Max Friendly, at Corvallis has gone out of the merchandise business into the milling business, near that place. It seems that young Knighten, a brother, and a son of F. A. Mason, were playing in a field near the Calpooia, when Willis said he was going down to the river to get a drink of water and started off in that direction. He did not return, but Mr. Knighten had requested him to do something in another field, and it was thought he was there. When six o'clock came and he failed to put in an appearance, search was made for him. Foot-marks were found on the bank of the river where some one had jumped down from a higher bank, and it was supposed they were his. They were traced to near some logs in the river. The general opinion seems to be that he got on the logs and tried to push them off, or something of that nature, and fell in. A hat which he wore was on Sunday morning found about four miles down the river, leaving little doubt that he was drowned. The affair has cast a shadow over Tangent, and particularly over the household of Mr. Knighten, who has the sympathy of everybody in their sad affliction. Willis was about seventeen, and was a bright, industrious young man, who will be greatly missed by all who knew him.

Patent Accident.

Last Saturday morning Jas. Miller, a brother of Mrs. J. McConnell, of this city, was harrowing on a farm two miles and a half east of this city, he met with an accident which has proven much more serious than was at first anticipated, in fact, fatal.

The horse started up and the harrow fell, one tooth striking in the calf of his right leg, cutting a fearful gash and ripping it in a bad manner. Two good doctors were immediately called and dressed the wound, but afterwards it began to mortify and it was feared that it would be necessary to amputate it.

Tuesday night when the Doctors visited Mr. Miller, they found the mortification increasing. The tooth of the harrow was a rusty one, and it had been impossible to get the poison from the system on account of the length of time in which the horse had been in the man's leg before it was cut out, and Wednesday morning the Doctors went to Mr. Miller's place for the purpose of amputating the leg, if he could stand it; but they found him dead. Nearly the whole of the leg having turned green, mortifying in a terrible manner.

Mr. Miller was a young man about thirty, and leaves a wife and child.

Meeting of School Directors.

Friday afternoon, April 20th.

Present—Director's Strahan, Monahan, Montanye and Clerk J. M. Burkhardt.

The following bills were ordered paid: R. D. Iob, 1 mo. salary, \$120; V. A. Kane, 50; Emily Turrell, 50; Nettie Sparks, 50; Rosa Alexander, 50; Minnie Allison, 50; E. A. Parker, as janitor, 1 mo \$22.

I was moved and carried that the janitors services be dispensed with at the above price.

A motion was made and carried that a meeting of the voters of School District No. 5 be called for Tuesday evening, May 8, at 7:30 o'clock to take into consideration the purchasing of property on which to build a school house, and that the meeting shall consider the question of negotiating a loan. The notice of the meeting to be given by publication in the city papers.

By reference to another column it will be seen that a school meeting has been called to meet at the Court House on Tuesday evening, May 8, at 7:30 p. m., for the purpose of selecting a site for a new school house, and to authorize the directors to borrow \$10,000 and give the note on bond of the district therefor. The directors were authorized at the meeting held March 20 to borrow \$10,000 and give the note of the district, but we understand that some of the directors are of the opinion that the meeting was not legally called, hence they have concluded to submit that matter to a vote of the people. It is said that an effort is on foot to defeat the whole movement. We do not know how true this is, but we appeal to the friends of our public schools to come out in full force next Tuesday evening and settle the question at once. A large majority of the people are in favor of a school house, and their will should not be thwarted and set aside as a trivial technicality. Let every voter in the district be on hand.

ALBANY COLLEGIATE INSTITUTE.

Good Prospects for a large Endowment.

