Official County and City Paper.

A GOOD CHANCE FOR SUBSCRIBERS.

To every subscriber to the DEMOCRAT who pays up his subscription...

Great excitement was caused in the city Friday evening by the report that Charles B. Finlayson, who was in the jail awaiting a second trial for the murder of Mrs. Finlayson...

There are 2995 persons in Benton County between 18 and 20 years of age. No pupils enrolled, 1146 No. of teachers, 68.

High rates are in style. They will be worn because they are fashionable, not because they look well.

The high rates of insurance under the new contract system very naturally makes many business men kick, and I am sure they will not insist.

From the office of Messrs G. S. P. Rewell & Co's "American Newspaper Directory," now in press, it appears that the newspapers and periodicals of all kinds at present issued in the United States and Canada reach a grand total of 13,402.

Some people need an earthquake to awaken them, so some cities wait to be burned down before getting a new engine, and others will not show any enterprise until they see everything slipping from their grasp.

HOME AND ABROAD.

F M French, Jeweler, Best Harness at J D Burdick's, E. R. Skipworth, lawyer, Albany, Or. The county jail is now empty.

Read the address of Prof H. L. Benson on our first page. Portland will celebrate a sesquicentennial day in a becoming manner.

Ammen's Cough Syrup cures colds, coughs, bronchitis and consumption. Coer D'Alene stories begin to circulate, but many of them, we believe are fiction.

Miss L. Leavitt has been speaking in Linn county lately on the subject of temperance. Last Monday was the anniversary of the shooting of Abraham Lincoln by Wilkes Booth.

Albany has the material for a good ball nine. What is needed is drill and organization. Burkhardt's is the place to get your garden vegetables of all kinds kept constantly on hand.

Twenty-one quanta of water is claimed on the bar at Yaquina when the tide is not quite full. Spring seeding is nearly done, but as yet some failing to get in their seed before the rain comes.

The regular meeting of the Y. P. T. Y. will be held on April 25th at 3:30 at the W. C. T. U. hall. In the game last Saturday between the Corvallis and Albany nines the former club won by four scores.

At the meeting of the Blue Ribbon Club last week addresses were delivered by Revs Brownson and Floyd. The Circuit Court which meets here next week will only be for a few cases without jurors or witnesses.

Tacoma was visited by a big fire Sunday morning, in which nine buildings were destroyed. Total loss \$175,000. There are 2995 persons in Benton County between 18 and 20 years of age.

High rates are in style. They will be worn because they are fashionable, not because they look well. We hear it currently reported that some one got "set down on" by the Republican primaries last Saturday, and by a large majority.

The high rates of insurance under the new contract system very naturally makes many business men kick, and I am sure they will not insist. The highest rate is that of the range on the south side of Fort between Ellsworth and Rosalindine, from \$8.50 to the \$100.

Henry Ward Beecher says Oregon and Washington are his particular pets, but he fails to say whether they are Mrs. Tillson or poeple dogs. Let us remark here that Oregon does not admit the postpaid.

The valley people would like to see a man sent to Congress who will work for the interests of the whole state, and the party who puts up such a man will get their best support. The coming of summer warns the people of the Valley to get ready to buy their water, small beers, etc., as well as groceries.

White grass is just becoming green in the East here everything is far advanced, and nature has been singing her most flowery songs for several weeks. We are indebted to Messrs M A Miller and F A Watts, Secretaries at the convention held last Friday for minutes of the proceedings of the convention.

It is stated by the Sprague Herald, that out of sixty votes cast by the women at Sprague last week, at the city election, thirty-nine voted the whiskey ticket. The Nickel Plate Circus will open at Roseburg, May 3, 1884, and thence will go north through this valley to Minneapolis. A menagerie has been connected with it.

Go to Burkhardt's grocery to buy your groceries, it is the cheapest place in town. He sells goods at 8 cents for \$1, best Rio coffee, 60c for \$1, flour \$1.40 per sack. The School Journal is the name of a paper just started at Dayton, W. T. It is well gotten up, and we wish it success. All interested in education should support it.

