**Statue of "Liberty Enlightening the World."**

The Committee in charge of the construction of the base nd pedestal for the reception of this great work, in order to raise funds for its completion, have prepared a miniature Statuette six inches in height,—the Statue Bronzed; Pedestal, Nickel-silvered,—which they are now delivering to subscribers throughout the United States at one dollar each.

This attractive souvenir and mantel or desk ornament is a perfect fac-simile of the model furnished by the artist.

The Statuette in same metal, twelve inches high, at five dollars each, delivered.

The designs of Statue and Pedestal are protected by U. S. Patent, and the models can only be furnished by this Committee. Address, with remittance,

RICHARD BUTLER, Secretary,
American Committee of the Liberty,

### A DAILY DEFALCATION.

The Hon. John Kelly, the head and front of Tammany Hall, a man of strict integrity, an indefatigable worker, early at his office, late to leave, so burdened with business that regular meals were seldom known by him, with mind in constant tension and energies steadily trained, finally broke down!

The wonder is that he did not sooner give way. An honest man in all things else, he acted unfairly with his physical resources. He was ever drawing upon this bank without ever depositing a collateral. The account overdrawn, the bank suspends and both are now in the hands of medical receivers.

It is not the work that kills men. It is irregularity of habits and mental worry. No man in good health frets at his work. Bye and bye when the bank of vigor suspends, these men will wonder how it all happened, and they will keep wondering until their dying day unless, perchance, some candid physician or interested friend will point out to them how by irregularity, by excessive mental effort, by constant worry and fret, by plunging in deeper than they had a right to go, they have produced that loss of nervous energy which almost invariably expresses itself in a deranged condition of the kidneys and liver, for it is a well known fact that the poison which the kidneys and liver should remove from the blood, if left therein, soon knocks the life out of the strongest and most vigorous man or woman. Daily building up of these vital organs by so wonderful and highly reputed a specific as Warner's safe cure, is the only guarantee that our business men can have that their strength will be equal to the labors daily put upon them.

Mr. Kelly has nervous dyspepsia, we learn, indicating, as we have said, a break down of nerve force. His case should be a warning to others who, pursuing a like course, will certainly reach a like result.—*The Sunday Herald.*

### WHY THE "ROYAL" IS THE BEST.

The improved method by which it has been made possible to produce pure cream of tartar, has had an important bearing upon the manufacture of baking powder. By the process heretofore generally employed, it has been found impossible to remove all impurities, more particularly the tartrate of lime, which remained to such an extent as to greatly impair the quality of the cream of tartar, and to interfere seriously with the strength and wholesomeness of the baking powders into which it entered.

In the new process, which is owned by the Royal Baking Powder Company of New York, and exclusively employed in its extensive tartar works, the imported crude grape acid is so treated as to remove all vestige of tartrate of lime or other impurities giving a product before unknown—a chemically pure cream of tartar.

By the employment of these superior facilities, the Royal Baking Powder Company has made the Royal Baking Powder, as the chemists all certify, of the highest possible degree of strength, "absolutely pure" and wholesome, and with an always uniform leavening power. It is for these reasons that the "Royal" never fails to produce bread, biscuit, cakes, etc., that are light, sweet, digestible, and wholesome; the eating of which is never followed by indigestion, or any of those physical discomforts attendant upon the partaking of improperly prepared food. In rendering possible the production of a baking powder possessed of these qualifications, the improved method of refining cream of tartar becomes at once a matter of material importance to the culinary world.

### TEMPERANCE DEPARTMENT,

EDITED BY THE
Women's Christian Temperance Union

### TEMPERANCE CENTENNIAL CELEBRATION.

Under the chairmanship of Prof. G. M. Miller, president of the State Temperance alliance, the executive heads of various state temperance organizations met on Monday afternoon at 204 Third Street, to arrange for a suitable temperance centennial celebration next month, at various towns in Oregon, in accordance with the request of the different national temperance societies. The call, program and details will shortly be issued.

