

Table with columns for Albany Express, Freight and Mail, and Albany Express.

ALL TRAINS DAILY, EXCEPT SUNDAY.

Notice.—On and after this date regular tickets will be sold at our ticket office for following points on Columbia river: Upper and Lower Dalles, Walla Walla, Walla Walla and Alnsworth.

OUR AGENTS.

Following are the DEMOCRAT'S daily authorized agents to receive subscriptions or money for the same:

A Spread Eagle Item in a Spread Eagle Style.

To-day is the Fourth of July, the day of all days in the United States. It may be ignored in England and unknown in Hottentots, it may pass like a summer breeze in Egypt, and go by without a firecracker in Japan; but in America it is the day that touches every true man's heart, and fills him with soaring ideas.

Close of Hamilton Creek School.

On the 21st of last month three schools united and held a basket picnic at Hamilton Creek school house, which we understand was a very successful affair.

Game Law.—Read.

Last Monday another chapter in the game law was turned. At that date it became lawful to kill or destroy any male deer or buck, but not until August 1st can female deer or doe be killed.

Ran Over by a Wagon.

Last Saturday, near the M E Church South, Mr John Maxwell was driving along with a load of gravel, when a son of Daniel Best, about four years of age, climbed up on the side of the wagon to get a ride, but, accidentally he slipped and fell on his back, and before the wagon could be stopped one of the wheels passed over his body near his thighs. He was considerably bruised, but very fortunately no bones were broken.

Death of Miss Kate Cowan.

Saturday morning Miss Kate Cowan, aged 16, who was stopping with her grandfather in this city, was taken suddenly ill, and despite all that medical skill could do, died this morning. Funeral services took place Sunday afternoon, and the remains were buried in the cemetery at Mr C Cowan's, and was a young lady of most estimable character, who leaves many relatives and friends to mourn her death.

Work Hours.

Last Saturday Mr L Senders arrived in Albany with twenty splendid work-horses, all in good condition, gentle and ready for business. All in want of some good horses should call on Mr Senders in this city.

HOME AND ABROAD.

F M French, jeweler, Hays Kloths washer. Colias has a population of 1200. Wheat field begin to turn yellow. Haying has begun in Linn county. Elk City already has two saloons. The best harness at J J Durrill's. Plenty of 1 1/2 x 4 inch flooring at Carters. Money gets squeezed terribly these days. The new county officers have all sworn in. Portland is a regular Sunday breaking city. Cole's circus took in \$18,000 in Walla Walla.

Most of the schools of the county have closed.

