The following story-which is at- statement, but I am prepared to verify tracting wide attention from the press it fully. Bright's dusease has no dis--is to remarkable that we cannot ex- tinctive features of its own, (indeed, it cuse ourselves if we do not lay it before often develops without any pain what-

SIR :- On the first day of June, 1881,

I lay at my residence in this city surrounded by my friends and waiting for death. Heaven only knows the agony "Apoplexy," "Paralysis," "Spinal" I then endured, for words can never describe it. And yet, if a few years previous any one had told me that I was to be brought so low, and by so terrible a disease, I should have scoffed at the idea. I had always been uncommonly strong and healthy, and weighed over 200 pounds, and hardly knew, in my own experience, what pain or sickness were. Very many people who will read this statement realize at times they are unusually lired and cannot account for it. They feel auli pains in yaricus parts of the body and do not understand why. Or they are exceedingly hungry one day and entirely without appetite the next. This was just the way I felt when the relentless malady which had fastened itself upon me first began. Still I thought nothing of it; that probably I had taken a cold which would soon pass away. Shortly after this I noticed a heavy, and at times neuralgic, pain in one side of my

head, but as it would come one day and be gone the next, I paid little attention to it. Then my stomach would get afford to hazard such chances. of industry connected with that great portion of the people of the world, the farmtres. The subscription price is one dollar

Brothers. Shedd, Dec. 24th, 1885

re-investigated the subject of kidney difficulties and Bright's disease, and the truths developed are astounding. I therefore state, deliberately, and as a physician, that I believe more than onehalf the deaths which occur in America are caused by Bright's disease of the kidneys. This my sound like a rash ever in the kidneys or their vicinity), To the editor of the Rochester, (N. Y.) but has the symptoms of nearly every other common complaint. Hundreds of people die daily, whose burials are authorized by a physician's certificat as occurring from "Heart Disease," Complaint," "Rheumatism," "Pueumonis," and the other common complaints, when in reality it is from Bright's disease of the kidneys. Few physicians, and fewer people, realize the extent of this disease or its dangerous and iusidious nature. It steals into the system like a thief, manifests its presence if at all by the commonest symptoms and fastens itself in the constitution before the victim is aware of it. It is nearly as hereditary as con. sumption, quite as common and fully as fatal. Entire families, inheriting it Calapooia timber. Price and from their ancestors, have died and yet terms made satisfactory. none of the number knew or realized the mysterious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly, from convulsions, apoplexy or heart disease.

As one who has suffered, and knows by bitter experience what he says, I implore every one who reads these words not to neglect the slightest symptoms of kidney difficulty. No one can

I make the foregoing statements the step I have, and if I can successfully warn others from the dangerous path in which I once walked, I am willing to endure all the professional