The following explains a circular addressed to young women, by Miss Willard. It should be read by every young lady in Oregon, and as soon as it is printed in proper form for circulation, we will send out a number of copies, hoping that our Y. W. C. T. U.'s will give it a careful perusal and a wide circulation:

President's Office, Evanston, Ill.
July 7th, 1885.

DEAR FRIEND:—My purpose in sending out a circular on "The New Profession," was to set young women thinking. I had no places ready save for young women of experience. To join the nearest local W. C. T. U. and learn how to work, is the first thing to be done. That will take time. Meanwhile, if already engaged in some breadwinning occupation, let it be by no means relinquished. Hold firmly with one hand while you move the other forward, is the rule in all sorts of climbing. Never let go present support till you see your way to something better.

Read our W. C. T. U. papers, leaflets, etc. Attend our meetings and conventions; drink in our spirit; study our methods. When you are ready, and can be recommended by local workers as a speaker, there will be meetings to address. When you have succeeded with a Band of Hope there will be juvenile societies to organize. When you have proved your power as a corresponding secretary in a local union or become its recognized indispensable factotum, there will be money to pay you for that work right where you are, or a call to some larger W. C. T. U. The Y. M. C. A. found the need of paid secretaries, to keep its work alive. At first this necessity was not strongly felt, but it grew with the years, and that policy is now adopted. In our woman's work we have developed similar experiences. If we had a training school we would advise young ladies who were recommended as suited to our work, by our own local unions, to take a course there, but we have not, as yet, been able to found a training school, therefore the necessary discipline and experience must be gained in the local union themselves. In writing of "a new profession" I meant to invite attention, in an earnest and sisterly way, to new possibilities of usefulness open for young ladies of Christian character and education. The favorable notices given by the press, and constant incoming of letters, full of inquiries, and often of intelligent devotion to a helpful life, have greatly encouraged me.

The *Union Signal* says: The fourth annual report of the permanent committee on temperance of the Presbyterian church in the United States, is on our table. It was presented to the General Assembly at its last meeting, and is of great interest as showing the advanced ground occupied by that influential religious body. The committee have published and circulated about 60,000 copies of temperance documents, including a leaflet giving the utterances of the general assembly on the subject of temperance from 1812 to 1884.

The assembly indicates two lines of work for saving the children, temperance instruction in Sabbath schools and scientific temperance teaching in public schools, and pays high tribute to the W. C. T. U. for its work in securing the latter.

It urges greater endeavor to carry out the instructions of the last General Assembly as to holding temperance conventions and institutes, for which it gives specimen programs and suggestions, acknowledges the power of the press and points out how it may be utilized, notices with approval the work of the W. C. T. U. in the several states, adding that "nearly every narrative sent in, mentions as worthy of all praise the vigilance, activity and zeal of these noble women," and urges the appropriate observance of the temperance centennial.

The permanent committee have published a four paged resume of the deliverances of the General Assembly of 1885, which ought to be largely circulated among Presbyterian churches. It can be obtained by addressing the temperance committee, 58 Barclay Street, New York.

### WASHINGTON LETTER.

(From our regular correspondent.)

WASHINGTON, AUGUST, 1st, 1885.

This unprecendented long hot spell has at length accomplished a miracle; it has drived many of the office seekers away from Washington. The White House is closed except to those invited on business. On next Friday the President and his Cabinet will leave to attend the funeral of General Grant; the President will not return until about the first of September, but will go from the funeral to the woods of New York for a months vacation. During the month of August Washington will be dull, but, owing to the new rules limiting leaves of absence the number of clerks in the various Government Offices is larger this summer than usual, and the work in all Departments is better and more promptly performed than has been known in recent times.

Notwithstanding the fact that Washington is second this summer only to Chicago in the highest recorded temperature, the city seems to be growing in favor as a summer home. Last week both the Secretary of the Navy, Mr. Whitney and Gen. Logan, purchased residences here, each paying $30,000. Gen. Logan bought a very large and substantial but old fashioned house in the suberbs of the city. Mr. Whitney's purchase is nearly a mile from the city and consists of a house of 17 rooms and a farm. He will move to it immediately.

The elections which will take place in Virginia, New York and Ohio next fall are watched very closely here.