At the last meeting of the Presbytery of the Presbyterian church of the state of Oregon a committee was appointed on the Albany Collegiate Institute. Before the adjournment of the Presbytery it made a report, showing the present condition of the Institute and the necessity of immediate action to insure its perpetuation, and made certain recommendations which it is not necessary for us to give at the present time. A committee consisting of E. R. Gray, E. N. Condit and John Housneyman was appointed to raise an endowment, if such a thing were possible. They immediately went to work, and so far have met with the most flattering success. W. L. Ladd and H. W. Corbit, of Portland each subscribed \$7,000, on the condition that \$3,000 be raised in Lane county and \$30,000 from any source, within three years, nevertheless interest at 8 per cent to be paid on the said sums during the three years. A thousand dollars from other sources was also raised in Portland, and in this county \$250 was raised with little trouble, upon nearly the same conditions as that of Messrs. Ladd and Corbit, the parties subscribing only paying the interest for three years from July 1st of this year. After that time if the additional \$30,000 is raised the amount subscribed will be paid and the fund will become a permanent endowment fund. This will place the College on a firm foundation, and for three years at least we are certain of its continuation. On next Tuesday the President of the College, E. N. Condit, will start for the East for the purpose of raising the \$30,000, and his prospects for accomplishing it, are very encouraging.

This work is being done also under the condition that pledges for at least seventy-five scholars be given. There can be little doubt that this will be obtained and it is certainly to be hoped that friends of the institution will be prompt in rendering assistance in this direction as well as increasing the subscription in this county to at least \$10,000.

The success so far in this effort to make the Institute a permanent one is a matter of great concern to all of us. We need a first-class College in Albany, and all this one lacks is money. Prof. Condit has all the capacity for making it one of the best in the State, and has been in Lane county as well as the State. Should the whole cause be well raised great improvements will be made, making the College complete and thorough. Four teachers for the full time will be employed, and only teachers of years of experience. Special attention will be given to the work in the preparatory department, making it a high grade of training for the higher departments. Besides other improvements, first-class apparatus will be purchased, giving students advantages in physics, botany, physics, chemistry, etc., which it is impossible for them to obtain without them.

Every encouragement should be continued to be offered, tending to place the College on a new foundation. It is for the interest of all that the Institute be not a sectarian one. Its directors belong to no particular church. It is only under the charge of this church for the sake of giving it a religious influence. May the college prosper.

Beautiful Ceremony.

Yesterday afternoon, at the funeral of Prof. Worthington, the pupils of the public school formed in procession, with a badge of orange on the right arm, and bearing in the hand a bouquet of flowers. They marched in regular order to the cemetery and filed around the grave and deposited the flowers there. We were informed that these floral tributes covered the casket for a depth of two feet, so that literally speaking the mortal remains of Prof. W. L. Worthington rest in a bed of flowers.

The Bulletin Times Mountain.

Looking Wanted Man with a big lunged child in her arms, a few days since entered the grocery store of G. M. Strong, where the following conversation took place: "Go anything to eat?" "Yes ma'am, everything, what would you like?" "Oh, have you any canned tomatoes?" "Yes, we have a large quantity of them, and bearing in mind the fact that you are starting them to realize their sense of duty, and examine into the merits of this new discovery, the physicians using it in their practice. Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all Throat and Lung diseases is daily curing patients that they have given up to die, is starting them to realize their sense of duty, and examine into the merits of this new discovery, the physicians using it in their practice. Trial bottles free at Fosby & Mason's Drug Store. Regular size \$1.00.

New goods just received at Allen & Martin's, Albany, Or. Their store is jammed full of new goods of all descriptions, also jammed full of new customers. There is no use of talking good goods and low prices will win. You have got to give the people credit for their good sense. They will buy goods where they can buy the best goods for the least money, that is the reason Allen & Martin's trade is increasing so fast. Allen & Martin pay the highest price for produce of all kinds.

The Broadhead alpaca dress fabrics are just celebrated in Albany, being positively the best dress goods in the market for the price. Samuel E. Young has just received direct from the factory a full line of these goods, bought at jobbers prices for cash, no middle men. Call and see our assortment of sarahs, mohairs and buttons.
