A Pretty Woman's Secret.

Fear of discovery, when she resorts to false hair and dyes, is a source of constant anxiety to her. The very persons from whom she most desires to hide the waning of her charms are the ones most likely to make the discovery. But there is no reason why she should not regain and retain all the beauty of hair that was her pride in youth. Let her use AYER'S HAIR VIGOR, and, not only will the hair cease to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or faded, actually grown white, will regain their pristine freshness and brilliancy of color. AYER'S HAIR VIGOR cures

Hereditary Baldness.

GEORGE MAYER, *Flatonia, Texas*, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous.

Ayer's Hair Vigor

is *not a dye*, but, by healthful stimulation of the roots and color glands, speedily restores to its original color hair that is

Turning Gray.

MRS. CATHERINE DEAMER, *Point of Rocks, Md.*, had her hair suddenly blanched by fright, during the late civil war. AYER'S HAIR VIGOR restored it to its natural color, and made it softer, glossier, and more abundant than it had been before.

Scalp Diseases

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. It cured HERBERT BOYD, *Minneapolis, Minn.*, of intolerable **Itching of the Scalp**; J. N. CARTER, JR., *Occoquan, Va.*, of **Scald Head**; MRS. D. V. S. LOVELACE, *Lovelaceville, Ky.*, of **Tetter Sores**; MISS BESSIE H. BEDLOE, *Burlington, Vt.*, of **Scalp Disease and Dandruff**. Torpidity of the roots of the hair, which, if neglected, may result in incurable baldness, is readily cured by AYER'S HAIR VIGOR. As

A Toilet Luxury

AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, delightfully perfumed, and has the effect of making the hair soft, pliant, and glossy.

HOW SCOUT CANNON RESCUED A WHITE CAPTIVE FROM THE INDIANS.

"Uncle" Jimmy Cannon, the noted scout, recently gave to a Denver *News* reporter some interesting remiscences, from which we extract the following:

"I was at the Julesburg massacre, Jan. 10th, 1865, when 166 soldiers and forty-two citizens were made to bite the dust in ten minutes. I was wounded in three places in this fight, being cut in the forehead, shot in the side and through my leg. I was presented with a gun after this fight that was made by a gunsmith here in Denver, the story having got out that I had worn my gun out in the fight. Captain O'Brien, who is now in business at Laramie, and I alone escaped. We got to the ranch and fought the Indians off until twenty-eight women and children were given time to reach the fort, and then, while the Indians were pillaging Julesburg, we crossed the river on the ice and reached the fort, which was safely garrisoned by eleven men. The Indians engaged in the massacre were Sioux and Cheyennes under the command of Bad Wound, a Sioux, and Stone Calf, a Cheyenne. In some respects it was very much like the Custer massacre, the Indians rising right up all around the troops on three sides and pouring a dreadful fire upon us at short range.

"About two months after this the Indian massacre occurred in the Black Hills at Crazy Woman's forks. By the way, a wholly wrong story has been published by an Omaha paper about how this name came to be applied to these forks. The real story of the case is that three white women were captured by the Indians at Plum Creek, in Nebraska. Two of them were killed and the third went crazy. Two Face and Big Crow brought this crazy woman into camp. She could tell nothing about herself. Both of these chiefs were hanged on account of this woman, and the massacre grew out of this. There were 2,200 Indians came in and asked to be removed to the neutral ground, which was near Fort Kearney. While they were being transported to this ground, Two Face's son, with 350 warriors, stole upon the troops, and massacred 100 of the soldiers and fifty-two of the teamsters. The fight lasted about an hour, the wagons being used as breast-works until they were all on fire. The remainder of the troops retreated to Fort Mitchell, without further molestation from the Indians, who were joined by the 2,200 Indians, the whole move being intended as a trap about such as the Indian always make.

"An expedition was fitted out under General Conner, composed of California, Colorado and Ohio troops, and pursued this band of Indians to the Powder River, where the Indians were in turn massacred. The number of Indians killed was reckoned at 730 ... fight. This settled the Sioux ... for the time.

"It was in 1870 that I rescued Mary Brand from the Indians. She is ... living in St. Louis and has ... written accounts of the affair, as has also General Runnels, who wanted to get a pension for me.

"Creighton and Brand were the contractors for building a telegraph line, and Mary was the sister of Mr. Brand.

"The girl was brought out with them to where they were working, and the party was attacked by the Indians. Brand was killed and his sister captured. General Runnels started in pursuit with me for guide. We came well up with the Indians on the Rawhide, and as I knew that a captive could be recovered from the Indians only by purchase or stealing, I asked General Runnels to let me steal into the camp and try to get the girl away. He promised to keep his troops on a piece of high ground and not to leave it until I returned, no matter what happened. I stole into the camp in the dark and found the little girl asleep in a buffalo robe. I picked her up quietly and threw her over my shoulder without waking her, and started to my horse. When near the horse I met an Indian warrior, who asked me in his native tongue, 'Who goes there?' I replied 'guard' in the same tongue, and he passed on, going round one side of the hill, and I with my load around the other. It was not until I reached my horse that the child fairly awoke and asked me how she was to ride. 'Any way you can till we get out of here.' I replied, and sprang on to the horse. The Indian, who had gone around the top of the hill, heard me, and drawing an arrow he sent it through my body, going in at one side and starting out at the other. At once the whole party opened fire upon me, and the bullets flew around me as thick as rain. I could not reach General Runnell's and so I struck out for Fort Laramie, riding all the distance with the arrow through my body."

