### INFANTILE SKIN DISEASES.

Our oldest child, now six years of age, when in his first months was attacked with a violent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little child's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotchy, and malodorous. He had no rest at night, no peace by day. Finally, we were advised to try the Cuticura Remedies. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedy saved his life, and to-day he is a strong, healthy child perfectly well, no repetition of the disease having occurred.

**BOOTS, SHOES AND SLIPPERS.** I am now receiving my fall and winter stock of boots and shoes, I have as nicely a fitted up Boot and Shoe Store, and as complete a stock as any this side of Portland and very few better in Portland. I buy all my boots and shoes direct from manufacturers and am authorized to warrant every pair no matter how cheap. My aim will always be to give as good value for the money as possibly can be done.

**THOUSANDS OF CHILDREN** Are born into the world every day with some venereal affection, such as milk crust, small pox, scurf, or dandruff, more or less in the form of eruptions, the itching, burning and disfigurement of the face and limbs. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedy saved his life, and to-day he is a strong, healthy child perfectly well, no repetition of the disease having occurred.

**BABY'S SKIN** and scalp preserved and beautified by Cuticura Medicated Soap.

**Constitutional Catarrh.** No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind,—one or more, and the whole system, yield to its insidious influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most important functions. Ignored, because it is so often understood, by most physicians, it is usually treated by quacks and charlatans, those suffering from it have little hope to be relieved of this side of the grave. It is time that the popular treatment of this terrible disease by remedies within the reach of all should be abandoned as completely and unreservedly. The use of Cuticura Medicated Soap, in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in its action, and relieves all the most distressing symptoms, clearing the blood, sweetening the mouth, removing the source of infection, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

**KIDNEY PAINS, Strains and Weaknesses,** Relieved in one minute by that marvelous Antidote the Pain-Expeller, the Radical Cure. The first and only reliable instant relief. The Cuticura Medicated Soap, in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in its action, and relieves all the most distressing symptoms, clearing the blood, sweetening the mouth, removing the source of infection, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

**SEPTEMBER.**  
1. One of the most ridiculously foolish things in the way of partisan legislation is a bill introduced in the Senate by Senator Chandler, to regulate the holding of congressional elections in South Carolina, Florida, Mississippi and Louisiana. It provides for the appointment by the president, with the advice and consent of the Senate, of four supervisors of election for each congressional district in the states to which the measure applies, who are required to sub-divide the districts into a sufficient number of voting precincts. In each precinct the Circuit Court of the United States is to appoint four inspectors and poll clerks, who are to make registration of voters and conduct congressional elections. The supervisors are to act as canvassing boards, to receive returns and ascertain and declare the result. The supervisors and inspectors and poll clerks are to be divided equally between the two principal political parties. This would be taking the whole matter of electing congressmen out of the hands of the state and putting it into the hands of the United States. This is a clearly violative of the rights of the states that Billy's bill will never reach a third reading in a republican Senate. The object of this bill is so apparent that no one of ordinary intelligence could be deceived by it. Chandler wants to pave the way for a repetition of the crime of stealing the presidency so successfully practiced by his kinsman, Zack Chandler, in 1876, assisted by Sherman, Edmunds, Garfield and other leaders of his party. But Chandler may at once make up his mind that the people will have none of it. Never will he have another opportunity to cheat the people out of their clearly elected president.

### OREGON'S TRADE.

Oregon is one of the largest and most fertile of the whole sisterhood of States. The attention of all the United States will now be drawn to it in connection with the completion of the great railroad reaching out to San Francisco. Its area exceeds 95,000 square miles, or more than double that of New York. It is equally as fertile and has a climate as genial and as equable as that of Georgia or Alabama. With the exception, perhaps, of citrus fruits, sugar cane and cotton, there is nothing that is grown within the whole area of the United States that cannot be raised in it. The grape grows in the southern portion, and even the orange, we believe, can be raised successfully in the southern portion of the Willamette Valley. Were it populated as is New York State it would today have twelve millions of people within its confines, while its chief city would be one of the greatest in the world.

From 1850 to 1880 the population, roughly speaking, was nearly doubled every ten years. In seven years it has increased about 50 per cent. In 1890 it will not fall short of 300,000. The state produced this year of wheat 45,000 tons, and 12,000,000 pounds of wool. The three great staples of wheat, wool and salmon will this year reach a value of seventeen million dollars. The total value of leading articles is not less than twenty millions of dollars. A brief resume of the present status of trade between San Francisco and Portland will be acceptable. The data are given for the year ending July 31st, 1887.

The actual tonnage of vessels leaving San Francisco for Portland during the year was 135,847. The exports from Oregon to San Francisco were \$4,350,000 in value.—S. F. Journal of Commerce.

The cost of running the saloons of Albany, that is, the license, rent or interest on value of property, and help is about \$20,000 a year, that of the churches about \$7,000 and of the schools about \$8,000, the two latter about balancing merely the running expenses of the former.

The business of the Farmers and Merchants Co. of this city, since it opened its books last week, has been largely the most sanguine expectations of its stockholders. Some of the best agents of the state have accepted positions as canvassers for it.

The Southern Pacific's route now run from the Columbia to the Mississippi, a passenger can go from Portland to New Orleans in one car.

**For Toilet Use.** Ayer's Hair Vigor keeps the hair soft and pliant, imparts to it the lustre and freshness of youth, causes it to grow luxuriantly, eradicates dandruff, cures all scalp diseases, and is the most cleanly of all hair preparations.

**AYER'S Hair Vigor** has given me perfect satisfaction. I was nearly bald for six years, during which time I used many hair preparations, but without success. Indeed, what little hair I had was growing thinner, until I tried Ayer's Hair Vigor. I used two bottles of the Vigor, and my hair is now well covered with a new growth of hair.—Judson B. Chapin, Fitchburg, Mass.

**HAIR** that has become weak, gray and faded, may have new life and color restored to it by the use of Ayer's Hair Vigor. My hair was thin, faded, and fell out in large quantities. Ayer's Hair Vigor stopped the falling, and restored my hair to its original color. As a dressing for the hair, the preparation has no equal.—Mary N. Hammond, Stillwater, Minn.