Pinckerton, the greatest of detectives died Tuesday. That dry yellow fir lumber at Carters is splendid. A wedding in high life should now be looked for. A fine crop of wheat is now assured in Linn county. Albany is afflicted with a crowd of five cent gamblers. There are many houses in Albany that need painting. It is generally conceded that W W Cole will be elected. Be careful how you trust agents for foreign insurance. Try one of those self binder whips of E. L. Thompson & Co. Cole's circus took in about \$30,000 in Portland, when. Hon J R Bryson will deliver the oration at Toledo to-day. Independence now has a bank with a paid up capital of \$50,000. A social party was given at H. Parrish's in Rock Hill last week. Do not fail to remember that we will take orders on subscription at Harper's. Mellis Brothers, of Portland have failed. Indebtedness, \$42,000. The Oakville school closed Saturday with high honors to the teacher. The crosswalks of the city have been placed in splendid condition. Robert Johnson, of Corvallis, is assisting Charley Watts at his job office. Hon Joe Hamilton, of Oakville has been quite poorly for the last few weeks. E. L. Thompson & Co's harness is the cheapest to buy because it is the best. The late floods in Eastern Oregon caused about \$5,000 damage at Harper's. Wheat sells for \$1.20 per bushel in Newport when you get it for your chickens. Mrs J Ellen Foster will be greeted by a large audience next Tuesday evening. N. H. Allen will sell summer cloaks, dolmans, etc., at less than first cost to close. Farmers will save money by buying their belting, and rarts of E. L. Thompson & Co. Mrs Putts Solo Irons and Enterprise coffee mills just received by Peters & Blake. Cheap Sull reduction in prices of Universal and Karaka wringers at Peters & Blake's. There are ninety tax payers in San Francisco who pay \$100,000 on personal property. Look out for thieves and out throats around the circus. Such leeches are always on hand. The Post says several beautiful residences will be erected at the Bay in a short time. The last of the old County Court met last week. The new one will meet next Wednesday. The Sheriff elect J K Charlton is moving over this week, and will act as his own jailor. Corvallis boasts that it has four foot races all of whom will beat any from Salem or Albany. Considerable wool has been brought to the city. S E Young has a large quantity purchased. It takes forty-two cars to convey Cole's circus, the whole of which will be at Albany next Monday. The Coer D'Alene Eagle is now dubbed a ghost by an exchange, and a very sickly one it has been. There should be a law regulating freight and fares. Let our next Legislature remember this. Cole's circus is said to be accompanied by a hoarde of thieves. Lookout for them when they reach Albany. To fill the local columns of a paper nowadays it takes a good imagination, as well as a knowledge of facts. S E Young shipped about 33,000 pounds of wool for Portland last Tuesday. It's destination will be Boston. Month & Seitenbach are now at the Senders & Sternburg store. Customers should remember this. Fourteen bare-back running and ridden horses are to be seen in the several rings of Cole's circus at one time. The Raymond excursion party came as far as Albany last week, but did not investigate Albany matters very much. The residence of Virgil Parker has been very neatly painted, an example which should be followed generally. The Farmers warehouse has been raised, and new sills placed under it, the old ones having been decayed and worn out. The largest and best stock of harness and saddles in the valley is to be found at E. L. Thompson & Co. and their prices are low. A full stock of single and double buggy harness, at bed-rock prices can be found at J. J. Durrill's. Examine them and prices. Circuses will come and go, and so will our citizens go to Hoffman & Joseph's to get their groceries, or cooling drinks or ice cream. There will be a game of ball to-day at Scio between the Scio nine and the Knox Butte nine. A big time is expected at the celebration. Several acres of corn planted near Oakville are said to look fine, indicating that corn can be raised here as well as in many other places. A friend who ate venison on the 2nd said it was killed by the care in Southern Oregon, but evidently some one had violated the law. According to the Portland Telegram Linn county now has a population of 14,700 and it places the population of the whole state at 250,000. Rock Hill has a Sunday school, which, we understand, is progressing, with L O Rice, as superintendent, and Miss Ida Morris as Secretary. Openings to the sewer on Broadbald street are so high in some places as to cause and despite all that medical skill could do, died this morning. Funeral services took place Sunday afternoon, and the remains were buried in the cemetery at Mr C Cowan's, and was a young lady of most estimable character, who leaves many relatives and friends to mourn her death.

Binder whips! Binder whips! made to order especially for J. J. Durrill by the Manufacturers in the East. They are fast long. Ray one.

Tuesday Mr Stewart took possession of the drays in this city, which he will run alone. He is reliable and will do good work for all who employ him. Last Tuesday night the steamer "Yaquina" sailed from Portland for Yaquina Bay with 31 cabin, 194 steerage passengers and 500 tons of merchandise. In a few days Miss Mattie Allison will move into the Thompson Block just east of S E Young's, that place having been repainted and generally improved. At Newport to-day the 4th will be celebrated by an oration by Will King, a regatta, a scull race, grand picnics, whistles, rowing, music and a grand ball. Oregon will be crowned with the lightning rod man if a stop is not put to these numerous thunder storms. Worse than even a life insurance agent is the l. r. man. A young man was arrested Monday evening for gambling. There are probably fifteen or twenty other young men guilty of the same offense, but it is a hard thing to prove. Among those injured by the train wreck Tuesday were a Philadelphia drummer and a circusman, but their bruises were not severe. Many hair breadth escapes are already narrated. Mr E R Skipworth moves this week to Corvallis, where he will open a law office. Benton county people desiring legal business attended to will do well to call on Mr Skipworth. This is the way people are assailed by the Yaquina paper when they go to the Bay: "Slathers and gobs of people were camping at and near Newport and south beach last week."

