Court work. Bure the leaves. Ladies' Emporium. The river is lowering. F. M. French, jeweler. Blue Ribbon Club to-night. Farmers' & Mechanics' Store. For a fine calendar, look up to French. R. R. Skippers, lawyer, Albany, Or. Bargains in dry goods at the Ladies' Emporium. \$400 to loan on good security. Call at this office. Business hours in Albany.—The Ladies' Emporium. Watches, clocks, and jewelry, lots of it, and cheap, at French's. O C Hogan is now Paymaster General of the Oregon Pacific. New embroideries opened this week at the Ladies' Emporium. Flowering and sowing is the order of the day among the farmers. Bargains in men's furnishing goods at the Farmers' & Mechanics' Store. The Exchange Hotel is being repaired and placed in a good condition. Another rain will be required before boats can run on the Willamette. The best assortment of goods in the creek is undoubtedly with four bullet holes in it, supposed to have been made by buck-shot. This confirmed the very general belief that he had been murdered. Parties, who had been searching for the body for about two weeks, then renewed their diligence, when his body, as above stated, was found, pierced by seven buckshot, the fatal wounds being located at the right side of the back part of the head and lodged in the right frontal. One shot lodged in the shoulder and the other three were mainly flesh wounds about the head. Coroner Davis was immediately notified by telegraph, and summoned Dr. J. L. Hill, of this city, and proceeded to the place where the body was found, summoned a jury who, after hearing the evidence, returned a verdict to the effect that the deceased same by his death from the discharge of a shotgun in the hands of someone unknown to them.

Much sickness is caused by the carelessness of our citizens in not paying proper attention to the sanitary condition of their premises. Too much caution cannot be taken in reference to the manner in which refuse, which is cleaned of all decaying substances. Sinks, pools of water, old bones, rotten boards, etc., all need looking to, and immediately for the heavy rain of our winter only add to the decaying process. The longer this is put off the more difficult will it be to do away with. Streets should be thoroughly rid of old rubbish and made the cleanest and most orderly of any in the State. If health had nothing to do with it, it should be done, for order indicates prosperity. The health of every private citizen demands that they should put their house and yards in good condition. It will save many a doctor's bill, and many an hour of pain, through a thorough system of drainage, by which all refuse water can be taken from every block in the city. As we cannot have this all at one time, we must individually see that the premises and streets in our neighborhood are placed in the best condition possible.

Last Monday, Mr. Nimchick, the German, who was accused of murdering Thomas Ray, the young man who disappeared last week from the Forks of the Santiam, came to this city and gave himself up. Such was the feeling in the vicinity of Ray's home that he feared mob violence and took this course to protect himself although he claims to be innocent. The clothes of Ray have been found, with several shot holes through his back. As he had a rifle he could not have made them himself. Who did it is a mystery, although many in the Forks seem to think that Nimchick is the guilty one. Certainly it looks more and more as if someone had killed him, and that it is not a case of self-defense.

Probably nothing stirs up the feelings of our old settlers more than any reference to the cannon which used to make the mountains echo in the times of the rebellion. We were interested the other evening in a discussion as to what became of it. It would seem that the Democrats succeeded in getting the bulky, muffled, booming affair from the Republicans and secretly conveyed it away, where it has been a mystery to every one but the faithful who hid it, at least so it has been claimed, as they never divulged it to anyone; but there are others who say that afterwards in crossing the old ferry, they saw it in the bottom of the river, about half way across, and will vouch for it. It is as if it could only be resurrected if it would be a good idea to mount it and place it in some public place as a curiosity and as a sign that all old feelings of animosity have passed away.

The store of P. A. Moses, at Tangent was again burglarized last Saturday night. The thief effected an entrance through the front window, which few understand is not very burglar proof and helped himself to various articles, in other words, 11 cans of salmon, 10 cans of oysters, 3 cans of peaches, 20 pounds of crackers, and 6 pairs of socks. He found no money. It is known almost certainly who is doing the business, and if any more of it goes on the first thing a certain person in the vicinity of Tangent knows he will find himself in the county jail. It was thought that this time it occurred it was by traps, but there is little doubt now as to the identity of the rascal.

This old pioneer died at his home in Harrietteburg, last week, aged 88 years. He came to Oregon in 1853, and has been quite successful as a farmer, having lived in comfort himself and assisted to build up the homes of thirteen children, all at work, and a loving wife, now living. He was a man of considerable force of character and of a kindly disposition, one who will be missed by many. He was born in Tennessee, moved at the age of eight to Missouri, and after serving under General "Iron" in the Mexican war, came to Oregon when about twenty-five, and on to what is now Grants-up with this State.

Yesterday morning at 7 o'clock, A. M. Hannah wife of Mr. T. G. Jackson departed this life at her home in this city. She was born June 23, 1811, in Poland, and had resided with her husband in this city for several years. The funeral will take place today at the residence of Mr. Jackson, at 2 o'clock. All friends are invited.