Cherry & Parkes are just completing one of the finest mills ever manufactured in the state for a saw mill. Those desiring to see what can be done in Albany should examine it. The Sash & Blind factory of Hochstetler & Warner is now run continually. Parties anywhere in the State will do well to correspond with them before contracting for work on a large scale.

The nomination of Mr J K Charleton for Sheriff by the Democrats is a good one. He has friends all over the county who will, regardless of politics, assist in putting him into the Sheriff's office. Beware of peddlers who sell goods on samples, whether coming from Portland or San Francisco. Help build up your own community by patronizing home merchants and not irresponsible peddlers.

A few days ago J H Daniel the music dealer, sold one of the Mathushek pianos to Postmaster Irving, \$300 being the consideration. It was one of the finest ever brought to Albany, certainly a fine instrument for the beautiful home of its present owner.

Two weeks ago we stated that malarial and teal duck could be killed until the first of May. Some thought it was the first of April, as it was until two years ago, and so out on the item to protect themselves with; but the law itself will stand by them until the first of next month.

The Baptist church will be formally dedicated on Sunday, April 27, Rev J O Baker preaching the dedication sermon. The building will be completed by that time, when arrangements will be made for a very interesting service bringing into active use one of the pleasantest churches in the city.

A man named Arthur Flometry committed suicide in Portland the first of the week by taking morphine. He is said to have been sentenced to fourteen years imprisonment in Washington Territory for killing a man several years ago, at the end of four years he was pardoned. Certainly his life has not been a flowery one, much less his death.

Spring is now clothed in nature's most beautiful garments, making the sentimentalist's heart flip up and down with the movement of a charn dasher, as he puts his gushing thoughts on paper and sends them to the editor. All poems on Spring containing not over six lines will be published, but anything longer will receive a deserved burial in the waste basket.

One of the best recommendations received by any candidate before the Democratic County Convention, was that given a young man whose name was presented for Coroner. When the time comes he must write. The man must come to the rescue. No sooner does he get one paper out than all of his powers are taxed to get out another, and he will fall by the roadside under the load unless he has an everlasting spring of enthusiasm in his breast.

We are taken to task in the last issue of the Christian Herald, for saying that "the interest in the union meetings at the Court House on Sunday evenings does not decrease. They have been the means of producing some extra sermons, and of making many realize that the members of one church are as much entitled to the title of Christian as those of another." The spirit displayed by the Clergyman in working together for a common cause is a commendable one. We are asked by the Herald why the clergymen of the city do not lay aside their human names and wear the title Christian alone. Now a discriminating public will make a distinction where our contemporary does not. When the terms Methodist, Presbyterian or Baptist are used, the people will at once say that the idea conveyed is sectarian. Likewise, when the word "Christian" is used as applied to that respectable christian denomination known by that name, people will just as certainly say that the idea conveyed by the word is sectarian. If the Baptists, Methodists, and all other sectarian denominations should reject their present names and all adopt the name "Christian" but retain their present creeds and beliefs, would this satisfy our contemporary? We judge not. It is said "there is nothing in a name," and further, that "a rose by any other name would smell as sweet," and we think there is much truth in these sayings. The christian character of an individual is not determined by his denominational title, but by his daily walk and conduct. By their fruits shall ye know them.

In the Spring the politician says he'll win or lose his nose. In the Spring the shabby lawyer wins a suit and buys some clothes. In the Spring the third housewife shops and spatters, spatters and shops. In the Spring the dandish young man falls in love and the question pops.

Robinson & West's drive of logs put in an appearance last Tuesday evening under the charge of Ted Carran, and are now safely lodged in the Calipsoia, this side of the bridge. There are one and a half million feet here and about half a million yet to come. The drivers have to be many experiences, but no serious accidents, we understand, have occurred.

We had a friend say to us a few days ago: "I never do anything for a cold; just wear a hat." That is exceedingly dangerous; one might do that 10 times and the 20th time the cold would settle on the lungs and lead to consumption, and thus cut one's life short many years. It is not better and more sensible, to go to your druggist and get a bottle of Ammen's Cough Syrup than run any risk at all.