The personal property of Portland is assessed at \$5,000,000, and while it is in fact assessed at \$15,000,000, can some one explain to us, if it is any wonder that many fire occur there.

Several Rock Hill men are looked for from across the mountains. Mr John Carl and William Wilson already having arrived. Mr A Dudge also got back from the up country lately. The Rock Hill school closed last Friday after a very successful term. Those G Taylor the teacher, gave great satisfaction and it is to be hoped the District may oftain his services for next winter. Hops will probably bring 25 cents in this county, some already having sold at these figures. This is better than has been anticipated. At that price there is more money in them than in wheat. The Lincoln, W. T., Leader tells of the discovery of a rich silver ledge about ten miles from Camp Spokane, near the Columbia river. The ledge has been traced about 600 feet and assays \$125 per ton. The union services will hereafter be held at the churches, alternating from one to another. Next Sunday evening the meeting will be held at the Baptist church, Rev Brownson delivering the sermon. Last Monday E B Blain received the most elegant line of neckwear ever brought to Albany. All of the young men are preparing to man themselves worthy of their best girls by buying some of Mr Blain's elegant designs. An open air row between two young ladies in the eastern part of the city, a day or two ago, in which various accusations of appropriating rings, etc., were hurled at each other, afforded amusement for several neighbors. Trains going south as far as Junction City will be held over in this city until after the circus is over. This will enable all from places on the road in this county to see the mammoth circus and return home the same night. How many people will go to the circus and pay their dollars, who owe the priates, who would have to stay at home were not circus benevolent institutions which allow them to go in free, and take their families along. The pocket-book lost last week which was mentioned in the Democrat, was most fortunately found by a honest man, whose name we did not learn, and in consequence the owner got his own. This world must be improving. Tuesday we were the recipient of an invitation to the wedding of Mr Geo W Hill, formerly of this city, to Miss Eyr Anderson, of San Francisco, which took place in the latter place last Wednesday. See notice in another column. In the foot race between Martin and Lewis at McMinnville, the latter won. The distance was 87 1/2 yards, the time 9 1/2 seconds, which was rather slow for such boasted fast runners, being at the rate of one hundred yards in 67 seconds. In no other medicinal preparation have the results of the most intelligent study and scientific inquiry been so steadily and progressively utilized as in Ayer's Sarsaparilla. It leads the list as a truly scientific preparation for all blood diseases. Watson C Squires, of Seattle, has been appointed Governor of Washington Territory. This settles the spread eagle articles on a subject, and makes everything square, although it was done at the request of Senator Miller, who is a friend of Squires. The Lebanon train will be held over Monday night until after the circus, giving the people of that place and vicinity a chance to occupy the premises with his family. Mr Peterson and his family have taken rooms at the Metropolitan hotel for the present. After the close of his term of office he will probably take a trip to San Francisco with his family, and if prospects are fair for business on his return he will once more settle down to work in Roseburg.—Roseburg Plaindealer. A Whatonop paper hits Seattle in this manner: "Seattle is all broke up. People at the Chicago Convention, referring to the Black Cloud map, pronounced it the work of a disappointed village out west called Scio. It is said that Captain Hill became so thoroughly disgusted at the constantly recurring inquiry, 'how far he lived from Whatonop,' that he finally announced that he had left from Texas, and was now acquainted in Washington Territory."

