opinion that President Cleveland has brings his clothes along. not the slightest chance for renomination. The selemn force of this judgmeht is somewhat broken when the country remembers that Mr. Steve Dorsey gaily assured the country two years ago that Mr. Cleveland had not the slightes: chance of election.

One of the charges most frequently made against President Cleveland is that he has made many mistakes in his appointments to office. As it is not probable, however, that the Republican Senate would confirm the appointment of an unfit Democrat, the fact that only six out of 2,156 nominations have been rejected, would seem to show that the Administration has done fairly well in to destroy. So ! Now we think that were serenaded by the brass band. the matter of appointments to office.

General Sickles is a retired officer with the pay of his rank, and insists that he did not forfeit it by accepting other salaried duties. This is the question which General Stoneman settled has this country. Well, there is in in his case by resigning as a retired sight, as we say of wheat, \$346,000,000 officer. We do not think it just that greenbacks, \$312,000,000 national Calley. accepting other service should work a bank-notes, \$540,000,000 gold, and forfeiture of retired psy, since it is giv- \$300,000,000 silver-a total of \$1 .en upon the theory that it was earned 500,000,000 or \$25 per head, esti-

POOD PRAUDS.

The Shameful Use of Lime and Alum in Cheap Baking Powders.

Many food frauds, such as chicory coffee Bright in his old age has chosen to pur- or watered milk, although they are a swin-die in a commercial sense, are often tolerated because they do not particularly affect the him and honored him on this side of the health of the consumer; but when an arti-Atlantic as the friend of liberty and into the food of every family, and is relied the apostle of fraternity and peace, and upon for the healthful preparation of almost it is more with sorrow and amszement than anger that we see him thwart the into the bread to the imminent danger of the effort to establish the brotherhood of to denounce the practice in the most em-Among recent Important discoveries by the food analysts is that by Prof. Mott, the Should it prove true that his letter read U. S. Government Chemist, of large

by Parliament of the home rule princi- that of over one hundred different brands of ple, it is not the advocates of Ireland baking powder so far analyzed, comprising all those sold in this vicinity, not one of them, with the single exception of the Royal Baking Powder, was found free from both lime happy closing incident of a once illus-triou career.

and alum. The chief service of lime is to add weight. It is true that lime, when subjected to heat, gives off a certain amount Already it seems inconceivable that of carbonic acid gas, but a quick-lime is left -a caustic so powerful that it is used by moment casts the weight of his great mais, and in dissecting rooms to more quickna ne into the scale against the hopes jects. A small quantity of dry lime upon an i prayers of Irishmen, should for the tongue, or in the eye, produces painful effects; how much more serious must these miny years have been of all English effects be upon the delicate membranes of statesmen their most zealous and stanch the stomach, intestines and kidneys, more friend. Always hitherto he had declared himself against coercion and all system day after day, and with almost every measures tending to provoke the dis of the chief causes of indigestion, dyspepsia, con en that challenges coercion, while and those painful diseases of the kidneys more than once he had been for most in serious affections of the latter organs from he path of generous concession that drinking lime waters found in some sections leads to amity and concord. No voice of the West are noted in every medical

Adulteration with lime is quite as much tofore received the most emphatic condemn ation from every food analyst, physician and chemist, for the reason that, while alum is probably partially dissolved and passed off in gas by the heat of baking, it is impossible f to destroy or change the nature of the lime in any degree, so that the entire amount i the baking powder passes, with all its inju education more promptly admitted and rious properties, into the stomach. When we state that the chemists have found twelve per cent., or one-eighth of the entire weight of some samples of baking powder analyzed, tion will be fully apparent.

Pure baking powders are one of the chic wholesome food. While those are to be ob-tained of well-established reputation, like the Royal, of whose purity there has never been and cannot be a question, it is prope to avoid all others.
