OFFICIAL COUNTY AND CITY PAPER.

THE DEMOCRAT During the month of April, 1886, a number of copies will be made at this office or...

These silver halves.

Last week the DEMOCRAT gave an account of the finding of six dollars in silver by Bill Clark and his party, recently on the Montebank place near this city. From Mr W. S. John we learn how the money got there. The place where it was found was once the camping ground of the Calpops. In 1875 one of the tribe, Hunch-back Mariah, whom our citizenry will remember, came to the city one day, got drunk, returned home and hid under the roots of a stump what money she had, which happened to be six dollars in silver. When she became sober a diligent hunt was made for it, but the fates willed that it should not be expended for whiskey until the year 1886. Hunch-back Mariah is dead. A son lives at the Siletz, her favorite hill; but he would have to be the fastest kind of streaked lightning to have reached Albany before those silver halves were exchanged for that which makes giddy.

Strangled.

The nearest to a horseman on the DEMOCRAT's staff stumbled into Johnny Duburille's harness shop the first of the week, and really you can not stumble into a finer stocked shop in the valley. Mr Duburille treated us so well we are going to give him away by telling what we saw. As nearly as we remember it was something like thirty patterns of splendidly made single harnesses, which Mr. D. informed us we could have for from \$10 to \$30; but 'o got he was talking to a newspaper man; a large stock of double harness; about twenty patterns of elegant side saddles; fully forty patterns of Momie dusters, hand embroidered, in artistic designs, worth from \$1.25 to \$4; in caps. All together the best stock of harness, side saddles and dusters by a large majority, that we have ever seen in Albany. The man who would buy without calling on Mr. Duburille would deserve being defeated for office.

Recovered the Horse.

Last week we announced the stealing of a horse, by a young man of eighteen, from Mr. George Warren, of Halsey precinct. After an interval of about two weeks on last Friday Mr. Warren succeeded in capturing his horse. He found it in this city in the possession of Mr. L. Senders. Mr. Senders purchased it of Mr. John Sloan, of Eugene, for \$100, and Mr. Sloan of the young man for a ten or fifteen dollar watch. That of itself should have excited suspicion, and called for investigation, particularly as the vendor was a boy, but it seems as if the love of good bargain is above that of seeing property protected. Of course Mr. Sloan had to refund to Mr. Senders, who bought the horse in good faith. An effort is being made to capture the thief; but there is little clue to his whereabouts.

Oregon Pacific Matters.

Last Monday the surveyors of the O. P. arrived in Albany and will soon begin a continuation of the survey eastward from Albany towards the Santiam. About the same time another party leaves Baker City and will survey from the Snake River westward until the Albany party is met. This shows that this road means business. The site of the bridge has been located, we are told, but it is not yet made public. Work will be begun in a few days and the laying of the track proceed towards this city. When commenced three months will probably see an engine into Albany. The present large traffic on the road is a good indication of what will be meant when the greater advantage of a track to Albany is obtained, and that will be sometime before the next harvest.

Robbery at Prineville.

On Monday night of last week the County Treasurer's office of Crook county, at Prineville, was entered, the safe opened and \$198.75 in money stolen. As it was done about 10 o'clock, and by opening the safe by the combination and key a big mystery exists in reference to it. J. F. Bushnell is Treasurer. John Backus, his clerk, discovered that there had been a theft, and announced it to Mr. Bushnell. The County Court offers a reward of \$500 for the arrest and conviction of the thief. Immense excitement prevailed in Prineville over the affair.

Chinese Row.

The Celestials in Jim's establishment on Ferry street got into a good sized gambling fight last Saturday evening, resulting in Long Legged Ah Chestnut getting a blow in the face with an iron. One of the Celestials was arrested, but nothing could be proven, as a matter of course, and the prisoner was discharged.

Batchelor Students. They are the objects of compassion with all people. The good neighbors wonder how they get along. They say, "Wonder how they do their cooking." But the batchelors are happy. They can cook. They can bake. They feel a little lousy to have the pretty girls next door looking at them when they empty soapuds or dishwater; and they are not always certain that their washing will escape criticism. But the climax of their fun comes when a neighbor, who has spelt of benevolence, sends them some cold biscuits. They were unprepared gringos! The boys would have returned the compliment; but they never could bake any bread that had the requisite amount of car wheel, chilled iron, milled-edged substantiality.

