Agent for Fire and Marine Insurance

**Emil Fresch's HAMBURG CURE**

IT IS IMPOSSIBLE TO OVERSTATE THE VALUE OF THIS GOOD OLD GERMAN REMEDY. It is a simple, safe, and reliable remedy, and is sold by all druggists and grocers.

**SKIN, SCALP, BLOOD.**

Having been a sufferer for two years and a half from a disease called by a brute on the leg, and having been cured by the Cuticura Remedies when all other methods and remedies failed, I deem it my duty to recommend them. I visited Hot Springs to no avail, and several doctors without success, and at last my principal doctor, Mr. John P. Finlay (to whom I shall ever feel grateful, spoke to me about Cuticura Remedies. I tried them at once, and in a few days I was cured. I think I can show the best blood and skin ever manufactured. I refer to the Cuticura Remedies, Dr. D. C. O'Connell, and Dr. D. C. O'Connell, and Dr. D. C. O'Connell.

**SAVED MY MOTHER'S LIFE.**

Ever since I can remember, my mother has suffered from a skin disease. Nothing would do for her but Cuticura Remedies. She had the best medical talent, but they all did her no good. She suffered with her skin disease, and never knew a well day. She would have to sit up all the night, holding her head, and she had no peace. She used all the best known remedies in the country without effect. I tried her to try your Cuticura Remedies, and she took it, and she has been in all about six or seven days, and she is well again. Her skin is entirely healed, and her health is restored. She has not had a day's sickness since. I can not help stating to you about your mother's life. I can not find words to express my gratitude. I have advised several of my friends to try your Cuticura Remedies, with results as above stated.

**PINKETTES,** black-head, cheap and oily skin prevented by Cuticura Medicated Soap.

**Sneezing Catarrh.**

The distressing sneeze, sneeze, sneeze, the acrid, watery discharges from the eyes and nose, the painful inflammation extending to the throat, the swelling of the mucous lining, causing choking and sneezing, the ringing noise in the head and spinning headache, how familiar these symptoms are to the thousands who suffer periodically from head colds or influenza, and who live in ignorance of the fact that a single application of Sanborn's Radical Cure for Catarrh will afford instantaneous relief.

**PAINS AND WEAKNESSES OF FEMALES**

Instantly relieved by the Cuticura Remedies. Greenish, watery discharges, and itching, soreness, and burning of the vagina, and all other ailments of the female system, are cured by the Cuticura Remedies. It is a simple, safe, and reliable remedy, and is sold by all druggists and grocers.

**Linn County Bank, COWAN & CUSICK, ALBANY - OREGON.**

**Russ House. J. GIBLIN, Proprietor.**

This house is now open and furnished with the best new furniture. Everything clean and commodious, offering to the general public superior accommodations to any in the city.

**WASHINGTON.**  
(From our regular correspondent.)

WASHINGTON, D. C., Nov. 25, 1887.  
Among the prominent Democratic members of the House who have arrived at the Capital, I may mention the Hon. R. P. Land, of Missouri, who is often referred to as "Silver Bland," on account of the leading part taken by him in the legislation that authorized the coinage of the "dollar of our daddies," and also because of his views as to the probable course of legislation in the Fifty-fifth Congress. He thinks a compromise tariff bill will pass, and that it will include the repeal of the tobacco tax; he believes that the tariff should be largely increased and there should be a reduction of duties on other imports. He thinks there will be no financial legislation except in so far as tariff legislation affects the finances.

The question of changing the time of the meeting of Congress, is again, as well as the terms of the members, being agitated, and there are numerous advocates in the affirmative, while on the other hand, the dissentients can be counted on one's fingers. I have yet to see a convincing reason why Congress should meet, as it does at present, thirteen months after the election of its members, but, on the contrary, there are many grave objections to the system now in vogue, among which I may mention that Congressmen should come fresh from the people; that their successors should not be elected until the incumbents serve out their first term; that the progressive spirit of the age.

