WASHINGTON LETTER.

(From our regular correspondent.) WASHINGTON, March. 29th, 1884. Education in the Senate, whisky in the House of Representatives, and the anxiously awaited result of the Democratic tariff conference have marked the week at the Capitol. At the appointed hour on Tuesday evening when the caucus was called to London, order one hundred and eighty-four Members were present. After a talk \$20 in New York, costs but \$8.50 in of several hours an understanding was London. reached without anyone being "read out of the party." It was decided by a vote of one hundred and fourteen to fifty-seven, that the Morrison bil should be discussed for a reasonable time in Committee of the Whole, where it should be subject to amendment, after which it should be reported to the House, and then put upon its passage. A resolution was adopted declaring that no Member should be bound by this caucus action except so far as he, as a Democrat, felt bound by the action of a majority of his party in caucus. It was also agreed that it was expedient to abolish the internal revenue tax on tobacco, and to reduce that on fruit brandy to ten cents a gallon. The benefits of the Educational bill being distributed upon the basis of illiteracy are to be shared by the South in the largest proportion. All sectional objection to the measure \$79 taxes. emanates exclusively from Republican Senators, Mr. Sherman is one of the prominent sectional opposers, the man who has so recently been loud in profession of triendship for the colored race. The long whisky debate closed on Thursday with defeat of the Bonded Extension bill by a majority of one hundred. During its discussion Mr. Hewitt made a long speech on the revision of the tariff. He took free whisky because alcohel is a raw material used in manufacturing and the fine arts. He ridiculed the idea of morality entering into the question of taxation and taunted the Republicans with what he termed their tariff for protection with incidental morality. Taxation he said had nothing to do with morality. He closed by saying he had been brought up to believe that ta xation is for revenue and for

revenue only. It is thought the tariff bill wil come up for discussion in about two urer years, nervous and physical debility, impo- weeks, or as soon as the Indian, agtence, lost manhood, confusion of ideas, dull eyes, aversion to society, despondency, pimples on the ricult ural, and pension appropriation bills can be disposed of.

Every poor man in the country, whether farmer, mechanic, laborer, or otherwise, should read the following figures prepared by the New York Times, the great leading Republican paper of the country. It shows by comparison what a heavy tax people are called upon to pay in order to protect a few manufactures

For instance, a broad cloth dress suit which costs \$50 in New York costs

A heavy business suit which costs \$30 in New York, costs but \$13 in A spring serge overcost which costs

A winter beaver overcoat which costs \$35 in New York, costs but \$14.50 in

A silk hat which costs \$5 in New York, costs but \$3 in London.

These articles altogether cost New York \$140. In London they cost MISS EMMA SCHUBERT. but \$61. The man who buys these clothes, therefore, in New York, pays \$79 more for them than he could buy them for in London.

What causes this difference in the prices of the two cities?

Our tariff, purchased as cheaply in New York as in London, at least as cheaply plus the freight rates between the two cities.

The man who pays, therefore, \$14 for clothes in New York, really buys \$61 worth of clothes, on which he pays And where do these taxes go?

If the goods are manufactured in this country, not one cent reaches the Treasury. It is simply \$79 taken by law from the man that buys \$61 worth of

and articles of luxury.

In either case the purchaser of the clothes gets absolutely nothing for the \$79 of the \$140 which he spends.

If, on buying the clothes, he had to pay 861 to the clothier, and 879 direct-Ir to a tax-collector, how long would he stand such extortion ? In result there is not a particle of

difference between that system and the present tariff avatem, according to which nearly every other necessary of life, How long will the people of a coun-

FROM THE SOUTH. Perfect Combination with two Salient

Advantages--- Why it Concerns ou. "There is no mistake about it," remarked Dr M F Flowers, of Gaslatin, Missouri, "Benson's Capcine Porous Plasters are one of the neatest combinations ever produced. They have two kinds of advantages over all others, which we may call the mino and the major. First, they are clean and pleasant to use, never soiling the hands nor the linen of the wearer. Second, they are quickly and powerfully. I have tried the Capcine Plaster on myself for prisumonia, nd on my patients for various diseases, such as uraigia, muscular, rheumatism, lumbazo, kidner ouble, etc., and in all cases relief has followed in m three to forty-eight hours." Dr Flower merely voices the written or oral opinion of thousands in his profession. Benson's Capcine Porous Plasters are the perfect external application. he gen wine have the word Capcine cut in the centre.
