Monday evening while Mrs. J. F. Backenst and several children, among whom was Maggie Murray, who has been living with her during the absence of Mr. Backenst, were crossing the bridge on Calapeeta street, near Mr. Backenst's residence, Maggie accidentally fell off the bridge into the ditch, which is quite swift there, and over the little girls head, Jim Murray, a brother of Maggie's, happened along just as she was near the Washington street bridge, nothing but her feet being seen above the water.

Albany was owned two days last week by an alleged Scot, E. of Mag. J. B. Balmage. Few of our people were aware of the fact that all right, title and interest in and to their person and property was granted to this penny-gatherer, yet he had, at least, the appearance of being so.

Read. Poor "Bob Grow" is dead. He "abundant of this mortal coil" last Wednesday morning in front of the depot hotel by following a very foolish habit he has had of getting in front of the cars, and trying to stop them. He showed commendable grit but poor judgment; a wheel struck him and he was instantly a "dead corpse."

Only a battered mass of dog flesh, yet his many friends thought fit to bury him after the usual form, which they did in the forenoon of that day in an imposing manner. A funeral march was sung and the somber procession moving slowly along to the lot beyond the Depot silently laid his casket in the earth.

And there he lay, his cheek striking one of the planks and driving it through into the side, both of men's pants and ladies' dresses, rummaging drawers and opening pocket books, and singing everything right and left; but they didn't get what they were after, for it was safely locked in one of our merchants' safes. They did get, though, sixty cents from one pocket book and about seventy-five from another and might have gotten \$4 if they had looked a little farther. Although there was jewelry and silver ware in abundance they did not touch it. No clue that we know of is had to the villains who made this attempt to get what fortunately they did not obtain.

Letter List. The following is the list of letters received in the Post Office, Albany, Oreg., on August 18, 1882. Please address these letters to give the date on which they were forwarded.

OUR "WHAT IS IT" HAS HIS SAY.

Reparations between newspapers does very well as long as it is carried on in the right spirit, and the parties do not lose their temper, and in our spat with the "Herald" we certainly have never stooped to anything more than a little pleasantry.

But when one goes out into a field and has a handful of type at the "devil's head," hurls the shooting stick at the compositor, and then with his pulse at 120 in the shade grabs his pen and dashes off the vilest kind of trash, matter of which you can not find an equal in the "Police Gazette," it becomes decidedly disgusting and we do not care to be found with our hand in such a business.

We have always had too good an opinion of ourself to believe that we were "a poor, miserable, loblinded, insignificant, pusillanimous small like specimen of a calf who wasn't worth a ----" as the "Herald" chooses to call us, and as such we write the exposure.

We have no desire to ating such epithets at the inspired local editor of that paper, although we might with impunity. It is bad enough for that apology to be the connecting link without being told so. We will not even call him Biologian, although he goes by that name among many, nor will we even refer to him as Ham. Accident to a Young Athlete. Last Monday several small boys were practicing walking the low picket fence around Mr D P Mason's residence, when a rail was made which was not down on the program. Clem Irvine, a young child, six months in, trying to make the low picket, fell, his cheek striking one of the pickets and driving it through into the side, both of men's pants and ladies' dresses, rummaging drawers and opening pocket books, and singing everything right and left; but they didn't get what they were after, for it was safely locked in one of our merchants' safes. They did get, though, sixty cents from one pocket book and about seventy-five from another and might have gotten \$4 if they had looked a little farther. Although there was jewelry and silver ware in abundance they did not touch it. No clue that we know of is had to the villains who made this attempt to get what fortunately they did not obtain.

Although there was jewelry and silver ware in abundance they did not touch it. No clue that we know of is had to the villains who made this attempt to get what fortunately they did not obtain.

Accident to a Young Athlete. Last Monday several small boys were practicing walking the low picket fence around Mr D P Mason's residence, when a rail was made which was not down on the program. Clem Irvine, a young child, six months in, trying to make the low picket, fell, his cheek striking one of the pickets and driving it through into the side, both of men's pants and ladies' dresses, rummaging drawers and opening pocket books, and singing everything right and left; but they didn't get what they were after, for it was safely locked in one of our merchants' safes. They did get, though, sixty cents from one pocket book and about seventy-five from another and might have gotten \$4 if they had looked a little farther. Although there was jewelry and silver ware in abundance they did not touch it. No clue that we know of is had to the villains who made this attempt to get what fortunately they did not obtain.