Our republican friends are congratulating themselves upon the fact that they now control the delegations in Congress from twenty states—just enough to elect a president in case there should be a failure to elect by the electoral college. While we are not so heartless and uncharitable as to deprive our friends of this crumb of comfort, yet it is due to candor to say that it would be hoping against hope to expect to secure a president upon so remote a contingency. We believe that not one intelligent man in ten thousand can be found who seriously entertains the belief that either the labor or prohibition party can secure a single electoral vote out of the forty that make up the electoral college. The light of common sense proves this beyond a reasonable doubt, or in fact any doubt.

Whenever a slick-tongued stranger approaches you with a proposition to give you something for nothing; something that you can dispose of at an immense profit, some scheme by which you can make a fortune in a few minutes, the time has arrived for you to exercise all the caution that you can in your make-up. Be very careful what you say to him, and if he should hint at having you sign your name to a little agreement, contract or something, just to show he has met you, tell him you will think it over for a year or two, and then if it seems advisable you will do so.

The sale of the Chicago Times calls attention to the wreck of what was once a magnificent property. Ten years ago the paper was a power in the West, notwithstanding the license which with it was edited. It was bold and fearless in its policy, its editorials were well written and incisive, and as a dragnet of news it was not surpassed by the best metropolitan papers. After Mr. Story's mind became impaired it steadily deteriorated, but not as much as might have been expected, considering the internal dissensions in the office. We trust that under its new owners it will regain its former influence and become a powerful aid in spreading the principles of a true democracy.

The annual report of Gen. Rosecrans, register of the treasury, shows that at the end of the last fiscal year of June 30, 1887, of the \$893,493,312 of government registered bonds outstanding, \$1,000,000 or thereabouts were deposited with the treasurer by individuals, associations, trustees, etc., in this country. Of the latter amount savings banks held \$200,000,000 and insurance companies \$55,000,000.

A correspondent of the Chicago News says if Lamar is appointed to the Supreme Bench the republican senate will not confirm him, on the ground that he was in the Rebellion.

The November Magazine of American History is one of the brightest and most richly illustrated issues of the year. Oliver Cromwell's portrait appears as its frontispiece, incident to the romantic story of the first settlement of Shelter Island, in 1652, told by Mrs. Lamb in her happiest vein, entitled the "Bible" of the Revolution, by Philip Schaff, D. D., contributes a second paper on the "Relation of Church and State in America." A very pleasantly written sketch is by Walestein Rock, on the "Hamilton Ousia Academy in 1784," the germ of the Hamilton College. The fourth article in this number is a study by Charles H. Peck of the public life and character of "Aaron Burr." Then follows from G. Brown Goode, of the Smithsonian Institute at Washington, "An Interesting Dialogue in 1875, between Bacon, the rebel," and John Goode, of Whitby." Judge T. Farwell, of Washington, contributes "Hercules Grosvenor's Practical Advice to the Reconstructivists in Mississippi," and T. J. Chapman, A. M., writes an interesting paper on the "Religious Movement in 1800." The shorter articles are varied and interesting. Price, \$5 a year. Published at 743 Broadway, New York City.

**CURIOS FACTS.**

At a recent christening the baby wore a robe of lace 130 years older than herself.  
An Illinois farmer has attached a churn to his wagon in such a way that the movement of the wagon churns his milk.  
Louis Bayden, a blind man who died at Worcester, had his sense of touch so developed that he could tell the denomination of a bank note by feeling it, and in weeding a large garden he could always distinguish a young vegetable plant from a weed.  
A large flock of "chimney sweeps" took to roosting in a chimney in the house of John A. Butts of Thomaston, Ga. One might have covered the chimney with a board and early next morning replaced the board with a bag. When he removed the bag it contained 567 imprisoned birds.  
An orange grower near Lake Eustis, Fla., found on one of his trees a fruit that seemed to be about two-thirds orange and one-third lemon per seimmon. He dug down to the roots of the tree and there found the living root of a persimmon tree twisted among the roots of the orange.  
A Brooklyn horse has an extraordinary passion for raw eggs. He quietly watches the hens that frequent his manger until they leave their nests, when he noses about until the eggs are discovered, then he breaks and devours them with gusto. The effect of this strange diet upon his physical condition is beneficial, and his sides have become round and glossy.  
A most remarkable imitation of black walnut has lately been manufactured from poplar, the quality and appearance of the article being such as to defy detection except upon very close examination. To accomplish this, one part of walnut peel extract is mixed with six parts of water, and with this solution the wood is coated. When the material is half dry, a solution of bichromate of potash with water is rubbed on it, and the made walnut is ready for use.