The track has reached a point less than two miles north of Ashland, and it is expected that it will be at that place in about a month. The last trackwork of any consequence being completed, but the bridge over Mill creek at the northern limit of that town, will require some time for its completion. It is quite likely that it will be a few months before trains are running regularly and the terminals exchanged from Phoenix.

We hear complaint from some quarters that small birds are injuring the fruit trees. No, we believe the truth is that they do more good than harm. The number of insects which they kill is a big recompense for the few birds they may destroy. They destroy protecting as much as the plum tree, and those who observe their lives, will ascertain that they are greater friends than enemies. Annihilate them entirely and it would be impossible to raise fruit of any kind. They have their place in nature, and it should be respected.

The Republican primaries Saturday the following delegates were elected to the County Convention which meets next Tuesday, from the Albany precincts. West Albany—D H Hewitt, A S Powell, W C Tweedle, F Roman, Adam Settemier, Arch Moutz, P M Redfield and Robert Foster, Sea. East Albany—E W Langdon, Ans Marshall, S A Dawson, Thos Froman, John Foshy, J G Powell, Wm Holtra, W M Ketchum, Fred Muller. J F Backensto was nominated for Justice from West Albany, and A B Woods from East Albany.

From the Yaquina Post we get the account of two unfortunate accidents. It says, "on Monday morning one of the men employed by the O.P.R.C., on the right of way, named Fred Mervin, was precipitated from the bank or bluff at Bon's island, a distance of twenty feet or more, falling on to the edge of his ax, which penetrated his hip to the bone the full width of the ax, making a terrible wound," and "Mr J J Parker, who has been in the employ of the railroad at the Summit, had the misfortune to break his arm the other day by a falling timber. He has been taken to his home at Forest Grove."

The Democrat has initiated continually that the Court d'Alene mines are practically a humbug. The following from the Miscellaneous reassures us: Reliable gentlemen recently from the mines report that the concern is a humbug, and that more people are coming away than are going in; that no gold dust can be bought, notwithstanding the reports of claims being worked and \$10 a day to the hand being taken out; that rich gold quartz has been taken out by tobbogans for the purpose of salting claims; that the diggings could have been worked all winter had they been worth working; that while there were and probably is some gold there, the cost of taking it out will be as much as the gold is worth.

The May number of Frank Leslie's Sunday Magazine contains some particularly notable articles, and is altogether most interesting and edifying. The editor, T. De Witt Talmage, D. D., has two articles—"The Arolic Martyrs" and "The Great Freshets"—"Cathedral of Our Saviour, Moscow," "Love and Life in Norway," etc., are prominent

features of the number. There are serial and short stories, essays, sketches, etc., by Roy F. Barras, and other celebrated writers, and miscellaneous articles, etc., entertaining and replete with information. Single copy, 25 cents, or \$2.50 a year, postpaid. Mrs Frank Leslie, Publisher, 53, 55 and 57 Park Place, N. Y.

At the Democratic County Convention held in Corvallis last week resolutions were passed which showed the convention to be in favor of the following: Equal rights to all, the abolishment of the National bank system, regulating freights and fares on railroads by legislature, of a law abolishing the free pass system, and making it a crime to receive a pass by any public officer, of a registry law, of the mortgage tax law, of the forfeiture of all unsecured land grants, of a law providing that neither the state or any county pay interest on any of their warrants or indebtedness unless they be in bonds, of electing judges but honest, temperate men of ability, of having the interests of the Willamette Valley recognized by our members in Congress, of electing men to the legislature who favor submitting a prohibitory amendment to the people.

Anyone who reads the following, clipped from an exchange will no doubt have his heart filled with pity for the editor of a newspaper. "A man who edits a newspaper is much more a slave than a man in any other profession. The law is a jealous mistress, but much more so is journalism. A man who binds himself to a newspaper has a long existence of monotonous drudgery. A lawyer can work for a common man, but he is a gally slave chained to the task. When the time comes he must write. The man must come to the rescue. No sooner does he get one paper out than all of his powers are taxed to get out another, and he will fall by the roadside under the load unless he has an everlasting spring of enthusiasm in his breast.

