

\$2.00 When paid strictly in advance this is the price of the DEMOCRAT; at the end of the year, \$25.00, there will be no deviation from this rule.

MAN ABOUT TOWN.

According to the M. A. T.'s understanding of the matter, this Cutting who is causing so much trouble between the U. S. and Mexico was running a paper in Corvallis, though he is a full fledged American. He published a libel against a Mexican, who made him crawlfish. Then he had a paper published in a Texas paper, which circulates extensively in Mexico. He was arrested in Mexico and sentenced to one year imprisonment and to pay a fine of \$500.00. You see there is not very much to quarrel over after all. Lots of smoke in the affair. If it comes to fighting one company of the famous Oregon Indians, you could whip the whole Mexican government.

The people of Corvallis were just about to kick a herd of pimps, thugs, etc., from their midst, when they left and came to Albany. The M. A. T. was at the boat when they arrived, three or four men and three or four females. They were well enough dressed, but for slims, sneaking Monmouth Street faces they took the lead. It was just the kind of a crowd we all want to see pass through Albany; at the same time it was just the kind railroad operations attract towards any place. That kind of people should be kicked out at double quick pace. It would be a good idea to start in early on this class of people and set a few examples which will redound to our glory as a progressive city. A place doesn't have to be full of rot to be lively.

We notice considerable boasting about what a fine galena county there is at Corvallis. As a matter of fact, we have a galena county in Linn county, on the Santiam, which will surpass it. Look out for some Linn county silver that will open one's eyes. There are pounds of minerals in our mountains.

THE O. P.

Rail laying on the extension to this city began last Wednesday, and will be pushed. The grading is nearly completed to the point where the long trestle work begins. Pile driving is going on at both ends of that. In the river the piles for the north and middle pier of the bridge have been driven, the former containing thirty-two and the latter sixty piles. The piles for the south pier, to be the same size of the north pier, will be driven in a few days. It is safe to rely on this road for wheat shipments.

A Midnight Row.

A disgraceful row occurred at Miss Lons place in the Third Ward last Sabbath morning about one o'clock. Several young men got into a general fight and bruised each other's noses, broke furniture, dishes, etc., in a most disgraceful manner. The piles for the south pier, to be the same size of the north pier, will be driven in a few days. It is safe to rely on this road for wheat shipments.

The Proper Way.

Last Tuesday about noon a hungry tramp called at the residence of John Clelan, in the Third Ward. Mrs. Clelan being at home alone. He asked for dinner, and was most properly refused, whereupon he took his seat at a table, and demanded in a peremptory manner that it be brought to him. Mrs. Clelan seized a shot gun standing in the room, and fired at the tramp. The shot was not fatal, but it was a most enjoyable evening is reported as having spent.

A Donor.

Last Friday evening a large number of the members of Rev. C. E. Davis' church surprised that gentleman and his estimable wife, at their home on Fourth Street, by rushing in on them with a beautiful supply of everything imaginable in the eating line, as well as other things of a substantial nature. It was a complete surprise, and served the worthy couple right. A most enjoyable evening is reported as having spent.

Struck with a Handpick.

George Early and Jas. Shepard had a quarrel on the extension of the O. P. last week, resulting in Early's striking Shepard a severe blow with a handpick. The injury done though was not serious. The cause of the quarrel was not known. A warrant was issued for his arrest, and Deputy Sheriff Milner, of Corvallis, was in Albany Friday looking for him. He was not found here.

One Ben Woods.

One Ben Woods got intoxicated Tuesday and raised a disturbance around the brick addition to the Foster Block in this city. He was arrested, placed in the calabos and Wednesday morning discharged. Though moneyless he claimed that he had been working for the N. G. Road and that it owed him \$150, which he was unable to get.

Another Pile Driver Accident.

Last Friday Mr. Henry Nice, Superintendent of the work at the O. P. bridge, was assisting in raising a pile when it fell on him, dislocating one of his shoulders and knocking a crown against one of his legs, bruising it badly. He was taken to the Revere House where Dr. Hill attended him.

Fire Fences.

Mr. W. H. Warner, living across the river from this town, has presented this office with a sample of peaches raised on his place which are fully covered with wax. The wax grows at Ashland and other points in Southern Oregon.

Good Work.

The Leedy threshing outfit thrashed something over 28,000 bushels in 19 days, being an average of 1500 bushels per day. Good work.

Will Star Mares.

Mr. L. Sanders has returned from San Francisco and is ready to buy good horses. Call on him at Albany.

Examine Wood's Extension Tables.

They are well worth seeing for yourself.

A Two Gun Man.

Five or six years ago J. H. Perritt married Mrs. W. H. Hanson, and since has been living with her on the Hanson farm, about two miles from Corvallis, in this county. A patch of this farm was rented by Mrs. Perritt to an old gentleman named Martin, at least Mr. Martin claimed to have rented it. On it he raised a crop of watermelons. These melons both Perritt and Martin claimed the right to dispose of. A big quarrel resulted. A week or two ago Perritt came to this city and tried to get out of the melons. Martin, however, was charging him with drawing a gun on him and threatening to shoot him; but the threat seemed to be conditional and the warrant was not issued. Last Monday afternoon the quarrel culminated by Martin appearing in the melon patch with a gun, when words followed between him and Perritt, resulting in the latter getting a shot gun and shooting Martin, the contents hitting him in the left hip just as he was turning to leave the patch. The wound was not dangerous. Perritt was arrested and placed in the county jail, being at work around his house at the time having made no effort to escape. He claims that he had the melons in his defense. The preliminary examination will take place to-day before Justice Humphrey.

