Dr. SPINNEY,

NO. 11 KEARNY ST.

Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case Seminale weakness or private disease of any kind or caracter which he undertakes and failg to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty-five to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.

For private diseases of short standing a full course medicine sufficient for a cure, with all instructions, will be sent to any address on receipt of $10 00.

EUROPEAN LETTER
(From our regular correspondent.)

Vienna, August 16th 1883.

The French Postal and Telegraphic Department has sent to Vienna the made for the Paris Exhibition of 1881 It is placed on a platform immediately opposite the main entrance. Under the flooring are 1200 or 1500 cells, composing the powerful batteries required for the ingenious apparatus displayed. Here may be seen telegra phy perfected apparently to the highest limit. Not only is the language of man conveyed over thousands of miles in a few seconds, but his very handwriting he puts on paper and his drawings are transmitted letter for letter and line for line from one point to another. The French War Office exhibits complicated instruments for measuring the speed of projectiles, for the exact estimate of the force of recoil of guns and rifles &c. The Navy the colonies and the department of commerce and Public Instruction are all represented. Amongst other curious instruments is an electric scale, invented by M. Becquerel, dispensing with the use of weights. The amount of electric-magneto force necessary to keep the needle of the scale at its center. corresponds on a dyamometer to the weight. The Chemin de fe Du Nord has up a miniature railroad, practically demonstrating their improved systems of bell and light signalling and the working of switches and gates with safety and precision by electricity. The Chemin de fer de l Est shows how, by electricity clocks connected with each other, an absolutely uniform time can be kept up throughout their extensive range of traffic. Dr Boudet of Paris contributes scientific apparatus of much importance. In medicine, sound is of more diagnostic value than sight. Acting on this principle, Dr. Boudet has applied the telephone, or more accurately speaking the microphone, to instruments which heretofore transmitted but imperfectly to the observer's ear those sounds that invariably accompany many organs of the human body in their functions, and which in their slightest variations impart much information to the experienced physician. Dr Boudet has now invented a stethoscope so delicate that the murmurs heard with each beat of the heart are transmitted with the greatest accuracy, rendering perfecly appreciable the most trifling deviation from the normal. The soft breezy sound of the air passing through the minute tubes of the lungs cannot undergo the slightest change without being easily detected by the instrumen his sphygmophone records the flowing of the blood as it rushes through arteries, and his mophone readers audible the crisp, crackling sound caused by a muscle as it contracts. Altogether the French Exhibition is a most complete and remarkable display of the innumerable application of electricity.

The large space alloted to Austrian Exhibitors is well filled. The well known firm of Messrs Siemens and Haske exhibit, besides their railway and extensive contrivances for lightning automatic and electrical signel bells, complex reflectors for use on sea or on land &c. R. L. Haviland (Vienna) has erected a miniature theater, where is to be illustrated the working of his electrical safety appliances, giving the alarm of fire before heat or even smoke is precepitable. The Austro-Hungarian Staats Bahn displays several models of gates that close automatically as each train approaches and open in the same manner after its passage.

In the German Exhibition the principal features are found in machinery hall, where the powerful Dynamo-Motors of Messrs Schuckert and Co. of Nurem burg are used in the manufacture of iron and steel articles. Belgium has sent articles principally in connection with her war department. The Danish Government has done likewise, illustrating also the mechanism used in the navy for the management of torpedo stations. In he Russian Department, gaily decorated in semi-barbaric fashion, are some beautiful specimens of the printing done in the government offices. Little Switzerland has not held aloft, one of the most powerful of the dynamo—electric machines is exhibited by M Emil Burgin of Bahl. In the Italian exhibition the printing presses of Florence and the fire bells of Ravanna are principally worthy of mention.

I am conscious of having omitted to mention much that is of interest, but that is unavoidable.

My advice to most of your readers who are anxious to learn more about the Vienna Electrical exhibtion, Come and see it

Dr. Zukertort, chess champion of the world, sails for America soon—we think the redoubtable Doctor should visit Jefferson and Independence before returning to merry old England. Our local "experts" would clip the gallant old knight's plume feathers in fine style.

Dr. Kirkpatrick of Dallas, is a first-class chess-player as well as a skilled physician. He and the editor of "Our Chess Column" are playing a game by correspondence.

Mr. E. N. Thomas, of Jefferson, enjoys the reputation of being one of the finest chess-players in the state.

In our opinion, Mr. S. A. DeVaney, is the boss problimist. Some of his productions rank very high.

