OFFICIAL COUNTY and PAPER.
CITY
Farm House Bureau.
On last Sunday evening at 6:45 a bright light was seen in the direction of Lebanon. Monday morning it was learned to be the farm house of Mr. Martin Payne, on one of his farms on the Lebanon road, about five miles from this city. Mr. Payne's son-in-law was stopping at the place for a few days with his wife and child, preparing some bacon hams for market. At about the time mentioned Mrs. Parsons with her child were in the house together when suddenly, while playing, the child swung a broom against the lamp, upsetting it, causing it to burst, the fire spreading and catching the clothes of the child, as well as in a five gallon can of coal oil in the corner of the room. Mrs. Parsons saved the child by tearing its clothes from it, so that it was uninjured. The building burned so fast that it was completely destroyed, it being impossible to do anything to save it. The loss will be between four and five hundred dollars, on which there was no insurance. What little there was in the house was saved. As it was only being used temporarily that was all.

Current Events.
A Morrow county boy aged 15 is 6 feet 2 inches tall and weighs 183 lbs. His 13 year old sister weighs 135 pounds.
Judge Deady has decided that a white man or Chinaman has a right to smoke opium at home.
Sheriff Charlton, of Lake county, a son of the Sheriff of this county, collected all the taxes of that county for last year, but \$20, and he will get that in a short time, it being against a good estate.
Lorillard, the great horse and tobacco man is dead.
The center of Oregon is a few miles from Prineville.
The foolish boycotting business has gone so far that in a certain Massachusetts town one class of people threaten to boycott the merchants if they advertise in a town newspaper and another class of people will boycott them if they don't.
The alleged largest dog in the United States weighs 192 pounds.
Parnell is the biggest man in the whole heap across the Atlantic to-day. The white man has the distinguished honor of seeing him and hearing him talk, and now the people say he holds the destiny of government in the hollow of his hand.

Whitewashed.
A fifteen year's coat of smoke and dirt is being removed this week from the DEMOCRAT'S composing room, the largest and most convenient of any in Oregon. The transformation is a remarkable one. What was as black as an ace of spades is now as white as—as we will give it up. Talk of the traditional printers towel that stands alone; the walls of our composing room last week would have literally cast the darkest in the shade. Messrs. Cox & Sprenger have done wonders. They whitewashed everything. If this is a whitewashed issue it is due to them. Being volunary in nature such remarks as the following might be looked for promiscuously scattered through our locals; but for extra vigilance:
Hang the Chinamen; but then law is law and a mob is a mob.
This is your Webfoot weather.
There are lots of men in Albany need whitewashing.
Look out there; he who walks on a high plank should keep his equilibrium.
Have you lost any chickens. Don't forget that the Chinamen do not steal all of them.
Oh, the silver question. Plasterers and printers are glad to get even a few silver halves, and so are we all.
Yes, that registry law is a nuisance, and everybody says so. They might as well have compelled us to register before eating, &c., &c.
Big Wedding at Arlington.
On Monday evening of last week Dr. C. T. Bacon and Miss Annie Bentley were united in marriage at Arlington, E. O., the occasion being one of the greatest and most joyous in the history of Arlington. The wedding was followed by a grand reception which took place at Ralston's Hall, three or four hundred being present, including the Arlington Band. After remarks by Mayor Thomas and W. G. Brown, the festivities closed with a dance. The number of guests given the happy couple was very large, over a hundred, including a parlor stove, parlor lamp, china tea set, silver knives and forks, table and stand covers, silver sugar bowl, silver butter dish, ornamental clock, silver cake dish, linen napkins, in fact everything from a broom to a saw buck and ax. This was the first wedding ever held in Arlington where the parties resided there, and everybody was in earnest. The local paper in a column article on the event made the remark: "We do not think there is a more popular couple in the city, and we doubt if another such wedding will take place here for many a long day." The bride is a former resident of Albany, where she has many friends who extend hearty congratulations.
Noticeable.
Ladies and gentlemen of Albany, the Y. W. C. T. U. invites you to another one of its pleasant socials, Tuesday evening. Applicable Remarks.
It is a good idea to practice what one preaches.
Even snails could find fault with each other. It is an easy thing to pick a flaw in anything from a pumpkin to a man.
Those who bet on the location of the O. P. bridge across the Willamette have the chances against them. It has been placed all the way from four miles above Corvallis to below this city. You cannot afford to lose new hats on such a matter.
We have reached that pass in Oregon where the five cent piece have to be saved in order to get along.
It is as honorable to saw wood as to saw meat bones, sell calico, or write a brief.
Money expended for sawing wood in Albany amounts to several thousand dollars a year. Now it goes to Chinamen. It is the fault of white men that they do not get it.
Sticktoitiveness is what counts in the race for a living.
Dull times are sometimes a disease of the brain.
There are too many who are waiting for something just suitable to their exalted natures to turn up.
It is an old saying that small leaks not attended to grow large.
A Scholarly Man.
An effort should be made to have Prof. Garrigue the eminent scholar and orator of Independence to lecture at Albany. The following is a testimonial written by the Prof himself and signed by three citizens of Independence. It speaks in stronger language than at our command of Garrigue's attainments and reliability.
"Mr. John Daley Dear Sir we the undersigned who were represented on your letter supposed to be sent to you from Independence or with our names signed to the Statement of Professor V. Garrigue Lecture Delivered the 22 of January at Independence as being a fraud we claim that we have never had signed a instrument of WRITING sent to you and we are willing to have our affidavits taken to that effect &c."
Dry Goods, Notions, Etc.
My stock of staple dry goods, notions, dress goods, etc., is now quite good for the season. I will be adding every week new goods in new and desirable shades in dress goods as well as in novelties in dress goods and notions. Parties wanting cannot do better in this city than I can do for them in style and price. I buy either from manufacturers or importers direct. I keep no bankrupt stock, but sell you new, fresh goods and warrant them.