Death of A. McCulley.

A. McCulley, the well known steamboat man, was killed by a horse at his farm in Yamhill county on Thursday evening of last week. Two ribs were broken and his skull and shoulder blades were crushed. He died in five hours after the accident, being at the time of his death 68 years of age. Mr. McCulley was well known all over Oregon. He came to this state in 1853 and settled in this county, where he founded the city of Harrisburg. In 1866 he represented the county in the State Legislature. In 1868 he moved to Salem, where he assisted in founding the system of river transportation. There are few people who have not heard of him. He was connected until recently with the steamer "A. A. McCulley," which a few months ago was burned at the time of his death. He was remembered in the history of the Willamette Valley. A history of his life would contain much of interest to this section of Oregon.

Fair Play.

In a communication in the Daily Herald of the 18th inst., the City Marshal is very severely criticized for not enforcing the "Thiel" Ordinance, providing for the removal of the same. At a regular meeting of the Council held May 11th, 1886, the Marshal reported the matter of enforcing the Ordinance providing for the removal of stables, and other obnoxious weeds, and asked the Council to instruct him as to what should be done. The presiding officer refused to do so, and the Council was not necessary to take any action on the matter, and the subject was dropped and the City Marshal acted accordingly, now who is to be blamed for the non-enforcement of the Ordinance.

Justices.

Albany, Or., Aug. 19th, 1886. Transferred to Salem. Mattie Allison was taken on last Monday morning to Salem, where she is now a guest of Sheriff Minto. One reason why the prisoner was taken to Salem was that the order of the Court gave Sheriff Smith the right to take her there any time after the change of venue, and he thought it best to do so. This was hastened by the fact that the Sheriff had very properly forbidden Miss Allison's mother the privilege of sleeping and communicating with Miss Allison, and she requested to be taken now. On getting there Sheriff Minto insisted on the same restrictions being carried out. The accommodations there instead of being more commodious are not so pleasant as they are here. Sheriff Smith is entitled to great credit for the strict business policy he is following in reference to the care of prisoners.

A Gentle Call.

We have received a postal card from Reading, Penn. on which is printed the following, an unnecessary item of news to most of us, as our cool nights have a tendency to make most of us sleep too much:

A DISCOVERY.

Onions inhaled cause sleep, rest and repose. The soldier on his march and the exhausted Iron Worker get great strength from eating the onion. The onion is around the neck and bruise it to make its odor thorough, and you secure sound sleep from its nightly inhalation.

DAVID R. CLYMER, Ex-Mayor of Reading, Penn.

A Norton County accident.

Last Monday while helping to run a threshing machine north of Salem Leonard Woolen met with a most distressing accident, in about the following manner. The feeder becoming clogged Woolen got on top of the machine to fix it, when he fell, his left hand striking on the cap. It was carried into the cylinder and literally torn from his body, the hand and part of the arm being carried through the machine. By prompt attention the arteries were closed and the life of the man saved.

Another Chinese Outrage.

Several days ago a body of armed men at Juneau, Alaska, drove eighty-seven defenseless Chinamen into two small boats and set them adrift in the ocean, without a cent in their pockets. The outrage is one which should be resented by the United States government. The culprit is not to blame for being on U. S. soil, and he should be treated with at least as much respect as a dog.

Flagrant.

Two weeks ago the DEMOCRAT published an item about "How Oregon girls bathe," and now the State papers are stealing it promiscuously. It was particularly smart; but it did very well for us. If the Texas Siftings were published in Oregon every other paper would be a Texas Siftings, publishing the same original articles. It doesn't do much good for a paper to attempt to be original in Oregon, as there is not an exchange that will stoop so low as to credit an item.

The Shingle Market.

Mr. F. Brown, residing several miles east of Lebanon, was in Albany Wednesday with a load of shingles, which he sold for a comparatively low price. By the way Columbia River shingles have greatly damaged the market for Linn county made shingles. A preference should be given home products.

Foot Race.

A 100 yard foot race was run at the fair grounds, near this city, Monday, between Al. Long, of this county, and Dick Patton, of Salem. The latter won by about three feet; though Long led up to about eighty yards, and showed himself to be a remarkably fast runner. The stakes were \$100.00. At least one bet of two to one on Patton was made.

Oregon Still Ahead.

N. J. Henton, of this city, has shown us a tree taken from a Siberian crab apple tree growing in his yard in this city, which has apples on it fully matured, and on the same tree blooms for new apples later on. The tree, Mrs. Henton says, is loaded down with matured fruit.

CURRENT EVENTS.