Our republican friends are congratulating themselves upon the fact that they now control the delegations in Congress from twenty states—just enough to elect a president in case there should be a failure to elect by the electoral college. While we are not so heartless and uncharitable as to deprive our friends of this crumb of comfort, yet it is due to candor to say that it would be hoping against hope to expect to secure a president upon so remote a contingency. We believe that not one intelligent man in ten thousand can be found who seriously entertains the belief that either the labor or prohibition party can secure a single electoral vote out of the forty that make up the electoral college. The light of common sense proves this beyond a reasonable doubt, or in fact any doubt.

**IS MAN A BAROMETER?**

Why is it that certain winds always make rheumatism cringe with pain?  
Eighty-six per cent of the signal service weather predictions are accurate!  
The only indications our fathers had for foretelling weather were aching limbs, twinging joints and painful corns!  
These, though crude, were usually correct. The body is unquestionably an excellent barometer, and physicians often prescribe a change of air, so that the system may find an agreeable atmospheric condition.  
Weather changes indicate themselves by pains called rheumatism. Why bad weather should cause such pains is a mystery!  
Does the pain really lie dormant in the blood, to be made active only when the wind blows from some unfavorable quarter?  
Last week a prominent man left town on a business trip. Two days later he, who had always been apparently strong and well, was sent home a corpse.—"Rheumatism of the heart!"  
Rheumatism is like the Indian in ambush, sure to kill you if not killed by you. It is to patient and physician one of the most vexatious of diseases.  
At first many thought it to be a trouble of the joints, but all outward applications left the cause unbenefited.  
Then, making like pains in the muscles, it was thought to be a muscular disease; but the same unsatisfactory results followed external treatment.  
Now, however, it is universally acknowledged that rheumatism is a "fery condition of the blood caused by the presence of uric acid in the system!"  
Everybody dreads rheumatism.  
It is very prevalent at this changing time of the year. It was formerly seldom known except among those who worked much out of doors. Now it invades the hut, the palace, the executive mansion, the senate chamber and the throne room; all sorts and conditions and races of men and women it attacks at all times, and all far it!

Mrs. Swift (wife of Dr. Lewis Swift, the famous comet finder of Rochester, N. Y.) was one of its recent victims; and how very common it is among ladies!  
She suffered great anguish and fear!  
Why does this acid remain in the system?  
The kidneys being diseased cannot remove the acid as in health, hence the system is poisoned by its presence, and rheumatic pains, stiff joints, tendons and muscles are the result. There is but one scientific treatment to regulate the kidneys by Warner's safe cure to "put out the fire in the blood" by Warner's safe rheumatic cure. These world renowned remedies, taken by bottles in alternation, as they should be, neutralize the uric acid already in the blood, and prevent further accumulation.  
Mrs. Dr. Swift used these remedies with great success, in alternation, and was completely restored to health.  
We understand that the proprietors guarantee them with the strongest assurances, but this were scarcely necessary, for is not their praise in everybody's mouth?  
We cannot prevent the ill wind blowing, but we can get the better of it by so fortifying the system that we can ignore it when it is doing the worst to "give us a pain."

Speaking of Bobby Lincoln, one is reminded of the remark once made by a bright woman about a stupid man of famous parentage in New England. "It is a thousand pities," she declared earnestly, "that such a father as his couldn't have a son."  
Boston, Nov. 13.—Jesse Ponteroy, the boy murderer, who is now a full grown man, made an attempt to escape from State prison Friday morning, by sawing through the bars of his cell with a piece of steel. In some manner not explained, the gas in his cell exploded, rendering him unconscious, and the officials found him in that condition, at the same time making the discovery that the bars were cut.

**The First Sign**  
Of falling health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the antacid system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

**Failing Health.**  
Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alameda, Minn.  
I have used Ayer's Sarsaparilla in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alternative, and must say that I honestly believe it to be the best blood purifier ever compounded.—W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

**Greenspepsia Cured.**  
It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and used a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Hazley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic avenue, Brooklyn, N. Y.

**Ayer's Sarsaparilla,**  
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1 six bottles, 25.
