some length and closes as follows: But there are two rules of action that belong peculiarly to the present time which we commend to the consideration of our correspondent:

1. The Republican party ought to be turned out of power. It has been in power so long, its corruption has become so intense and all-pervading, and the perpetual tenure of power by any party is so dangerous to the republic, that it is of the first importance that it should be turned out.

2. Never vote for a thief. Always prefer an honest Democrat to a stealing Republican, or an honest Anti-Monopolist to a stealing Democrat.

But, above all, learn the principles that underlie parties and animate policies; and when you have learned, choose; and then stand by your convictions. The advice is good and should be followed. Too many of the young men of the country vote with one or the other of the two political parties, not because they understand the principles of either, but because their fathers favored that party. If the young men now growing up, would follow the advice of the Sun, and learn the principles that underlie parties and animate policies, it would not be long until corrupt methods, bossism and the like, would become things of the past, and in a few years there would not be found one who would be willing to admit that he had ever been anything but a hard-rock Democrat.

WHAT HAS IT DONE.

Congress has adjourned at last, after having continued in session nearly two months longer than the usual period, and for a longer time than any session since the war. It might not be out of place then, to ask, what has it done—what great measures have been passed to make the forty seventh Congress go sounding down the ages as greater than all the forty-six that have preceded it. Certainly one would naturally expect some good as the result of such a prolonged session. Such is not the case however. The Congress just adjourned has confined itself to wasting its time in political discussions, and in the extravagant waste of the public money.

The Democrats left \$150,000,000 in the Treasury when the Republicans acquired control of the Senate and House, thereby demonstrating that more revenue was being raised than was necessary to meet the expenses of the government, and that the time had arrived for reducing the burdens of the people. Has any relief been granted by Congress to the taxpayers of the country? No. The Republicans have been making raids upon the public treasury from the time they obtained control of Congress. The appropriations ending in June 1882 exceed those for the year ending in June 1881 by \$78,000,000. Instead of expending the public money for public purposes, matters of common and general importance are neglected, and our heroic lawgivers seek to display their generosity and patriotism by extravagant and unconstitutional expenditures for local popularity and party purposes.

When a Democratic Congress appropriated \$375,000 for building and repairing the national defenses, it was charged with plotting to destroy the government by failure to appropriate sufficient to keep up the needed repairs on the public works. But right on the heels of that comes a Republican Congress, and for the same purpose, only appropriates the small sum of \$380,000, whilst for the improvement of rivers and harbors, many of them unknown to commerce, the appropriations are increased more than \$7,000,000 over the amount appropriated last year by a Democratic Congress. And so with the pension bill, which in one short year has increased from \$68,000,000 to \$100,000,000. Instead of reducing taxation and relieving the taxpayers from the necessity of paying yearly into the treasury, one hundred and fifty millions of dollars more than is necessary to defray the expenses of government, the Republican Congress with Robeson and Keifer and Hubbell in the lead, devoted its time and talents to making raids upon the treasury for party purposes. Absolutely nothing has been done to relieve the people. Nor is the extravagance of Congress the only charge that can be brought against it. When it began, the Democrats had a majority of one in the House and two in the Senate. When Congress adjourned the Republicans had a majority of two in the Senate and five in the House. And this change has been brought about, not as the result of any popular election, but by first buying the votes of Mahone by throwing him a chunk of official patronage, and that of Davis of Illinois, by dropping him a look, baited with the prospect of being President of the Senate. By such means, a Republican majority was obtained in the Senate, whilst in the House six honestly elected Democrats have been counted out by force and fraud, and by the use in some cases of evidence that was known to be forged. Precedents have been set by Speaker Keifer in his rulings, unknown here before to parliamentary usage, and in direct conflict with former rules of the House, and he has long since convinced the people of the country that his sole aim and object has been to further the ends of the corruptionists.

The time has come for the taxpayers of the country to place a check upon congressional extravagance and corruption. So long as Hubbell, by his system of enforced assessments, is able to purchase seats in Congress for creatures of his own kind, just so long will the voice of the people be disregarded, and corruption and extravagance mark the progress of legislation in Washington.

The Northern Pacific railroad has completed two additional sections of its road. One is in Idaho and the other in Montana. The two sections cover about 140 miles. Ex-Senator Conkling, counsel for the Northern Pacific, called at the department of the Interior on the 14th, on business in relation to examination of the completed sections.

A Star special from Magdalena, Sonora, of the 12th, says: The track of the Sonora railroad is now laid three miles north of that point and graders are far in advance of track-layers. The gap between the Arizona and Sonora divisions is 70 miles, with grading complete.

The hop crop of the United States indicates a small rate of yield. About 365 pounds per acre on over 30,000 acres of the State now slightly exceeds 40,000 acres. Indications point to a product of not more than 93,000 bales.

It is stated that Archbishop Nestor of the Russian church at Alaska, committed suicide on the passage to San Francisco by jumping overboard.

THE NORTHERN RAILROADS.

