WASHINGTON, Feb. 26th, 1886. In political circles the pending issues between the President and Senate continues to be the chief topic of discussion. Another chapter was added to it when Senator Morgan, of Alabama, unexpectedly and entirely upon his own responsibility, presented to the Senate a series of resolutions criticising the recent Edmunds de.

Mr. Morgan prescribes Horois treatment for offended Senatorial dignity. He says, let the Senate impeach Attorney General Garland for refusing it certain papers, if his alleged offense is of the class of offenses for which the Head of a departmedt may be impeached, and removed from office. This is the logical outcome of Mr. Garland's refusal, Let the Judiciary Committee summon the alleged offender before the bar of

the Senate. He further says let the Committee on Privileges and Elections Inquire and report whether the Senate can take jurisdiction of said alleged of fenses by a resolution of the Senate, ECZEMA, or Salt Rheum, with agonizing itching and burning, instantly regreed by a warm bath with Cuticura Scap and a single application of Cuticura, the great akin Eure.
