

The Democrat.

NOTICE

Notice is given that all delegates to the State Convention will be charged full fare by the railroads in going to Pendleton, and one-fifth fare returning to their homes.

B. GOLDSMITH,
Chairman Dem. State Central Com.

James G. Blaine will return to the United States about June 5th.

Delegates to the convention to-morrow will find the door at the DEMOCRAT office wide open. Come in, gentlemen.

Give us a plain, open, old-fashioned live vote convention to-morrow, with harmony, and the voters of the county will return 300 majority for the ticket in June.

The two county commissioners elected at the next general election shall draw lots for the long term. The long term is four years and the short term is two years.

The democrats of Lebanon instructed their delegates to favor the live vote mode of voting in the convention to-morrow. Gentlemen of Lebanon, you are very level-headed democrats.

Every candidate whose nomination would produce discord and dissension, (if there be such), should step down and out, this being much better for himself and party than to get left at the polls.

The high character and personal integrity of the delegates that make up to-morrow's democratic convention give well rounded hope that harmony and a good ticket will be the results of its deliberations.

Let the convention be careful in selecting candidates for the legislature. Select men of strict integrity, ability and sobriety, and democrats who are in hearty sympathy with the great reform movement now attracting the attention of the whole country.

Rule of action for each delegate to-morrow: The interest of the people, first. The interest of the democratic party, second, but which always follows as a necessary consequence of the first. Third and last, the interest of particular candidates.

Fully nine-tenths of the democratic voters of the county favor the adoption of the live vote mode of voting in the county convention to-morrow. Gentlemen of the convention, will you strengthen and vitalize the party by adopting this almost unanimous will of your constituents?

There is a jack-in-the-box in Marion county that takes a spasmodic fit of braying every two years, and just preceding the general election, trying to bring himself into favor as a ticket before the republicans just as that party is looking around for candidates. Each succeeding year this man, Geer, by name, proves himself a blow-hard and then sinks out of sight until another election. He is a harmless colt.

Gentlemen of the convention, remember that grave and momentous interests may hang on the result of your deliberations to-morrow. A United States Senator will be elected to succeed Senator Dolph next January. Nominate candidates for the legislature whose character for ability and integrity are beyond question, and then a county ticket that will strengthen them in the campaign.

The welfare and success of the democratic party in this county next June should outweigh all mere considerations of personal choice among delegates for the nomination of some particular man for some particular office. Nominate good, competent men for all places whether they be your personal choice or not.

We hear of quite a number of republican farmers who declare they will never support another high tariff man for president. Well, the farmer, among all voters of the country, has the least reason for supporting such a candidate, because he bears all the burdens and receives practically none of the benefits of our robber tariff. Then why should he vote for such a candidate?

The Oregonian, hyena like, digs away at the grave of the late Vice-President Hendricks, intent upon finding something to satisfy its morbid ghoul-like appetite. Not satisfied with this bitter, malvolent attack of slander upon Mr. Hendricks himself, it recently was engaged in cruel warfare upon Mr. Hendricks' widow. The dead man in his grave, or a defenseless, mourning woman cannot, hope to escape from the devilish words of hate that so often characterize the columns of the Oregonian.

Mr. Candidate, suppose you do not get the nomination to-morrow. Are you willing to help elect the man who does? The answer to this will tell whether you are a fair minded man or not. If you should be nominated, you would expect your defeated opponent and his friends to help elect you, and, if so, he has the same right to expect you and your friends to help elect him in case he should be nominated. If you cannot consent to this you should not go before the convention. We are satisfied every candidate will agree to this.

The Statesman rushes in upon John P. Irish with its protection lance unsheathed and asks that gentleman to tell the Oregon farmer how he will be benefited by admitting duty free, the following articles, wheat, butter, cheese, rye, barley, corn, etc. As the Statesman says, the duty on wheat imported from a foreign country is 20 cents per bushel and 10 cents on corn. Now is any farmer in Oregon so densely ignorant that he can be made to believe that this duty on wheat enables him to get a better price for the wheat which he sells? Does not our farmer have to send his wheat to a foreign market to sell it? Would wheat be lower in price here if that duty of 20 cents were removed? Would wheat be any higher here if the duty were increased to 50 cents per bushel? The same may be said of corn, butter, lard, beef and pork, hams and bacon. These articles all have to be sent abroad to find a market, and the fact that there is or is not a duty on them would not in any manner affect their price. Does the Statesman know that as a matter of fact, the duty was put upon these articles merely to deceive the farmer by making it appear before his unsophisticated eyes that he too is protected as a compensation for the tax which he is compelled to pay upon the protected articles of the country? We ask the Statesman to answer no several questions above.

A BEAUTIFUL PICTURE.

