Worth Considering. The pleasant weather of last Saturday again took our art editor to the cemetery, where he noticed several new monuments and many old ones; but, let the truth be said, that the lettering on some of them are monuments of blunders. If there is anything that needs to be done work on a grave stone, and we are sorry that there is no such thing as a perfect monument. Some of the monuments should be, and periods where commas should be, different kinds of letters mixed up, etc., on others; while some curving we noticed was nearly as crooked as a rail fence. In strong contrast is that on the graves of Young and Foster. These were built by Stalger, Broth, and are models in that line. Several new monuments by this firm indicate first-class work, and their work generally, it is but justice to say is superior. They take pains with their work, and deserve good pay for it. They do not pretend to compete with a poor class of work, and can not. As monuments are made to stand, it pays to investigate matters before ordering.

Plain Talk.

BY PLAIN CHIEF. Making both ends meet simply means earning enough money to live, keep even with the world and neither have a bit left nor owe a bit. In this era of dead beats there are many who can not say that they make both ends meet, and what is more there are many who seem to prefer being on a continual dole, like a boy on a hand sled. They are happiest when they owe everybody, and if a custom it were, they would mortgage their head in order to be in debt, like Antonio, in the merchant of Venice, make their bond a pound of flesh next their heart. They seem to be unscrupulous as to whom their victims are and would as soon owe a penniless widow, blind in both eyes, or an editor, as a stockholder in the Northern Pacific, a Portland banker, or a wholesale dealer in jewelry. Let some make both ends meet the rope is always straight and ever lastingly hitting some helpless person. When he wants a favor he is one big lump of pleasantness (self), but as soon as he gets his hands in your pockets then look out, but ask him to put it back and he is the worst insulted individual in the community. For my part I would rather be in a den of lions, like Daniel, than in a community of dead beats, to use this inelegant but appropriate expression.

The person who makes both ends meet is to be commended above all others. One may be President of a mining company, a Philadelphia lawyer, or a Portland real estate agent, yet, if at the end of the year the balance is on the wrong side, one had better be a boot black or a minister and come out even. The man who invests something by which the happiness of the human race is increased, is a public benefactor, and deserves the praise of the masses; the legislator who introduces a good law should be outlived; the politician who does an honest act should be given a credit mark of infinite length; and greater than all is the man who pays his debts and keeps even with the world and if he combines all of these then does he deserve a monument as colossal as Colossus himself.

If a man earns but a dollar a day he should spend but a dollar a day if he has to quit drinking and chewing tobacco to do it. He should live on rice and bread if necessary, and dress in homespun. Nothing raises one's ire more than to see one who owes everybody dressed in broadcloth, living on quail on toast, nightingales and olives, smoking two bit cigars and drinking the finest Madeira, yet we have plenty who do this in a small scale, and only while ago a grocery man was said to have kicked himself all over his store, to use a figurative expression, because one of his slowest debtors was seen puffing a fine cigar on the opposite side of the street.

How humiliating it must be for one dressed up as if modeled by a Ward to be a poor creditor, honest enough to live plainly rather than to run in debt, and to feel that he is putting on style on that man's hard earned money; yet such cases can be counted by the dozen, without going out of Linn county.

All persons indebted to the undersigned are hereby notified to come forward at once and settle, as I must have money. A word to the wise is sufficient. FRED WILLIAMS.