The chance of securing Democratic control of the Fiftieth Congress are considered possible though not probable. If a Republican is elected or appointed in Oregon to fill the vacancy now existing, the Senate of the Forty-ninth Congress will contain forty-two Republicans and thirty-four Democrats, the former having a majority of eight. To overcome this majority the Democrats will have to hold all their present force and secure four additional seats. These, with the Vice President's casting vote will enable them to carry through party measures.

With the Forty-ninth Congress will expire the terms of nine Democratic Senators from the States of Deleware, Florida, Maryland, Mississippi, Missouri, Nevada, Tennessee, Texas and West Virginia. There is no doubt about any of these States returning Democrats except Nevada, and Senator Fair's personal popularity is almost sufficient to count upon his re election.

Thus may reasonably be anticipted no loss from the States already held At the same time the terms of Sixteen Republican Senators from the following States will expire: California, Connecticut, Indiana, Maine, Massachusetts, Michigan, Minnesota, Nebraska, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia and Wisconsin. The Democrats ought to secure Senators from Virginia, Ohio and New York. Not counting Ohio and New York they would have to gain three other seats to make a tie in the Senate and four to secure a majority. In Indiana there is every probability that a Democrat will succeed Senator Harrison and in New Jersey, Connecticut and Wisconsin there are fighting chances.

With the control of the Senate by the Democrats both branches of Congress will be fully in accord with the Administration, and the work of purifying every branch of the General Government can be prosecuted without further opposition.

In Ohio the Republican ticket has been nominated but the Democrats have not yet held their convention for Governor. They have an opportunity to redeem the State and elect a Democratic Senator in place of Mr Sherman, but whether they will avail themselves of it remains to be seen.

### Syrup o Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Natures Own True Laxative. This pleasant liquid fruit remedy may be had of Foshay & Mason, E W Langdon and Co., at fifty cents or one dollar per bottle. It is the most pleasant, prombt and effective remedy known, to cleanse the system; to act on the Liver, Kidneys and Bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion and kindred ills.

**ROYAL**

**BAKING POWDER**

### Chances for Health and Disease.

Man is dependent upon his surroundings for the necessities of life. Air and water are necessities of life, but impure air and impure water are most prolific sources of disease. Food is also a necessity of life, but numerous diseases are traceable to both a lack of necessary food, and an over indulgence in special kinds of nourishment. Besides these external sources of disease there are other more subtle and internal causes. Each individual inherits from his parents a certain physical constitution. Each person therefore derives his chances of health or disease from a double source, namely his inherited constitution and his surroundings in life. Sanitary science devotes attention to our surroundings. Medical science seeks to overcome the constitutional or inherited weakness by medicines that supply what is wanting in the system. Dr Haven's Dyspepsia Cure supplies that which is wanting to ensure proper assimilation and digestion of food. Try it. Free sample bottles at Foshay & Mason's Drug Store, Albany, Oregon.

**Something for the Baby.**
What a terrible affliction about the house is a cross, crying baby! A young man on the very edge of matrimony might easily be frightened from his purpose by having too much of that sort of music at the homes of his married friends. Yet babies cry commonly only when they are sick. One teaspoonful of Parker's Tonic, given the little one, will bring rest and sleep to the baby and all in the house. Only 50 cents, at druggists.

**OF ANOTHER AGE.**
Gradually Supplanted by a Better Article
Certain Old Times are Done Away.
In the general reception room of the Western Union Telegraph building on Broadway, New York, are exhibited the coarse, crude and clumsy instruments of the infancy of the telegraph. They are only relics now. More perfect machinery has superseded them.
Years ago what is styled the old-fashioned porous plaster did some good service. There was then nothing better of the kind. Now all that has changed. Science and study have gone deeper into the secrets of medicine and produced BENSON'S CAPCINE POROUS PLASTER, which embodies all the excellencies thus far possible in an external remedy. The old plasters are slow—the Capcine is rapid; they were uncertain—the Capcine is sure. Cheaper articles bear similar names. Be careful, therefore, that some thrifty druggist does not deceive you. Price 25 cents.