Mr. M———, of Independence very patiently awaits *that move* from Jefferson. Friend M——— says that he is becoming quite Quixotic in valor —he has bought an imaginary foe so long.

In the late Nuremburg tournament, Winaner won 1st prize, Blackburne, 2rd prize, and Mason 3rd prize The veteran Louis Paulsen fell far behind in his score.

KENDALL'S SPAVIN CURE

The Most Successful Remedy ever discovered, as it is certain in its effects and does not blister. Read proof below.

Kendall's Spavin Cure.

Hamilton, Mo., June 14th, 1881.

B. J. KENDALL & Co.,—Gents:—This is to certify that I have used Kendall's Spavin Cure and have found it to be all it is recommended to be and in fact more too; I have removed by using the above: Callous, Bone Spavins, Ring-bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance I have ever used and I have tried many as I have made that my study for years.

Respectfully yours,
P. V. CRIST.

FROM THE ONEONTA PRESS, N. Y.

Oneonta, New York, Jan. 6th, 1881.

Early last summer Messrs. B. J. Kendall and Co., of Enosburg Falls Vt., made a contract with the publishers of the "Press" for a half column advertisement for one year setting forth the merits of Kendall's Spavin Cure. At the same time we secured from the firm a quantity of books, entitled Dr. Kendall's Treatise on the Horse and his Diseases, which we are giving to advance paying subscribers to the "Press" as a premium.

About the time the advertisement first appeared in this paper Mr. P. G. Schermerhorn, who resides near Colliers had a spavined horse. He read the advertisement and concluded to test the efficacy of the remedy, although his friends laughed at his credulity. He bought a bottle of Kendall's Spavin Cure and commenced using it on the horse in accordance with the directions, and he informed us this week that it effected such a complete cure that an expert horseman, who examined the animal recently could find no trace of the spavin or the place where it had been located. Mr. Schermerhorn has since secured a copy of Kendall's Treatise on the Horse and his Disease, which he prizes very highly and would be loth to part with at any price, provided he could not obtain another copy. So much for advertising reliable articles.

Kendall's Spavin Cure.

Wilton, Minn., Jan. 11th, 1881.

B. J. KENDALL and Co., Gents:—Having got a horse book of you by mail a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses which was badly swoolen and could not be reduced by any other remedy, I got two bottles of Kendall's Spavin Cure of Preston and Ludduth, Druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very badly. I used your remedy as given in your book without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself but also to my neighbors. You sent me the book for the trifling sum of 25 cents and if I could not get another alike it I would not take twenty-five dollars for it.

Yours truly,
GEO. MATHEWS.

READ PROOF OF WONDERFUL CURES

Fremont, Ohio, Jan. 25th, 1881.

DR. B. J. KENDALL and Co., Gents:—I think it my duty to render you my thanks for benefits and profits which I have derived from your invaluable and far famed Spavin Cure. My cousin and I had a valuable stallion, worth $4000 which had a very bad spavin and was pronounced by four eminent veterinary surgeons, beyond any cure, and that the horse was done for ever. As a last resort I advised my cousin to try a bottle of Kendall's Spavin Cure. It had a magical effect, the third bottle cured it and the horse is as well as ever. Dr. Dick of Edinburgh, the eminent veterinary surgeon was an uncle of mine, and I take great interest in assisting his profession.

Yours truly,
JAMES A. WILTON, Civil Engineer.

Kendall's Spavin Cure

Is sure in its effects, mild in its action as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or remove any bony growth or other enlargements, such as spavins, splints curbs, calous, sprains, swellings and any lameness and enlargements of the joints or limbs, or for rheumatism in man and for any purpose for which liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effect.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. Dr. B. J. KENDALL and Co., Enosburgh Falls, Vt.

A Perfect Combination with two Salient Advantages—Why it Concerns You.

"There is no mistake about it," remarked Dr M F Flowers, of Gallatin, Missouri, "Benson's Capcine Porous Plasters are one of the neatest combinations ever produced. They have two kinds of advantages over all others, which we may call the minor and the major. First, they are clean and pleasant to use, never soiling the hands nor the linen of the wearer. Second, they are quickly and powerfully. I have tried the Capcine Plaster on myself for pneumonia, and on my patients for various diseases, such as neuralgia, muscular, rheumatism, lumbago, kidney trouble, etc., and in all cases relief has followed in from three to forty-eight hours."

Dr Flower merely voices the written or oral opinion of thousands in his profession. Benson's Capcine Porous Plasters are the perfect external application. The genuine have the word Capcine cut in the centre. Price 25 cents.