The rumor is started in San Francisco that Joe Teal of Portland is buying up horses to speculate on in the event of a Mexican war. He will get left. There will be no war. The U. S. is too strong to fight over such an issue as is presented by the Cutting case.

Two Paris sons last Sunday roasted their mother at the stake because they could not get her in a mad house. A pill and tub factory was burned at Tacoma Monday. Loss \$12,000. A Reno, Nev. Chinaman had his head knocked off by the handle of a hand car last Sunday.

Voorchell of W. T. was on Wednesday nominated delegate to Congress. General Sherman was in Portland last week. D. D. Prettyman claims to be Superintendent of the Oregon car, with authority to appoint his own Assistant. This knocks our Bulck item out.

The number of excursionists passing through Oregon this year is large. A Mrs. Robinson, of Boston, has just been arrested, charged with poisoning. Six or seven died from the effects of poison, skillfully administered by her. She was after insurance money, the depraved wretch.

The Portland and Willamette Valley R.R. is to be extended to the Summit connecting with the O. P. and making the route from Portland to the Bay thirty miles shorter than at present. John A. Logan, and Gov. Agler, of Michigan, leave San Francisco for Oregon to-day, overland, Senator Stanford furnishing them special train and coaches. They will pass through Albany Monday noon. Logan will draw a crowd.

Lucius Fairbairn, ex-Governor of Wisconsin, the New Grand Commander of the O. A. R., has been in Portland this week. It is rumored that China is arming for a war against America in China, unless the recent Chinese losses are indemnified. John Gobin, of French Prairie, Marion County, now sixty-one years of age, came to Oregon in 1837, for the Hudson Bay Co., and has lived here continually since.

Last Monday the O. P. train ran down a tawny this side of the Bay a few miles. A train hand captured it and will make a pet of it. Dr. Deardorf, once of Jefferson, has located at Fresno, Cal. The great Anarchist trial, going on in Chicago, will probably close this week.

The Portland Telegram says "Mr. Joseph Webber, Jr., for some years connected with J. W. Coffin's Insurance Agency here, and now the special agent of the Pacific Branch office of the Hartford Insurance Company, located in San Francisco, is in the city. Mr. Webber has been very ill and will remain in the city for a week or two to get some rest which he sorely requires."

Mr. Daniel Bell has sold about five hundred fanning mills in Oregon and California during the last six months ending July 1st, for \$50,781.79, losses, \$7,402.35. Threshing through the country is nearly done. Most outfits have had runs of about twenty days. The yield of wheat, although not at all equal to that of last year.

Wheat, 60 cents; oats, about 34 cents; eggs, 12 1/2 cents.

A Very Small Fire.

Last Wednesday morning about one o'clock a tick to one of the cots in the Heng Teng warehouse, south of the Revere House, caught on fire, perhaps from a late smoke by one of the inmates. The cots had a lively time for several moments in extinguishing the flames. Nightwatch Jones was about to ring the alarm; but, fortunately the services of the fire department were not required.

SOCIAL AND PERSONAL.

Rev. J. W. Harris, of Salem came up Wednesday in Harrisburg, to see the English and Kentucky stock, and their contents are pronounced as exciting as those seen at the great fair meetings of St. Louis, Long Beach and Saratoga. That Cole will be warmly welcomed here goes without saying.

Amanda, eldest daughter of John R. and Ann Alford, departed this life Sunday, August 15th, in Harrisburg, aged 10 years, 10 months and 8 days. The white-winged messenger has entered the home of the bereaved parents and borne from their hearts the most precious treasure after a patient and untiring suffering for four weeks. The darling Amanda sleeps in the quiet city of the dead. What a world of hope and comfort lie beneath that sacred mound, and what an agony of grief to the weary, grief-stricken parents but the hope of a happy reunion in the home beyond.

Our little Amanda's gone before us, And her heavenly soul flows wide and free, Where tears are wiped from every eye And sorrow is unknown. She is sleeping now like Lazarus, Upon the Saviour's breast, Where the wicked cease from troubling, And the weary are at rest.

God took her in his mercy, A lamb in toils untired, And the angels gently bore her, Across to the other side. Oh, my heart is torn and bleeding, As I kneel the cross I bow, But I know you're happy Amanda, With the laurels on your brow.

You are safe, now little darling, On that golden happy shore, Where sorrow, death and suffering, Can never pain thee more, For the angels gently bore her, Across to the other side.

Harrisburg, Aug. 15th, 1886. R. E. R. "Hard Times." This book, which we have before spoken in these columns, can be had at the book stores of Fosberg & Mason and E. W. Langdon & Co., of this city. Every reader in search of a "cure" for hard times should get a copy and read it carefully.

CIRQUE DE COLE.

The announcement that W. W. Cole's consolidated show will visit Albany Friday, Sept. 3rd, will bring joy alike to the juvenile heart and to the one that has reached the "yellow leaf" of life. The constitution of the circus includes a more comprehensive range of people than any king, emperor or president can count as his subjects. For more than two thousand years the show has been the glory of romance, has held undisputed sway in the realm of amusements. Other forms of entertainment have risen, thrived for a time, and then passed away, but the circus with