The tariff on plate glass is 47 per cent. That is, when a dealer ships plate glass into this country from a foreign country, he has to pay a duty of 47 cents on every dollar's worth of glass he imports. Let us see. A New York merchant ordered \$5000 worth of plate glass from Paris, and when it arrived in New York he had to pass it through the custom house, where he was required to pay \$2350 duty on the \$5000 worth of glass. When this merchant sold this glass to western retail dealers, of course he added this 47 per cent to the price of it. When the retail dealers sold it to the various individuals who bought it to put into buildings, they also added the 47 per cent to it, so that the man who used the glass had to pay \$1.57 for every dollar's worth which he used. This is just what a protective tariff is designed to do. What a beautiful, glorious privilege it is for Americans to pay such taxes. But this is not the most beautiful phase of this subject. The kind of glass spoken of above is used mainly by the rich. It is all right then, says the farmer, mechanic and the poor generally. For the rich can afford to pay high taxes as the laws are nearly all made in their interest. Is it all right? Let us see. Another New York merchant goes to Paris and purchases \$5000 worth of common window glass, such as is used by the farmer, the mechanic and people of small means generally. When this merchant arrives at New York with his glass, which he expects to sell to the common herd of humanity, he is politely informed that before he can put this glass on the market for sale, he must pay a duty of 92 per cent. That is, on every dollar's worth of glass that he bought he will have to pay 92 cents duty on it for the privilege of selling it. This duty on the \$5000 worth of glass amounts to \$4600 or within \$400 of the original cost. When this merchant sells this glass to the retail dealers of the country he adds this 92 per cent or 92 cents to every one dollar's worth of the glass. When these retail dealers sell to the farmer, the mechanic, the new settler who is bending every nerve to make ends meet to build a cheap house to protect his family from the storms of winter and the heat of summer, this 92 cents on the dollar is added to the original cost and the one who uses the glass has to pay it. It's all right, is it, for the poor man to be compelled to pay a tax of 92 cents on every dollar's worth of glass which he uses, while the rich man pays only 47 cents. Let us trace \$10 worth of each kind of glass from Paris to Albany, Oregon, and see what it will be put upon the market for. Take the common glass. Freight and insurance to New York is \$1. Duty at custom house, \$9.20. Freight to Albany, 30 cents. Profit dealer, \$7. Adding the original cost, freight and insurance and profit of dealer, we find that the \$10 worth of glass will have to be sold in Albany for \$27.50. Now, following \$10 worth of plate glass, (used mainly by the rich), from Paris to Albany, adding freight, insurance, duty and profit and we find it can be sold in Albany for \$24, thus discriminating largely in favor of the rich. No wonder non-protected people are aroused and making efforts to throw off this robber incubus that presses down so heavily on them.

A BONUS.

John Sherman's plan to reduce the treasury surplus is to remove the duty from sugar, putting that article entirely on the free list, and then give a bounty to the sugar producers of the country. That is he would have Congress pass a law by which every sugar producer in the country should receive so many dollars or cents on every barrel of sugar produced. This money is to be paid out of the treasury as a gift or bonus to the producers of sugar. Farmers, laborers, mechanics and other non-protected classes are to be taxed to give a few sugar producers in Louisiana a bonus upon the sugar which they make. He says this is to protect our producers and manufacturers against the cheap labor of Europe. Sherman still relies on the ability of republican leaders to deceive and beguile the farmers. Why does not John Sherman propose to pay the farmer a bonus on the wheat he raises? Does not the Oregon farmer come in direct, immediate competition with the pauper labor engaged in raising wheat in Southern Asia? The farmer pays freight on his wheat to Liverpool, and then is compelled to sell it in competition with wheat shipped from the East Indies where laborers are paid from 18 to 25 cents per day. We repeat here what we said in these columns more than a year ago: It is just as reasonable, just as fair and honest to pay the farmer a bonus on his wheat, as it is to compel the farmer to pay a tax in the shape of a tariff duty, which is nothing more nor less than a bonus to the manufacturer. But under our present protective tariff laws, the farmer is compelled to pay this bonus tax every time he buys any one of the 4000 articles now subject to tariff duty. But all over the country farmers are waking up to the gross injustice to which they are subjected, and many of them who have heretofore adhered to the republican party declare their purpose no longer to support the advocates of a robber tariff.

The following is the Marion County Prohibition ticket: For the legislature, T. W. Davenport, Silvertown, Wm. Simpson, Silvertown; H. S. Jory, Salem; J. D. Derby, Sublimity; J. G. Eberhart, Champoux; Sheriff, Alex. Thompson, Sublimity, Clerk; W. Ray, Woodburn, Recorder; V. H. Reed, Turner, Treasurer; W. P. Johnson, Salem, Superintendent; W. T. Van Scoy, Jefferson, Assessor; L. Barzee, Jefferson Commissioner; J. D. Hunt, Aurora; H. Galven, Marion.

What am I to do? The symptoms of Biliousness are unpalatable, not too well known. They differ in different individuals to a no extent. A bilious man is seldom a breakfast eater. To frequently, also, he has an excellent appetite for liquids but some for solids of a morning. His tongue will be nearly or entirely coated with a white or yellowish film, it is rough, at all events. The digestive system is wholly out of order and Diarrhea or Constipation may be a symptom or the two may alternate. There are also Hemorrhoids or piles or loss of blood. There may be giddiness and often headache and dizziness or flatulence and tenderness in the pit of the stomach. To correct all this and not effect a cure try Green's August Flower. It cures biliousness and its attendant ailments.