The most exciting summer of this section is the opening of the Elch Santiam mining district. Prospectors on wheels, on horseback and afoot are daily crossing Smith's ferry at this place en route. The Kings Prairie and Quartzville Wagon Road Company have opened out the road from Kings Prairie to Quartzville, twenty miles and the same is now in fair order. A wagon can be driven the whole distance in safety. W B Clark made a very rich discovery last week. J. A. Christy, of Los Angeles, Cal., intends to have his quartz mill in operation inside of a month.—Silverton Appeal.

Conversation with men who have been in different parts of the Northwest elicited the fact that it is, what people call, dull here, and perhaps there is as small an amount of the article in Albany as anywhere. To a certain extent this dullness

is due to over booming, which necessarily can produce only reaction. A balloon may rise in the air, but it can never remain there. When the gas in it goes it will fall, and so it is with cities. What is wanted is steady, reliable, growth, with accumulating industries to back it.

The Dutch exhibited there last Thursday, Circus which was the greatest ever witnessed in the Northwest, and that with one or two exceptions every feature advertised was carried out. Among the animals were elephants, lions, a rhinoceros, tiger, kangaroo, zebras, leopards, bears, wild bear, camels, goats, monkeys and other beasts, and peacocks, parrots, and other strange birds and fowls. The scene of an Arab holding up nine other Arabs is actually performed. Several leopards fought somersets over four camels and four elephants, etc., etc. The editor of the Walla Walla statesman gives Yaquina Bay the following complimentary notice: "We little thought when we visited Yaquina in 1875 on a hunting and fishing expedition, that some steamer would ever fish the little harbor. The only vessel we saw in the bay while there was a little schooner, which lay there two or three weeks waiting for a favorable wind to carry her over the bar. It would have been better for the little craft had the wished-for breeze never come. She passed out over the bar with flying colors, but on her return from San Francisco with a cargo, she got slightly out of course in crossing the bar, and in her haste to get to the bottom ground, there was at that time, no bulwark, fourteen feet of water on the bar at low tide, but considerable dredging has been done there within the last few years, and ocean steamers can now enter with safety. Yaquina Bay will make an excellent harbor of refuge. We like the country around Yaquina. The climate is lovely. The country is very hilly, but there is a charm about it which the visitor never forgets. Yaquina will be a great place some day."

1000 gallons finest machine oils at Langdon's.

Miss Clara Blain is visiting friends in Halsey. Miss Laura Goltra is spending vacation with her parents in Albany. Mr F Waller, our new County Treasurer, moved to Albany last week, with his family. Mr C W Wheeler, editor of the Waiteburg Times, was in Albany last Tuesday, and made a call. Miss Nellie Mack, of Yaquina city, on Yaquina Bay, was visiting friends in this city last week. W N Miller returned from Washington Territory last Tuesday, and will remain during harvest. Mrs Fred Egbert, of Portland, is visiting at the residence of her brother-in-law, Mr A Stalger, in Albany. Dr J W Watts was in Albany yesterday on his way to Seaside, where he will deliver the oration to-day. Mr B Sanders arrived from Prineville the first of the week, with a band of horses. He remains in another column. Mrs A B Woodin and her sister-in-law Miss Woodin, left a few days ago for the east, to be gone a few months. Mr Cummings and family, formerly of Sprague, W T, have been in Rock Hill lately, but at present Mr Cummings is at the Bay. Miss Cora Church, of Wisconsin, arrived in Albany last week, and will hereafter live with her aunt, Mrs Judge Finn, in this city. Frank Miller, who has been attending school at Eugene during the last five or six months, has returned to his home at Rock Hill. Jim Westfall was in Albany Saturday, and reports matters progressing on the O P. Jim says that he will put 1000 more Chinamen to work. The Misses Lora and Lulu Hunsaker, daughters of Rev A J Hunsaker of McMinnville, were visiting during the fore part of the week at Rev R C Hill's, in this city. Captain P C Harper, who left Albany about three years ago for Eastern Oregon, arrived in Albany last Friday, being on his way to Texas, where he goes on a prospecting tour. T L Porter, of Halsey, was in the city Monday, and left on the noon train for Chicago, where he goes as a delegate to the National Democratic Convention, which meets on the 8th instant. D V Reid, School Superintendent elect, was in Albany Monday, on his way to Whatcomb, W T, where he will spend a few weeks. Mr Reid has been engaged to teach the Harrison school another year, but will not neglect his duties as Superintendent. Judge L Finn, and oldest daughter, leave Albany this week for the Judge's old home in Vermont, which he has not seen for several months. They will be gone about three months. Judge Finn and daughter take with them in their trip the best wishes of a large community for a pleasant trip and a safe return to Albany. A. H. Peterson, Coroner elect, was in Albany Saturday. One of the best features of Mr Peterson's election was the fact that the office sought him. He did not ask for it, his bondsmen came to him unsolicited. In these days of wire pulling this is an excellent recommendation for any one. Prof J F Horner, of Brownsville, called on us last Monday. The Professor has just closed a very successful term of school in the North Brownsville district, the closing exercises being of a very commendable nature. We expected a report of the same for our last week's issue, but it failed to come to hand, which we regret, as they deserved an extended notice. Month & Seitenbach have moved to the Senders & Sternburg corner, where their old and new customers will find them with a splendid stock of goods. W. C. T. U. Regular meeting of the W. C. T. U., July 8th at 8 o'clock, p. m. All Officers please remember that this is the time for the quarterly reports and come prepared. Expect the presence of Mrs J E Foster at this meeting and request the members to be present, also extend a cordial invitation to all others to attend.