AS OUTBREAK.
Seattle and the Chinamen.
THE LAW DEPIED.
Last Saturday night a big Chinese meeting was held in Seattle. The result was made apparent the next day when a large body of men collected the Chinamen of the city and drove them with their baggage to the wharf where the "Queen of the Pacific" was waiting to sail. The local authorities were powerless to act. Tickets were bought for 100 Chinamen who were placed on the boat, glad to get away from the place. The steamer, of course, would take none without tickets, and filled her hold with hot water for self protection. The Mayor appealed to the Governor, who issued proclamation commanding the mob to disperse; but they treated it with defiance, in fact, most of the police officers of the city are said to have looked on in a helpless sort of a way. What effect violent measures like these will have in the end is a matter of speculation. Reaction is feared. Certainly it is a fact that the law-abiding, best elements in society is opposed to such lawless measures. Through the Willamette Valley, at least there is a growing, fixed opinion that the proper way to get rid of the Chinamen is to freeze them out by not employing them. Pass it around.
WHAT SOME COLD LEAD DID.
On Monday all of the Celestials were taken before Judge Green on a writ of habeas corpus and told that they could go or not as they pleased. All who had tickets but thirty or forty said they would go. Provisions were made for the passage of about two hundred. Fifteen of the ring leaders of the mob were immediately arrested. When the "Queen" remained the other Chinamen who were taken under charge of the Home Guard to their old quarters. Some of the mob tried to take their guns from them when they were fired on by Geo. Smith, Bernard Murrell and Jas. Murphy probably killed. The excitement was immense. Further bloodshed is not anticipated.
Presentation.
At the meeting of McPherson Post No. 5, G. A. R., on Saturday evening, Feb. 6th, Messrs. Stiles & Nutting, of the Albany Democrat, caused to be presented a magnificent steel engraving portrait of Gen. Grant, finely framed and ready to hang upon the wall. D. R. N. Blackburn, in a short review of the life of Gen. Grant, made the presentation on behalf of the donors, and L. H. Montanyer, accepting the gift on the part of the Post, and relating some reminiscences of the dead General. The Post, by unanimous vote, returned thanks to the donors for their magnificent present. This is the second portrait of Gen. Grant that has been presented to the Post. Mrs. J. F. Backensto having made them the gift of a life size portrait, surrounded by a splendid wreath of flowers, on the occasion of the funeral obsequies.—Herald.
Don't Do It Again.
Religious services are being held each evening in two of the churches of the city. We must confess that it has been a long time since we have seen such inexcusably bad conduct on the part of a number of young men who kept going in and out at the door during the entire evening's service. We think those present will bear us out in the statement that there was scarcely a period of five minutes that some one was not passing in or out of the door. This was embarrassing in the extreme to the minister and his audience. The conduct of these young men in church was exemplary and many. They doubtless meant well enough, but the proper way is to go to church before services begin, or not go at all, unless extraordinary reasons dictate another course.
Death of Charles Farley.
On last Sunday evening Charles Farley, a brother-in-law of Joseph Webber, of this city died at the home of Mr. Webber on Broadblain and 2nd St., after an extended illness. Mr. Farley came to California in 1846, by the way of Cape Horn, with a regiment for the Mexican War. He has resided in Albany about two years, during the whole of which time he has been in delicate health. Funeral services took place on Monday afternoon, a large number of friends being present, many going with the remains to the cemetery where they were laid at rest.
School District No. 96.
I have just closed a very pleasant term of school in the above District, at the school house near J. R. South's. The pupils were diligent and attentive, and no case of corporal punishment, nor of severe censure occurred during the term. The neighborhood is pleasant and agreeable, and altogether, I regard it as a very desirable place to teach. This is a good community, and a very commendable school.

The Astoria is modest. We called Astoria the St. Petersburg of Oregon on account of the sailing down hill advantages. Not satisfied with that honor, it says that, like the Paris, Vienna, London and Liverpool, it will forget Perkin, Cairo and Calcutta, didn't you, better Halloran.

A candidate for the office of County Clerk at Dallas announces his candidacy in the *Register*. He says "I will not allow the office to go to a man who will not care to force myself into it. His father, John Farley, was a member of Stevenson's Regiment, and served in the Mexican War. Charles was born in New York. He came with his parents to California in 1846. In 1850, both father and mother died within two months of each other, leaving himself, four other brothers and a sister, orphans. He was the last one of the five brothers. For several years he had been afflicted with poor health, and more recently has been a great sufferer.
