When, for instance,

this bank suspended, what man in the United States stopped for a moment to examine whether or not he had one of its bills ? realizing the fact that if all the banks of the country were to break in a day, the Government would be fully responsible as long as a United States bond is good for its face value, and most of them are worth a good deal more. There is quite a ripple in the great and good Civil Service Commission over a somewhat embittered disagreement about the question of paying the expenses of the several local civil service boards while on their recent junketing visit to this city, but I hardly think the controversy will be as important as the proverbial tempest in a tea-pot. GREAT NATIONS DESTROYED BY DRINK

The great empires of antiquity might still have been flourishing but for certain destructive agencies cherished within their own bosoms. Babylon was conquered, not so much by the arms of the Medes and Persians, as by drunkenness and revelry. Had it not been for the debauchery of her kings and princesses and the general effeminacy of her people , shemight long have reared her lofty brow among the nations, with her hanging gardons and fair palaces, the admiration and delight of all beholders. Persis fell, not so much by the energy and vator of the Greek armies, as by the drunk-oness of her kings and people. Had it not been for this, that wonderful people might still have been a power in the world. Greece in her tarn, fell, not so much by the prowess of the Roman arms as by her own discord and effeminacy. Save for this, Athens, in art, science and manners, WELK TO BE might still have been the world's won-