Mrs. M. S. Peters, President.

Mrs. Foster Lecture. Ladies, misses and children's fine shoes and slippers, just the thing for summer wear, the largest stock in the city at the Boot & Shoe Store of SAMUEL E. YOUNG'S.

Religious Service.

Rev H Condit, of Albany will preach in Trinity Chapel near Knox's Butte on Sabbath afternoon, July 6th at 3 o'clock.

TRAIN WRECKED.

A General Smash up in which several are injured.

Tuesday morning the worst railroad accident in the experience of Oregon railroads, occurred about four miles north of Salem on the O. & C. railroad. Monday night the stringers on the bridge over the first arm of Lake Labish were burned, on the north end of the bridge, which is about 175 feet long, leaving rails as the only support. The fire started itself without being discovered. Monday morning a while before seven the Albany express going north on the bridge at the rate of ten or fifteen miles an hour, the engine crossing in safety, but bending the rail, so that when the tender struck it it went through, and was followed by the baggage car, smoking car, and the north end of the next car, the last car remaining on the bridge. The distance into the mud and water, there being more of the former than of the latter, was about fifteen feet, enough to cause a terrible concussion and breaking up of things. There were about twenty-five in the smoking car and several in the next car, while in the baggage car there was only the baggage master. The scene presented is said to have been an intensely exciting one, and it was almost a miracle that so little injury to life was done as ever there was. In the smoking car those hurt were Mr A B McIlwain, of this city, he having an ankle slightly sprained, he having been on the side of the car that went to the bottom ground, his feet going through the window into the mud, and Rev Hill, of Salem, received a few bruises, and an Indian and a squaw, the Indian having a leg broken and receiving other injuries which it was thought would prove fatal. The squaw was not badly injured. In the baggage car, but Phillips, the baggage master, was alone. He was thrown head first through the door into the mud, going in nearly to his waist, when taken out he was nearly dead, and it is thought he cannot survive the terrible shock. In the car next to the smoking car, among several others, were Rev S G Irvine and Mrs J A Green, of this city. Although the north end went violently to the ground, a pile was driven through the floor, and the car was well jambed up, none of the passengers were injured, although it may be assured that they were completely frightened. The conductor was in the last car counting his tickets when the accident occurred, which was very fortunate for him. Six surgeons from Salem and other assistance was brought as soon as possible, and everything was done to help those who had been injured. A wrecking train was immediately telegraphed for and bridge builders were soon at work putting up a temporary structure, so that on Wednesday trains were again able to pass over the road.

