When paid strictly in ad vance this will be the price of the DEMOCRAT; at the end of the year, \$2.50, and there will be no crty. deviation from this rule.

A MAN ABOUT TOWN.

Nothing makes a place look more citified at night than electric lights. It is true that they sputter some and dazzle the eyes ; but they are business on the first floor. The M. A. T. moves the appointment of a com mittee to investigate their cost, etcetera.

A very peculiar arrangement is a glass globe, containing a fan wheel of such thin texture that the light from the sun or even a match will turn it. One side of the fans is black and the other silver. The brighter the light the faster the fans revolve. It may be seen at Will Brothers in this city.

The M. A. T. hears of a couple State of ficials at Salem who have a dummy under them drawing full pay; but the officials get nearly all but board and washing. This builds fine houses, but it is not honorable by several hundred per cent. In fact there are men in their charge who would not vorce. stoop to the practice.

The manner of keeping order in the Court room at Salem is very commendable. There is no foolishness there. There is nothing that speaks better for county officials than first-class order during the sessions of Circuit Court. It should be had if it takes a Divorce. hundred patent knockers to secure it, and this is the way to get it :

The manner of issuing teacher's certificates in several adjoining counties is very Amos Dunham Action on promissory loose. In many counties no examination is given at all, though the school laws specially require it.

Albany, in matters of education will hold its own, if not more, with any place in the tion to recover money. N. W. It's public school is in apple-pie order, well managed, with one of the beschool buildings in the State ; the College is ably taught, and a Catholic school under good management, is in prospecto. Those desiring a musical or art education have enviable facilities for obtaining it.

The happy couples left together on the no on train for Portland on their wedding tour. They are among Albany's most estimable young people and deserve the many good wishes for prosperity and happiness which they have received. The DEMOCRAT congratulates.

Will Be Sentenced.

W. W. Saunders will be sentenced next Monday by Judge Boise. We understand arrangements are being made to appeal the Case to the Supreme Court. Should the decision of the Circuit Court be reversed the case would be remanded back to that Court for a new trial, when another effort would be made for a change of venue. Should it be sustained Saunders would hang unless his sentence should be commuted to imprisonment for life. What the termination will be is speculation.
