fore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure. The Regulator is safe to administer in any sondition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

No loss of time, no interruption or stoppage of Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief. If taken occasionally by pa-tients exposed to MALARIA, will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. TRADES-UNIONS, AND OTHER LABOR ORGANIZATIONS.

(From the Nat'l Woman's Christian Temperance Union.)

IU., Nov. 11th, 1886. To all Working Men and Women-

Brothers and Sisters of a Common Hope: We come to you naturally as our friends and allies. With such of your methods as involve co-operation, arbitration and the ballot box, we are in hearty sympathy. Measures which involve the compulsion of labor, the destruction of property or harm to life or limb, we profoundly deplore, and we believe the thoughtful and responsible among your ranks must equally deplore them, as not only base in themselves, but a great hindrance to your own welfare and success. We rejoice in your broad platform of mutual help, which recognizes neither sex, race, nor creed. Especially do we appreciate the tendency of your great movement to elevate women industrially to their rightful place, by claiming that they have equal pay for equal work ; recognizing them as officers and members of your societies, and advocating the ballot in their hands as their rightful weapon of self-help in our represen-

tative government. As temperance women, we have been especially glad to note your hostile attitude toward the saloon, the worst foe of woman, and of the workingman, and of the Home. We read with joy of the vow made by the newly-elected officers of the Knights of Labor at the convention in Richmond, Va., when, with hands raised to Heaven, they pledged themselves to total abstinence.

In addressing you at this time we wish to offer our sincere congratulations upon your achievments as practical helpers in that great Temperance Reform which engages our steadfast work and prayers, and which, as we believe, involves, beyond all other movements of this age, your happiness and elevation. Permit us to ask your careful consideration of this statement of our belief :

The central question of labor reform is not so much how to get higher wages, as how to turn present wages to better account. For waste harma most those who can least afford it, It is not over-production so much as under-consumption, that grinds the faces of the working men. Fourteen hundred millions annually drawn, chiefly from the pockets of working men, by saloon keepers and cigar dealers, means less flour in the barrel, less coal in the cellar, and less clothing for the-laborers' families, We