COUNTY COURT.—SPECIAL TERM.

(J. Finn, Judge, John Eason and S R Claypool Commissioners.) June 27th, 1884.

A. Humphrey allowed \$2000 fee of lumber for District 21, also J J Trumble, lumber to build bridge in District 1, also John W McCreel tools and implements for No. 1.

Fees of Judges and Clerks and persons delivering poll books allowed.

Fees in license case of Theodore Bamford allowed, also in case of State against Kate Ogilby, also in State against W H Anderson.

The bonds of J K Charlton, Sheriff-elect, Horace Farwell, Treasurer-elect, David Andrews, County Clerk-elect, A H Peterson, Coroner-elect, were allowed, \$2,500 each.

Report of J H Peery, agent for school fund, was read and approved.

In matter of construction of bridge near Shedd, being constructed under supervision of John Robinson, ordered that the contractor be instructed to drive eight piles, four at each end of bridge, the price to be five dollars for each.

The following bills were allowed: G W Wheeler, lumber for Dist. 21, \$27.50; Geo. Warren, work on Court House, 1.80; M J Stewart, expense in Bamford case, 5.15; M J McHenry, expense in Bamford case, 4.19; John Schenck, conveying paupers, 7.50; Mrs E E Mills, rent of house for Mrs Sims, 5.00; Abram Sharples, medical services, rendered Russell, 100.00; George Humphrey Sheriff's fees, 77.50; J H Peery, for handling school, 46.00; L P Finn, one month salary, 75.00; S R Claypool, 9.00; John Eason, 12.50; G. H. Humphrey, 5.00.

Remember where you are to go when you wish to trade with Month & Seitenbach. They are now at the Senders & Sternburg store.

TO THE PUBLIC.

The Linn County Council P. of H. Have Adopted the Osborne Self-Binders and Mowers.

For sale by W. H. Goltra, Albany, who has sold forty binders to date and will sell as fast another car, which has been already ordered. Any wanting binders or mowers are cordially invited to call and examine the durable and light-draft Osborne, which is the only binder in the market that has the "Col. Young Knatter," of which the Scientific American so proudly speaks, and Cyrus H McCormick in his own words said, "The Osborne has the finest knitting device in the United States to-day" and he tried to buy it for the McCormick Binder.

W. H. GOLTRA, Encino Tom's Cabin.

Frank M Daly, of the Encino Tom's Cabin Combination, called on Thursday of last week just after we had gone to press, which accounts for the advertisement of the entertainment not appearing in our columns, and consequently our not being present at the rendition of the play. We had the privilege of seeing the street parade, though, in which six blood hounds, duly muscled, two denkeys and six darkeys presented some martial music of a high order. We understand that the troop is a good one.

A Good Showing. According to the report of County Treasurer Peery, now on file, in the Clerk's office the following good condition of our finances is presented: Cash on hand, general fund, \$7,136.81; County School fund, \$1,235.58; State school fund, 71.89.

The county is now completely out of debt with the above amount in the Treasury. What county can present a better showing?

Ladies, misses and children's fine shoes and slippers, just the thing for summer wear, the largest stock in the city at the Boot & Shoe Store of SAMUEL E. YOUNG'S.

Religious Service. Rev H Condit, of Albany will preach in Trinity Chapel near Knox's Butte on Sabbath afternoon, July 6th at 3 o'clock.

PLAIN TALK.

On Plain Subjects.

BY A PLAIN CHAP.

Dr. Marvin's church in Portland has been afflicted with twelve kicking members, who have withdrawn bag and baggage from the pews of that institution. One thing is certain a church or any other body of people is better off without the "kickers" on the outside than on the inside. Dissension among the members of a church or party is sure to work evil, while if it is on the outside half the time it is like a sheep butting against a train of cars. We congratulate Rev. Marvin and also the kickers.