The San Francisco Bulletin is beginning to speculate, as well it may, upon the probable effect the Northern Pacific Railroad will have, when completed, upon San Francisco. Whilst the Bulletin admits its inability to calculate closely the effect this road will have, it ventures to outline the probable result, and says: "When it is in operation goods that we now import from the East and send to the Northern country will be transported along the new route. If there is any considerable trade of that character it will leave us. But the Northern Pacific will not take from us any trade which belongs legitimately to us. Neither New York, nor Boston nor Philadelphia can compete with San Francisco in Oregon, provided we turn out as good an article as they do. Statistics show that we are manufacturing in this city, with a few exceptions, everything that is made in Eastern cities." What the Bulletin has to say is true in the abstract, but it might with propriety have gone a little further. It may be true at present that neither New York, nor Boston, nor Philadelphia can compete with San Francisco in Oregon, but it is only because of the high rates charged for freightage over the Central and Union Pacific. On account of the enormous charges of these roads, the people of Oregon are compelled to purchase many goods manufactured in San Francisco that could be purchased at much lower figures in the Eastern market. This state of affairs will not always exist with competing lines of railway stretching across the continent. The San Francisco manufacturers will not only be compelled to turn out as good articles as similar establishments in the East will turn out, but they must also drop down to, or a little below Eastern prices with cost of carriage added. Unless they do, the Bulletin may find that Oregon will not always be entirely dependent upon San Francisco.

The building and competition of the Northern Pacific and the Oregon Short Line will undoubtedly have one very serious effect upon California. By opening up a market for Oregon fruit, wheat, wool and a great many other products and commodities, direct with Eastern consumers, the California fruit-growers farmers and speculators will be deprived of the pleasure of labeling Oregon products as California. The occupation of many an Othello will be gone, and Oregon, instead of California will be credited with her own productions. The Courthouse of Randolph county, Mo., burned to the ground on the 13th inst. The fire was caused by a cigar. Some records were saved. Loss about \$50,000.

Westgate, the self-confessed murderer of Lord Frederick Cavendish and Burke, arrived at Jamaica a few days since on his way to England. Evidence implicating him is said to be strong.

Arabi Pasha's troops, a great force have taken up positions immediately threatening the Suez Canal. The English admiral has occupied the front works, and he will not allow any interference from De Lesseps.

A slight skirmish occurred on Sunday last, between a party of sailors from the gunboat, Condor, and some Arabs, beyond Fort Meks. Several of the latter were killed.

A case of typhoid fever in one of the hotels at Long Branch, created a panic amongst the guests, and the landlord demanded \$5000 from the friends of the sick man for permitting him to stay a few days longer in the hotel.

The Labor Union in New York adopted resolutions denouncing the British Government for arresting Henry George, the journalist, for fearlessly discharging his duty as such, and calling upon this government to demand reparation for the insult thus offered to an American citizen.

A colored man and white woman have been living together in Detroit as husband and wife, notwithstanding the statute forbidding miscegenation. They have just been arrested for lewd cohabitation. The case will likely go to the Supreme Court, as there are hundreds of other similar cases in the State.

GENERAL NEWS.

The Khedive has formed a new ministry. Gen. Ignatieff has been arrested and conveyed to St. Petersburg. Four degraded women poisoned themselves recently at Des Moines. Official returns of the census of France show a population of 37,672,048.

A construction train jumped the track near St. Paul, injuring 34 workmen. Erastus Bond has been appointed government timber agent for California.

The Germans are inaugurating an emigration scheme to South Africa. Another American citizen has been arrested in Ireland for being an "Irish agitator."

Five complete railway trains have been purchased in London for use in Egypt. The postal authorities of the U. S. and Britain are in a muddle about postal matters.

The native Japanese newspapers are indignant over Commodore Shufeldt's treaty with Corea. Judge Wm. Schley, of New York, and Judge Wm. M. Levy, of Louisiana, died this week at Saratoga.

A dispatch from Tangier states that a holy war is being preached throughout Morocco against Christians. A portion of the Land League denounced the action of the Philadelphia League sympathizing with Arabi Bey.

Footings of the school census showed the population of Chicago, not including sailors, at 562,000, and including sailors, nearly 575,000. The remains of Miss Fannie Parnell are to be interred in Ireland. There will probably be a great demonstration at the funeral.

Postmasters appointed—Mrs. Catharine Jones, Beaver, Clarkstown county, Oregon; J. B. Pardy, Parry, Umatilla county, Oregon.

Postoffices established—Dekins, Jackson county, Oregon, Henry P. Dekins postmaster; Hill, Lane county, Oregon, John H. Hill postmaster.

Oregon stocks sold in New York on the 11th inst. as follows: O. R. & N., 15 1/4; Transcontinental, 9 1/4; Northern Pacific, common, 5 1/4, preferred, 9 1/4; Oregon Improvement Co. 8 1/4.

An attempt is to be made to cultivate oysters in Salt Lake, Utah, and Fish Commissioner E. G. Blackford has just received an order for 6000 seedling oysters for experiment.

LEBANON NOTE.

