A PERSONAL CARD. Matter in Which the Public Should Have a Deal of Interest.

To the readers of the DEMOCRAT : Why does the government spend so much money and risk so many lives in trying to capture the counter-

"Suppose he does counterfeit govy free from objectionable features in either letter-press ernment bonds and notes, surely the government is rich enough to stand any loss his act may confer !"

But the individual citizen could ill afford to be put to continual financial loss if such desperadoes were let go unwhipped of justice.

It is only the valuable thing that is 10 00 of purity and virtue that impurity lie in such matters. Postage free to all subscribers in the United and vice can be known. No one in these days would counterfeit a Confoderate bond or note.

People who commit fraud always specified, it will be understood that the subscriber do it by simulating the highest virture; by preying on the cleanes reputation, by employing the fair years back, in neat cloth binding, will be sent by mail. name of virtue with which to give respectability to vice.

Let us explain: Seven or eight years ago, so we have been informed many times in public prints, a New York state gentleman was pronouced, as many millions have been pro-Address HARPER & BROTHERS, New York. | nounced before, incurably sick of an extreme disorder. By suggestions which he believed were providential, he was led to the use of a preparation which had been for several yaers employed by a select few physicians in New York city and ore or twe other prominent places. The result was that he was cured, he whom doctors without number and of conceded ability said was incurable. Having secured possession of the formula, absolutely and irrevocably, he determined to devote a portion of his accumulated wealth to the manufacture and sale of this remedy for the benefit of the many who suffer as he suffered, in apparent, hopelessness, In less than three years, so tremen. dous became the demand for this remedy and so exalted the reputation, that he was obliged for his purposes to erect a laboratory and warehouse containing four and a quarter

acres of flooring and filled with the most approved chemical and manufacturing devices. Probably there never was a remedy that has such a meritorious name, such extraordinary sales and has accomplished so much good for the race. Unprincipled parties who flourish

only upon the ruins of others, saw in this reputation and sale an opportunity to reapla golden harvest, (not legitimately, not honorably) for which purpose they have made imitations and substitutions of it in every section of the country, and many druggists, who can make a larger profit on these imitation goods, often compromise their honor by forcing a sale upon the unposted customer.

Yes, undoubtedly the manufacturers could well afford to ignore such instances of fraud so far as the effect upon themselves is concerned, for their remedies have a constant and unremitting sale, but they feel it be their duty to warn the public against such imitations and substitutions, non-secret and otherwise. individual who buys them and public who countenances their sale alone suffer in mind, body and estate truth and righteousness among men.

The authors of some of these fraudulent practices have been prosecuted and sent to prison for their crimes, but there is another class who claim and one Sunday school journal. are told, has prostituted its high and

to give the only correct fermula ! The manufacturers inform us that It was finally adopted. they would be perfectly willing that the public should know what the true formula of Warner's Safe Cure is, (uone that have been published are anything like it,) but even if every man, woman and child in the United States were as familiar with this formula as with their A. B. C's they could not compound the remedy. The method of manufacture is a secret. It is impossible to obtain the results that are wrought by this remedy if one does not have the perfect skill acquired only by years of practice for compounding and assimilating the simple elements which enter into its composition.

The learned Dr. Foster, the honored head of Clifton Springs sanitar. ium, once said that having roughly analyzed this remedy he recognized that the elements that compose is were simple but he attributed the secret of its power to the method of its compounding, and this method no one knows except the manufacturers and no one can acquire it.

Our advice to our readers, therefore, cannot be too strongly emphasized. As you would perfer virtue to vice, gold to dross, physical happiness to physical misery, shun the Will practice in all the Courts in the State

imitator and refuse thereby to lend your aid financially to those who seek to get, by trading upon another's reputation and honesty, a sale for wares and goods which on their merits are fit only to be rejected as the veriest refuse. You can neither afford to take their injurious compounds into your system. When you call for Warner's Safe Cure see that the wrapper is black with white letters and that the wrapper and label bear an imprint of an iron safe, the trade mark, and that a safe is blown in the back of the bottle and that a perfect 1c. promissory note stamp is over the cork. You can't be imposed on if you observe these cautions.

We have the highest respect for the remedy we have mentioned and the highest regard for the manufacturers and we cannot too highly commend their dignified and conelderate tone in relation to those who would traduce their fair name counterfeited; it is only in the light and ruin the best interest of the pub-

REPORMS IN JUDALSM.

The National Rabbinical Convention of the Reformed Hebrew Church, which met at Pittsburgh recently, adopted a platform after a lengthy discussion, of which these are the main points:

We hold that Judaism presents the highest conception of the God idea as taught in our holy Scriptures and developed and spiritualized by Jewish teachers. We maintain that Judaism preserved and defended amid continual struggles and trials this God idea as the central religious truth for the hu-

We recognized in the Bible the record of the consecration of the Jewish people to its mission as the priest of the one God, and value it as the most potent instrument of religious and moral instruction. We hold that the modern discoveries of scientific researches in the domains of nature and history are not antagonistic to the doctrines of Judaism, the Bible reflecting the primitive ideas of its own age, and at times clothing its conception of divine providence and justice dealing with man in miraculous narratives.

We recognize in the Mosaic legislation a system of training the Jewish people for its mission during its natural life in Palestine, and to-day we accept as binding only the moral laws, and maintain only such ceremonies as elevate and sanctify our lives, but reject all such as are not adapted to the views and habits of modern civilization.

We hold that all such Mosaic and Rabbinical laws as regulate diet, priestly purity, and dress originated in ages and under the influence of ideas altogether foreign to our present mental and spiritual state. They fail to impress the modern Jew with a spirit of priestly holiness; their observance in our days is apt rather to obstruct than to further modern spiritual elevation.

We consider ourselves no longer a nation, but a religious community, and therefore expect neither a return to Palestina nor a sacrificial worship under the sons of Aaron, nor the restoration of any of the laws concerning the Jew-

Christianity and Islam being daughter religious of Judaism, we appreciate their providential mission to and in the spreading of monetheistic and moral truth. We acknowledge that the spirit of broad humanity of our age is our ally and the fulfillment of our mission, and therefore we extended the hand of fellowship to all who operate with us in the establishment of the reign of

We reassert the doctrine of Judaism that the soul of man is immortal. We reject, as ideas not rooted in Judaism, the beliefs both in bodily ressurection and in gehenna and Eden (hell and to know the formula of this remedy Paradise) as abodes for everlasting punishment or reward.

After the adoption of the platform holy calling so far as to advertise the question of the admission of prosethat for twenty-five cents it will send lytes without the rites of circumcision all new subscribers a transcript of the | was taken up, and a committee of five, Warner formula !
