TEMP IBANCE DEPARTMENT,

EDITED BY THE Women's Christian Temperance Union THE THING TO DO NEXT.

DEAR UNION SIGNAL :-It is a source of grief to me, that, as organizer of the juvenile department, on account of impaired health, I shall not be able to travel much this winter. But my heart is in the work and all t'at can do, I will do.

First of all, I wish to urge upon al organizers of unions, to look kindly after the children's work and see that it is given a place in the interest and care of each new union organized. unions may not be out of place. The

efficacy of teaching the children temperance principles ?" There is nothing that will so quickly nterest anybody and everyboly as the children themselves. In communities where there was the greatest indifference on the subject, a temperance concert exercise by the children, has often resulted in heafty enthusiasm in the

Truths from the lips of innocen children, fall gently on the hearts strong men and women; and node their own influence, prejudice and indifference melt away.

Much may also be done by inviting pastors to preach on the subject, whil every effort possible should be made to interest Sunday School superintendents and prominent citizens in the work keep the children's work exclusively in the hands of women, although, as a rule, women make the best teachers. Good

men should everywhere be invited to assist in this work. Not only because the boys need their example constantly before them, but because it is only by experience in teaching that we learn the true ignorance of a community and the consequent need of text-books and regular modes of teaching the subject. And men, you must remember, form most of our school boards, and make most of our school superintendents, etc. Again, it is only by getting everybody interested that the juvenile work may be made a national movement and

It is still my ideal hope that we may some day have, county and district organization of our Bands of Hope, hold ing annual conventions and institutes, attended by as wise and influential people as those of our great Sunday party whose first principle is,"the great-

Bishop Foster made one of the most

scathing denunciations of the liquor traffic ever heard, at the recent Centennial Conference of Methodists Baltimore, so severe, indeed, that the Baltimore newspapers omitted it conspicuously from their reports. Let type He said : "The church of to-day, much more the church of the future, must take to its heart the duty of combining and massing its forces against that gigantic atrecity, that diabolical conspiracy, that nameless "monstrum horrendum" of Christian civilization, that mothers nine-tenths of the woes and sorrows which blight and curse our medern age, the traffic in intoxicants, which hides its deformity under forms of law. How long shall the face of our Christian age blister with this worse than pagan shame! Has the virtue of our time degenerated so low that we do not even blush of the legislated traffic in the souls of our ownschildren? That by the very doors of our homes, and our temples, an army of miscreants should, by authorism of laws made by Christian lawgivers, prosecute a work of murder and death? Are we reduced to the shame of admitting that a civilization that has grown up about our altara is impotent to cure the evil ? How can we go to the heathen with this cancer of worse than heathen infamy fes tering in our bosom ? Our church from the first has borne testimony against it, but we must renew our protest with louder and more solemn emphasis until our land is rescued. The exorcism of this demon, this vampire that has seized and preys on the very vitals of the nation, demands the combined energy of the church and the government .-

So long as we have a mitimal deb or corrency will be unsettled, and all sorts of financial schemes will be the outge with of our maturing obligations. It is also made the pretext for political emspiracies. Ever since the war, dering periods of privical excitement, the most strenno s efforts bace been made parry in power to show enermous monthly reductions in the public debt and a consequent decrease in the annual interest. This led to an unstatie and chifting policy, which was peoplexing in the last degree, for no sooner had the political excitement subsided than did also the efforts of the Just here, a few suggestions to local Republicans to make a popular financial showing. The last two months questions are frequently asked me,"How have been strikingly ilinstrative of this can we show them the necessity and policy. In November the national debt, which had been steadily diminishing for the six or eight months preceding, was somewhat increased. As compared with the record of previous months, when millions were paid off, these statements are startling. Unfortunately they are due to lavish and wasteful expenditure under la vs passed by Congress, and are thus proof of a vicious policy. Before the election we were told that if the Republicans were not retained in power the national debt would never be paid; that the national bonor would be tarnished, and all the evils possible to afflict a nation would FOR STRENGTH AND TRUE FRUIT ever, was done for political effect. The Republicans were defeated, and there are no present indications of the country It is a great mistake to attempt to going to the digs. The fact is, the national debt, for many reasons, may Dr. Price's Lupulin Yeast Gems, safely be left sline. There is no cccasion for calling in a first-class security, and adding millions each month to capital seeking investment. The present generation has done its duty with the debt. Compared with an ability to meet it, it is by no means large, and good policy dictates a reduction of tax burdens, which are oppressing the people,rather then a reluction of the debt.
