WORTHY Of Confidence.

AYER'S Sarsaparilla is a medicine that, parts of the world, has proved its cilicacy as the best blood alterative known to medical science.

SARSAPARILLA (extracted from genuine Honduras Sarsaparilla) is its base, and its powers are enhanced by the extracts of Yellow Dock and Stillingia, the Iodides of Potassiam and Iron, and other potent ingredients.

IS your blood vitiated by derangements of the digestive and assimilatory functions? is it tainted by Scrofula? or does it contain the poison of Mercury or Contagious Disease?

THE leading physicians of the United THE States, who know the composition of Ayer's Sarsaparilla, say that nothing else so good for the purification of the blood is within the range of pharmacy.

ONLY by the use of this remedy is ft

This purely vegetable pre-paration, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure. The Regulator is safe to administer in any sondition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

Liver, Kidneys, Stomach and Spleen.

No loss of time, no interruption or stoppage of business while taking the Regulator. Children complaining of Colle, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by pa-tients exposed to MALARIA, will expel the poison and protect them from attack. A PHYSICIAN'S OPINION. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system.