Being suggested that they are easy to take, and though mild and pleasant in action, are thorough and searching in effect. Their efficacy in all disorders of the stomach and bowels is certified by eminent physicians, prominent clergymen, and many of our best citizens. Perfect soundness of body and mind is possible only with pure blood. Leading medical authorities of all civilized countries endorse Ayer's Sarsaparilla as the best blood-purifying medicine in existence. It vastly increases the working and productive powers of the body.

Everything peculiar or funny has to be sent to a certain Portland paper, so that when a young man, about sixteen, was heard to yell out the other night "My nose and the clothes around me," he became scared nearly out of his wits when he was told that it would certainly appear in the Mercantile.

Oregon hints have shown enterprise even if some of their citizens do not. Eggs were very scarce a few weeks ago, when they began being shipped here from St Paul. This got our Oregon fowls on their cars and they have been laying at a terrific rate, meeting the demands of the present market at a low price.

COUNTY DEMOCRATIC CONVENTION.

The County Democratic Convention in pursuance to call met at the Court House in Albany, on last Friday, at 10 o'clock, a. m.

The Convention was called to order by Hon J J Whitney, and Hon R S Strahan was elected temporary Chairman and M A Miller Secretary and F A Watts Assistant Secretary.

The following committee on credentials was appointed: J K Weatherford, Sam May and F C Hamann.

On motion of C H Montague, of Lebanon, a recess, of twenty minutes was taken to give the committee on credentials and permanent organization time in which to report.

At the end of such time the Convention was again called to order, when the committee on permanent organization reported that they recommended that the temporary officers act as the officers of the permanent organization. The report was adopted unanimously.

The committee on credentials reported that they found the following persons entitled to seats in the Convention, and the report was duly adopted:

The following committee on order of business was appointed: T L Parler, I D Miller and R R Humphrey.

On motion, a committee on resolutions was appointed, consisting of the following: W R Blyden, H F Hamilton, J H Johnston, W P Warmuth, Martin Payne.

The committee on order of business reported the following, which was duly adopted:

1. The nomination of 9 delegates to attend the Democratic State Convention to be held at Corvallis, on April 17th.

2. The nomination of a candidate for State Senator.

3. Nomination of 6 Representatives.

4. Nomination of County Judges.

SOCIAL AND PERSONAL.

John T Buford, of Corvallis, was married to Miss Sarah B Nobles at Forest Grove on April 2nd, 1884.

Judge Burnett, of Corvallis, called at the Democrat office Tuesday, while on his way to the Democratic State Convention now in session at the Dalles.

Mr I Martin will leave to-morrow for Ashland, near the suburbs of which place he has purchased a farm. He, with his family will soon make that place their home.

Go McKnight left the first of the week for Prineville with the stallion Edward Everett and a full blooded grey hound, which he recently bought in Portland. He will spend the summer about twenty-five miles north of that place.

On last Tuesday evening Mr L Martin and Mr Oscar Blyden were treated to a genuine surprise party at the residence of the former, fifty five friends, all told, appearing without warning, and making matters lively for them, until the midnight bell was rung. A lunch, which did honor to the caterers, was served during the evening.

Boots and Shoes. I have just received my Spring stock of ladies, misses and childrens shoes, which I have bought direct from the manufacturer for cash, no middle men. I am prepared to give you better value for your money than ever before, and show you the best assortment this side of Portland. I make specially of the best and shapeliest, and buy in quantities that enables me to compete with any house on the Coast in quality and price. Call and see for yourself. No trouble to show goods.

SAMUEL E. YOUNG, He Caresful About Reading This—Prepared kalsomine can be used by any one, and now is the time to use it. Peter & Blain have a stock, embracing all colors, a splendid thing which you should call and examine. They also have a full stock of rubber paint, and a large stock of garden tools of all kinds, which they will sell extra low in order to dispose of them.

Arrived. We take pleasure in informing the public that our stock of ladies, miss and children's fine shoes have arrived direct from Eastern factories, and that being bought for cash we are able to offer the trade the best value for the least money. Give us a call.

