Senator McPherson of New Jersey thinks there will be a red-hot time in Washington next winter, the chief point of interest being the Senate. It is probable from his point of view that there will be as much friction between the Democratic Senators and the President as between the President and the Republicans. Many of the Democratic Senators do not agree with the President in matters of policy. It is a queswhich only the future can determine how wide or narrow this disagreement may become. Senator McPherson is also confident that a radical reduction in the tariff will be made. The Democratic party is pledged to it and the public sentiment of the country demands it. The silver coinage question will also be very prominent. He is in Congress will hardly be able to accom-

ROBUST HEALTH

Is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermin constitution. In time, the poison will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each pimple, sty, boil, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

Is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alterative that is sufficiently powerful to thoroughly cleanse the system of Serofulous and Mercurial impurities and the pollution of Contagious Diseases. It also neutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the enfeeblement and debility caused by these diseases.

Myriads of Cures

Achieved by AYER'S SARSAPARILLA, in the past forty years, are attested, and there is no blood disease, at all possible of cure, that will not yield to it. Whatever the ailments of this class, and wherever found, from the scurvy of the Arctic circle to the "veldt-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists everywhere can cite numerous cases, with-in their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to