Oregonians like the rains of winter. Sunshine is good in the place, and so is rain. Working together they are powerful aids in the prosperity of a country. Marvellous wheat crops; large potato yields; fine fruit; and many other things are the result of an unobscured stock of greenness and produce at Wallace & Thompson's, who, rain or shine, are up with the times, if not ahead of them. See their list of goods.

CLIPPED DISPATCHES.

CHICAGO, March 15.—Major Handburg chief of the U S engineer department at Chicago, has been ordered to Portland, Or., to relieve Capt. Powell, now in charge of improvements of the mouth of the Columbia river and other public improvements. Major Handburg was stationed at San Francisco from 1867 to 1872.

SAN FRANCISCO, March 17.—O'Connor of Canada won the sculling race at Alameda to-day, defeating Peterson of California by four lengths. O'Connor's time was 29 minutes and 23 seconds.

WASHINGTON, March 19.—In the Senate this afternoon Senator Stanford, from the committee on public buildings, reported favorably the bill to erect a public building at Salem, Or. Its appropriation is cut down from \$100,000 to \$75,000.

SHANGHAI, March 19.—The earthquake shocks in Yun-Nan continued three weeks, destroying several towns and causing much damage to shipping. At Kien-Shin 4000 persons were killed.

FRANKFORT, Ky., March 20.—Gov. Buckner this morning suspended Treasurer of the State James W. Tate. Tate is charged with defalcation in his office, and is said to have fled the State. The defalcation of Tate has been treasurer twenty one years. An investigation was instituted on the recommendation of Gov. Buckner, and disclosed before noon a deficit in Tate's office of \$150,000. Irregularities run back eleven years. Tate had been Treasurer for twenty years, the last time he ran not even having any opposition. He was called "Honest old Dick Tate." His bondsmen are responsible men, and the amount of the security is \$300,000.

NEW YORK, March 20.—John P. King, the oldest living ex-U S Senator, died yesterday. He was born in Warren county, Ky., April 3rd, 1799.

WASHINGTON, March 20.—The President has nominated Strother M. Stocklager, of Indiana, to be commissioner of the general land office, and (Theo) J. Anderson, of Iowa, to be assistant commissioner of the general land office.

SAMUEL E. YOUNG,
Albany, Oregon.

ALTAGO.

3 YEAR OLD RECORD 2:42.

The Fast and Game Son of Altamont, 2:26 3-4, and Maggie Arnold, 2:35.

Will be at J. Schmeier's stable, Albany, Fridays and Saturdays of each week and will be allowed to serve a limited number of mares. Take notice of his remarkable breeding:

Sired by Altamont (Wagon record 2:26 3/4). First dam Maggie Arnold (record 2:35, public trial 2:29 1/2) by Altamont Mambrino (full brother to Mattie West, the most wonderful brood mare that ever lived according to her opportunities. 2:14 1/2; May Queen, 2:20, and is granddam of Protina, 2:18; Mosey, 2:14 1/2; Fanny Robinson, 2:28 1/2; Blackwood, Jr., 2:22 1/2, and 21 others in the 2:30 list.

Pilot, Jr., (sire of the 3rd dam of Altago) was directly the sire of John Morgan, 2:24; Tackey, 2:28; Tatter, 2:26, and 6 others with records of 2:30, or better, and is granddam of Maud S., 2:08 1/2; Jay Eye See, 2:10; Nutwood, 2:18 1/2; Noonide, 2:20; Mambrino 3/16, 2:20; Pilot Boy, 2:20; Nalad Queen, 2:20; Viking 2:20 1/2, and 33 others in the 2:30 list.

We invite a careful study of the blood lines that concentrate in the pedigree of this young horse. He has some of all the best in his veins and nothing in his veins but what is of the best take notice, he has the blood of the 4 great fountain heads, Hambletonian, Mambrino Chief, Alexander's Norman and Pilot, Jr. He has 3 crosses to Mambrino Chief, the head of the Mambrino family and 2 crosses to Hambletonian the founder of the Hambletonian family, while Norman sired his second dam and his the founder of the Pilot Jr. Don't ever look the fact that the blood of these great horses is handed down to him through the very speediest and best channels. Besides he is a true himself a very important thing for a man to know when he is breeding for speed. To horses bred like this backed up with a three year old record of 2:42 can do otherwise than get speed at the trotting gait.

The fee required for his service is far below that of any horse standing in Oregon, of like breeding and individual excellence. You that are breeding in the direction of light harness blood don't overlook Altago.

He will be allowed to serve mares at \$35 to insure. Payable when the mare is known to be in foal or has changed owners. Season \$25 payable at time of service, not responsible for accidents.

For further information or extended pedigree, address

D. B. MCKNIGHT,
Albany, Oregon.

AT COST. AT COST.