Uncle Jimmy was one of the first to reach the scene of the Custer massacre after the battle, and describes the way in which the bodies of the slaughtered troops were mutilated as something horrible to behold. Not a man in the lot was recognizable.

In answer to a question as to where the Indians procure their arms, the scout said that while among the Indians in Wyoming he had seen a fine rifle roll out of a buffalo robe, and he asked the squaw who had it, where she got it, and she told him that it had been got "over there," pointing to a Mormon settlement, and that they could get all of them there they wanted, and for nothing, too.

FARM NOTES.

One of the best uses for poultry manure at this season is to apply it to the cucumber vines.

Hardly anything is of more importance to the cultivator of the soil than the quality of the seed.

Cows like cabbage leaves, but it is better to feed them just after milking, otherwise they may flavor the milk.

Milk being a complete food, it cannot be produced unless complete food is given the cows for that purpose.

Another new breed of beef cattle, called the Sussex, is being introduced in this country as a rival of the Shorthorns and Herefords.

To avoid streaky butter have the cream all of the same ripeness. Never churn old and new cream together if the best butter is expected.

Unless the manure is old and well rotted it should not be allowed to touch the roots of the fruit trees, but be spread upon the surface.

An excellent home made axle-grease is said to be made of two parts tallow, two parts castor oil and one part of pulverized black lead.

Do not feed breeding sows very largely on grain. They may be kept in good condition, but it should be done by more bulky or partially green food.

To never let one acre of ground lie any longer than can possibly be helped without producing, and largely, too, is a good motto to adopt on the farm.

To find number of tons in a load of small stack of hay.—Take contents in cubic feet and divide by 512; or, take contents in cubic yards and divide by twenty. For example, in a stack eighteen feet (six yards) long, twelve feet (four yards) wide, and twelve feet (four yards) high, we would have 2,592 divided by 512—equals five tons. Or, by the second method, we have ninety-six divided by twenty—equals 4.8 tons. True, these rules are not identical in effect; and owing to the varying weights of different qualities and stacks, neither can be absolutely depended upon. Actually weighing is the only safe guide.

ONLY A QUESTION OF TIME.

"Doctor, how is Banker Jones? I heard that he was very sick."

"He has joined the innumerable caravan," said the physician, solemnly.

"What! You don't mean to say that Jones has skipped to Canada? Well! well!"

It is impossible to count a billion. Had Adam counted continuously from his creation to the present day he would not have reached that number, for it would take him over 9,512 years. At the rate of 200 a minute there could be counted 12,000 an hour, 288,000 a day, ... 105,120,000 a year.

The reduction of the National debt for the fiscal year ending June 30th, last, was $96,000,000, in round figures.

It's curious; Germans like to take a little beer with their music, and Americans like to take a little music with their beer.

The game laws of the United States want to be amended so as to make it permissible to shoot Congressmen after July 1st.

Bowen's Budget, Fort Plain, N. Y., for March, 1886, says: In the multiplicity of medicines placed upon the market, it is sometimes difficult to distinguish between the meritorious and the worthless. There are at least two excellent remedies widely used, the efficiency of which are unquestioned. We refer to St. Jacobs Oil and Red Star Cough Cure.

The wheat crops in Virginia are yielding enormously. The yield runs from 30 to 40 bushels per acre.

What Parents Fear,

Many persons—especially parents—object to many quack nostrums as likely to engender or encourage a love for strong drink. They are right. Better die of disease than of drunkenness. The use of Parker's Tonic does not involve this danger. It not only builds up the system, curing all ailments of the stomach, liver and kidneys, but it stimulates without intoxicating and absolutely cures the appetite for liquor.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are **Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse**, etc. If allowed to continue, **Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption**, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system **Hereditary Scrofula**, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

is composed of the genuine *Honduras Sarsaparilla*, with *Yellow Dock*, *Stillingia*, the *Iodides of Potassium* and *Iron*, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

Another Cut in Rates!

I beg leave to announce to the farmers of this county that I am still in business at the old stand and have just received from the East a large stock of wagon timber during this last big cut in freight rates, and I am willing the farmers and people here generally can have the benefit of the same. Anyone wishing wagon repairing done will please notice my prices:

Filling all kinds of wheels, $14 per set or $3 and $4 per wheel.
Bolsters, Sandboards and Tongues, $1 each.
Hickory axles, $4 each,
Single spokes and felloes, 20 cents each.
And everything else in proportion. All work warranted. Remember the place, one door south of Arthur's blacksmith shop,
North Brownsville, Oregon.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.