There are a number of persons out of employment in every country, yet an energetic man will find work if he is willing to do it. Those willing to work can make from \$100 to \$500 a month's work, working for us in a pleasant and permanent business. The amount our agents make varies, some making as high as \$500 a month, while others do not make so much. It depends on the energy of the agent. We have an article of great merit. It should be sold to every House owner, and pays over 100 per cent profit. Each sale is from \$25.50 to \$10.00. No agent in Pennsylvania sold 32 in two days, and cleared \$41.00. An agent in New York sold 100 in one day. Any man with energy enough to work a full day, and will do this during the year can make from \$2,000 to \$5,000 a year. We only want one man in each county, and to him will give the exclusive sale as long as he continues to work faithfully for us. There is no competition, and nothing like our invention made. Parties having from \$200 to \$1,000 invested, can obtain a General Agency for ten counties or a state. Any one can make an investment of from \$25 to \$100 without the least risk of loss, as we invest in the most profitable business. We send \$25.00 after a 30 days trial return, the goods unsold to us and get their money refunded only to the extent of \$10.00. They show that a General Agent who will take ten counties and invest \$25.00 can make \$1,000 a month. We will send you our terms if they fall to clear at least \$750.00 in seven days. We will pay you \$100.00 for every \$1,000.00 you sell. We will not work on any. Those missing business will receive our large descriptive circular, and extraordinary offer by enclosing a three cent stamp with their address. The first to comply with our terms will secure the county or counties they may wish to work.

Mr. B. J. Forbes and wife have been engaged by Mr. S. H. Claughton, proprietor of the St. Charles hotel, to take charge of the same. Everything is being put in first-class order and, from present appearances, the public is generally pleased with the management.

A little four year old child of Benjamin Marks, living some ten miles up the Santiam, fell into a tub of hot water, a few days ago, and was badly scalded on both arms, the flesh, in places, falling off. It is feared the child will lose the use of its arms.

Mr. E. Keebler threshed, a few days ago, on his farm, 45 acres of fall wheat, which averaged 31 bushels to the acre. He reports the fall grain yielding well.

We were pleased to note a representative of the Democrat, Geo. E. Chambliss, in town a few days ago. He had been to Waterloo, where his family are now stopping for their health.

It has been thought best during the busy season to postpone the Wednesday night prayer meeting. It will be round again in the course of six weeks.

Major Johnson, living in Samiam precinct, has traded farms with W. Cummings, living near Peoria. Mr. Johnson, owing to the loss of his eyes in the army, during the war, was unable to run his farm, it being a stock ranch principally. The one he gets in exchange is highly spoken of, and we trust he may find it all he expects.

One would think, from the comments of some of the leading republican papers on the recent pension appropriation, that a terrible wrong had been done the country. It might be in order to ask where the country would have been, had it not been for the men who were willing to risk life and health for its preservation. The man who will find fault with his country simply and liberally providing for its defenders has no words of commendation for his many jobs and stunts practiced, exhibits but little patriotism and less good judgment. Undoubtedly he was one of the loyal men who stayed at home and fought with words at long range during the war.

A very pleasant surprise party took place at the residence of our esteemed postmaster on Monday evening. A few of the many friends of Mr. and Mrs. D. Andrews, ascertaining that it was the fifth anniversary of their married life, paid them an evening call, and with happy congratulations left with them many choice presents as a kind memento of their high regard.

A board of audit, consisting of the first and second controllers of the treasury and treasurer of the United States, appointed by Congress to consider all claims growing out of the illness and burial of President Garfield, have so far received only three claims, viz: Milne & Proctor, for furniture, beds and bedding, \$162.55; J. Walsh, New York, for embalming the body \$500; claims of the employees of the executive mansion, which is for three months' salary. Under this appropriation there will be paid \$11,413.

Mr. G. B. Johnson, business manager of the Houston (Texas) Post, has written to St. Jacobs Oil with the greatest benefit for rheumatism, says the Galveston (Texas) News.

The Results. All persons feeling dull and depressed or perhaps feverish with no appetite, no energy, the system clogged, the liver torpid, and the bowels inactive who are wondering how to find relief, should purchase a 50 cent or \$1 bottle of Syrup of Figs, read the circular around the bottle, follow the directions, taking a few doses of this pleasant remedy and be restored to health and happiness. It may be had of Foshay & Mason, Albany, Rector & Son, Halsey.

Notice is hereby given that there will be a meeting of the stockholders of the Albany & Santiam Water Ditch or Canal Co. at their office in Albany, Oregon, on Tuesday Sept 12, 1882, at 2 o'clock p. m., for the purpose of electing seven directors to serve for the ensuing year.

Private information from New Jersey states that Robeson will probably be beaten for re-nomination in his district. It is said that Sewall, who defeated Robeson for the United States Senate last year wants to see his enemy retired to private life and kept there. He is afraid, if Robeson is re-elected to Congress, he will be the successor of his Democratic colleague, McPherson, in the Senate.

When we see a medicine advertised to cure a half dozen or more classes of diseases, we conclude that it is a humbug. And having noticed that the proprietor of Anson's Cough Syrup only advertises or claims it good for coughs, colds and lung complaints, we were induced to try it, and now take pleasure in recommending it to readers.