Two men in Marion county killed another man in cold blood. One of them told on the other fellow, and according to our law he will only be sentenced to imprisonment for life, while the other will be hung, notwithstanding the fact that the former was as guilty as the latter. When I was a boy the most despised of my companions was the tall-tale, and to this day among children it is the same way. It may be different among men where life is at stake, but in my mind the man who will assist deliberately in committing a murder and then, to save his own neck, at the cost of his partner in the crime, go completely back on him and tell the whole tale, is the worst kind of an apology for a man the sun can shine on.

It is an old saying that you should never cross a bridge until you come to it. So it is true that you should not be always borrowing trouble and imagining that everything is going wrong; it will be hard enough when the trouble does come. Those people get along best in life who look on the bright side of everything, not forgetting though that evil may come, and when it does come they are generally best prepared to meet it. Were a few spent in idle time brooding over the probability of its not getting something for breakfast it would be sure to starve. It is the "up and coming" reynard that gets the first hen.

There will be many who will rejoice to hear that a big mouth can be reduced as much by continual whistling. This accounts for the enormous mouths of Salem girls, of whom it is said that they never whistle. When this idea is fully understood we will probably have whistling bands instead of brass bands, and perhaps hymns and psalms will be whistled instead of sung.

We are becoming a people of dyspeptics, and one of the reasons is the richness of the food eaten. You never see dyspeptics among very plain eaters. Fortunate is the man who is not stuffed with pies and cakes and puddings. Some people seem to think that the stomach is lined with sheet iron, provided with automatic hammers, choppers and grinders, but it is not; on the contrary it can not stand the strain of the Niagara Falls nor even Santiam sinkers. One cannot afford to be careless with one's stomach. The time to prevent a bladder is before it happens, for when the injury is done it is hard to recover from the damage done.

The many customers of Month & Seitenbach will now find them at the large store formerly occupied by Senders & Sternburg, where they will always be found, ready to receive all seeking first-class goods.

Gamblers Arrested.

Tuesday and Wednesday the Justice Court of T F Hackleman was agitated by several gambling trials, three young men being arrested for playing cards for money. The complaint was made by a young man named St. Clair, who was himself arrested, and was the first one held to await the action of the grand jury. His bonds were placed at \$75. The Vaporizing Professor was discharged.

It is to be hoped that this may break up the business among these five cent gamblers, as they call themselves, as they are no honor to the city.

Harrisburg Subdued.

As told us Harrisburg has a bully who needs attending to, although it seems that the people there are afraid to do anything. Wednesday he got into a quarrel with an old gentleman, pulled his beard and slapped him in the face, then he pulled another gentleman who advised the old gentleman to go home, and in the evening, without any provocation, thrashed a drummer of advanced age, so badly that he had to go to bed. Nothing was done, we understand. The above is as told us, and is one side of the affair.

Bargains in Bugles.

I now offer bugles, backs and everything else in my line cheap. Bargains that will suit any one who wishes to purchase. Call at once.

Notice That.

Frank Daunals is prepared to make ever and to repair spring and wool west and lounes at Daunals new factory west and adjoining Judge Strahan's.

Universalist Services.

Rev E A McAllister will preach in the W. C. T. U. Hall next Sunday afternoon July 6th, at half past three. All are invited.

Strayed.

From farm of Mills McHyde, about two miles south of Albany, a good June 18th, a large cow, about two years old, of deep red color, with the brand P on right side. A return to the above farm will be suitably rewarded.

AKAMA Messrs, Teacher.

The following is the standing of the scholars in District 24, in department and scholarship for the month commencing June 2nd and ending June 15th. Standing ranges from 1 to 50, below 50 inferior, from 50 to 65 fair, from 65 to 75 good, from 75 to 90 superior, above 90 very superior:

Table with columns for Name, S., D., and Scholarship.