Gough Memorial.

On last Sabbath afternoon services were held in the Court House in memory of the late celebrated temperance orator, John B. Gough, the Court room being well filled with resident citizens. Dr. Capps was master of ceremonies. Short addresses were delivered by Rev. T. G. Brownson, Rev. Lockard, Rev. H. W. Webb and Rev. S. G. Irvine. Music was furnished by a choir of Albany's best singers. A class of girls recited appropriate temperance and Bible quotations and Dr. Capps read an article on Mr. Gough's life. The exercises all together were quite entertaining. The Hall was neatly decorated with flowers, black and white emblems, mottoes, etc. The last words of Mr. Gough were hung in gold letters on the wall.

Broke Jail.

On last Friday night the four prisoners in the jail at Eugene City succeeded in sawing their way to a short liberty, through the kindness of a friend who loaned them a saw, and left for parts unknown. Deputy Sheriff Cochran was sent after them, and tracked two of them, Burns and Green, into Benton county, where he found them ransacking on the farm of Greenbury Smith. Monday he took them back to Eugene, stopping for a short time in this city. The two others are believed to be somewhere in Benton county.

On motion the Marion County Prohibition platform was adopted with the following prefix: WHEREAS, A firm reliance in God is the only sure basis of confidence for the perpetuity of our free institutions; and WHEREAS, The liquor traffic is proved to be a prolific source of pauperism, insanity and crime, an enemy of the church, a destroyer of home and a menace to our free institutions, we hold that the time has come when those who love their country should unite in a determined and aggressive warfare for its overthrow; believing that the greatest political evil of the day, and as an issue must be settled at the ballot-box by the people; believing that there can be no greater peril to the nation than the existing competition of the Republican and Democratic parties for the liquor vote. Experience shows that any party not openly opposed to the traffic will engage in this competition, and that the public morals, the purity of the ballot, and every trust and object of good government for party success; therefore, be it resolved, That we are unalterably opposed to any coalition or compromise with any man or party whereby the slightest concession is made to the liquor power, and we stand firmly by the principle of an absolute state and national prohibition of the manufacture, sale and importation of intoxicating liquors, and press its just claims upon all classes of people.

Resolved, That industrial and moral worth, and not wealth, are the true standard of individual and national greatness.

Resolved, That the public lands, the heritage of the people, be reserved for actual settlers, not another acre for railroads or speculators, and that all lands that are now held for speculative purposes be taxed to their full value.

Resolved, That the importation of foreign labor under contract be prohibited.

Resolved, That we deprecate the attempt to demonetize silver, and that all paper money should be issued directly by the government, and not for the benefit of National Banks.

Common Council.

Tuesday, April 13th, 1886. Present—All members and officers. The Committee on Licenses asked and was granted further time on the Keady liquor law license. Committee was granted further time on assessment of mortgages of D. B. Monteith. Quarterly reports of Recorder and Treasurer were referred to Finance Committee. Petition for cleaning alley in Block 9 was referred to Committee on Streets and Public Property.

A remonstrance against the Keady liquor law license ordered was referred to the Committee on Ordinances. Following is the remonstrance, which at the request of several, we give our readers: To the Honorable Common Council of the City of Albany.

Gentlemen: The undersigned citizens and legal voters of said city most respectfully allege that they are informed that a petition is now pending before your honorable body praying for the passage of an ordinance embracing the provisions of what is known as the Keady Liquor Law.

And the undersigned further allege and aver that the passage of such an ordinance at this time will have no other effects than to lessen the annual revenue of the city and to indirectly bring about what is known as a prohibition of the sale of liquor, which is the very thing which the undersigned citizens and legal voters of said city do not desire to see enacted.

Such a result as last mentioned would at this time be a great injury to the material interests of the city, inasmuch as the city would only raise about \$6000 to meet these necessary expenses. From the incontrovertible facts it is quite apparent that if such an ordinance were passed and prohibition would be the result, a debt of not less than \$2000 would annually arise against the city and the much needed improvements thereof would have to stop. For these reasons we think the passage of such a law at this time very unwise and we therefore re-monstrate against the same, and ask you to withhold your assent to the same until an ordinance until our charter can be so amended as to provide for the raising of the necessary amount of revenue by taxation to meet the needs of the city.