MONTREITH & SEITZENBACH, Card of Thanks. Our friends are due and hereby tendered to the friends and neighbors who so kindly assisted us during the last illness of our darling child.

ROBERT A. MURPHY, Sister MURPHY. Suits Made to Order.

Those desiring their suits made to order, in latest styles, in first-class manner, should call at L E Blain's and examine his lot of samples. These suits will be good ones, and cheap.

On motion the chair, with the advice of delegates, appointed the following central committee: West Albany—G W Hochstetler, West Albany—John Rogers, Brownville—O P Coshaw, Center—Moses Parker, Crawfordville—R W Moses, Franklin Butte—Harvey Shelton, Fox Valley—E A Heater, Harrisburg—Sam May, Lebanon—C H Ralston, Sids—Thos Munkers, Shedd—Jenas Davis, Syracuse—J H Rainey, Sweet Home—B Burtenshaw, Sweet Home—Wm Rumbaug, Waterloo—John Burrell, Mabel—A Drny. On motion adjourned.

Where to see the Great Trotters of New York. No two men in America had more experience with fine trotting stock and none are better judges than Calvin M Priest, of the New York Club Stables, 28th street near Fifth avenue and Dan A. Rice, of the Excelsior Stables, West 29th street, New York, the champion double-team driver of the United States. Both of these gentlemen say, that for painful ailments in horses, such as cuts, bruises, swellings, lameness, stiffness, St. Jacobs Oil is superior to anything they have ever used or heard of. This is also the opinion of Prof David Rehnberg, the celebrated horse-shoer of the metropolis, and thousands of stock-owners throughout the country. As a pain-cure for man and beast St. Jacobs Oil has no equal. Mr Priest recites the case of a valuable trotter, so stiff from rheumatism, that he could not move as inch. By one, thorough application of St. Jacobs Oil at night, the animal was completely cured, and was fit for the race track the next day.

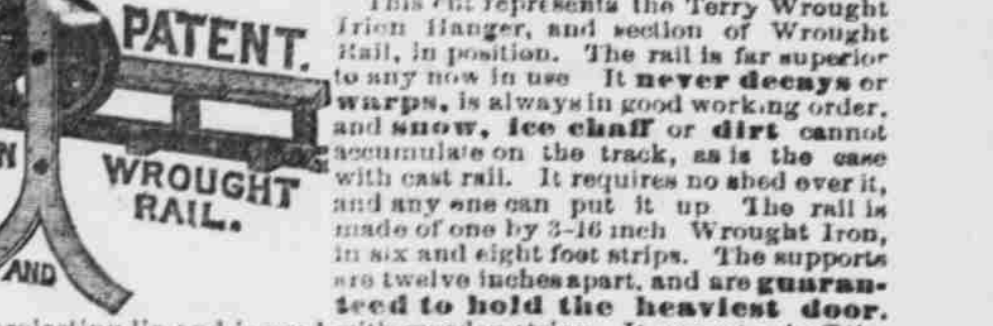

The Union Meetings. We take the following from an extended article in the Mouthmouth Herald on the union services being held in this city. After speaking of the belief of a member of the church which the paper represents, the writer says: "Here are six clergymen who have not obeyed that positive command and hence our brother does not believe that they have been baptized in Jesus Christ, that they are not members of the Church of Christ, in short that they are not christians at all, any yet he can work harmoniously with them, and thus give his influence to the teaching and practicing of their unscriptural and injurious influence." According to the above our Methodist, Presbyterian, Evangelical and Congregational friends stand no chance of being saved while they continue their present course of doing their own interpreting of the teachings of the Bible, and when we think of the number who have died in these faiths, our heart is wracked, and we can not find words to express our sympathy for their descendants, who are continuing in the same course.

All invited. The public are invited to inspect the stock of goods at Montreith & Seitzenbach's, where they will find a fine selection of all lines and in new designs.

FOR COUNTY CLERK. George E Chamberlain, J P Galbraith and G H Stewart were placed before the
